

## **ONLINE PUBLIC FILE CARRIAGE STATEMENT**

Noncommercial educational station KTWU(TV), Topeka, Kansas, requests continued mandatory carriage of KTWU(TV) by all satellite carriers providing local-into-local service to the Topeka, Kansas Designated Market Area (“DMA”), including, but not limited to, DirecTV and Dish Network. KTWU(TV) expects continued carriage of its signal in HD format where required, and on its current channel position, contiguous to other local broadcast stations retransmitted by such satellite carrier. KTWU(TV) further expects its signal to be retransmitted in accordance with all other applicable FCC requirements, and fully reserves its enforcement rights thereunder. We are providing a copy of this notice by email as a courtesy to DirecTV and Dish Network, even though we understand it to be unnecessary because we are not altering our mandatory carriage request with respect to any DMA.

While KTWU(TV) is under no obligation to take further action at this time to preserve its mandatory carriage rights on any cable television system, KTWU(TV) fully reserves its enforcement rights under applicable provisions of the Communications Act, FCC rules or any private agreement relating to cable television system carriage of KTWU(TV).
