## **Quarterly Issues Report – Q3 Third Quarter, July 6-September 28, 2014 Radio Health Journal Programs 14-27 through 14-39**

**During the third quarter of 2014 the following compliancy issues were covered:**

Agriculture	Mental health
Business and industry	Mental illness;
Community activism	Parenting issues
Consumer safety	Pets and people
Consumerism	Police
Diet & Nutrition	Police brutality
Disabilities	Pollution
Economy	Poverty
Education	Prevention
Elderly and senior citizens	Prisons
Environment	Psychology
Family issues	Public health
Federal government and regulation	Public safety
Health care	Rehabilitation
Homelessness	School truancy
Interpersonal relationships	Technology
Laws and the legal system	Traffic and highway safety
Medicine & Medical Technology	Youth at risk

**Program # 14-27            Air week: 7-6-14**

SEGMENT 1: Cued speech for deaf children            11:36

Synopsis: The average deaf high school graduate reads at about a 4th grade level. Some schools are teaching a technique called cued speech to make phonics accessible to deaf people. Many educators say this helps with literacy. Experts explain and discuss.

Host: Reed Pence. Guests: Sarina Roffe, Executive Director, National Cued Speech Assn.; Angela Kuhn, Principal, Prek-K-8th Grade, Illinois School for the Deaf

**COMPLIANCY ISSUES COVERED:** education; youth at risk; school truancy; parenting issues; mental health issues

SEGMENT 2: Locked-In Syndrome            08:13

Synopsis: Some people who have a stroke in the brain stem suffer from a condition where they are fully conscious and aware, yet appear to be in a coma because they cannot move a muscle, except for sometimes the eyes. They may remain in this "locked-in" state for years.

Host: Nancy Benson. Guests: Allison O'Reilly, Locked-In Syndrome survivor and author, Out Of the Darkness; Dr. Ralph Sacco, Chairman of Neurology, Univ. of Miami Miller School of Medicine and former President, American Heart Assn.

**COMPLIANCY ISSUES COVERED:** health care; disabilities

**Program #14-28            Air week: 7-13-14**

SEGMENT 1: Antibacterial Silver Nanoparticles            11:36

Synopsis: Silver nanoparticles provide germ resistant characteristics to anything containing them, so silver nano is being added to all kinds of consumer products, from teddy bears to computer hard drives. However, scientists aren't sure what the effects of silver nano is in the environment or on the human body.

Host: Reed Pence. Guests: Dr. Samuel Luoma, Research Ecologist, John Muir Institute of the Environment, Rosalind Volpe, Exec. Director, Silver Nanotechnology Working Group; Marina Quadros, Research Scientist, Virginia Tech Univ.

**COMPLIANCY ISSUES COVERED:** technology; consumerism; business and industry; economy; health care; environment; consumer safety; federal government and regulation

SEGMENT 2: Back pain            7:07

Synopsis: Back pain hits 80 percent of Americans at some point in their lives. An expert discusses why it can be so hard to diagnose and treat.

Host: Nancy Benson. Guest: Dr. Steven Stanos, Director, Center for Pain Management, Rehabilitation Institute of Chicago

**COMPLIANCY ISSUES COVERED:** health care; public health; rehabilitation

**Program #14-29            Air week: 7-20-14**

SEGMENT 1: Talking to your baby 11:49

Synopsis: Scientists have discovered that the way parents talk to their infants has a huge effect on their intellectual development and later success. Experts discuss why and how parents should hold "conversations" with their babies.

Host: Reed Pence. Guests: Dr. Anne Fernald, Assoc. Prof. of Psychology, Stanford Univ.; Dr. Kimberly Noble, Assoc. Prof. of Pediatrics, Columbia Univ.

**COMPLIANCY ISSUES COVERED:** youth at risk; education; parenting issues; economics

SEGMENT 2: Near drowning and secondary drowning 7:23

Synopsis: Some 700 American children under age 14 die of drowning each year. But when a child is pulled out of the water and revived, they may face lifethreatening peril hours or days later as the body reacts. Experts discuss.

Host: Nancy Benson. Guests: Dr. Christopher Michos, emergency physician, St. Vincent's Medical Center, Bridgeport, CT; Dr. Luis Torero, Division Chief, Pediatric Critical Care, Advocate Children's Hospital, Oak Lawn, IL

**COMPLIANCY ISSUES COVERED:** youth at risk; parenting issues; public safety

**Program #14-30**                      **Air week: 7-27-14**                      11:14

SEGMENT 1: Fecal transplants

Synopsis: Doctors have discovered that a transplant of fecal material from a healthy person into a sick one can cure sometimes fatal c. difficile infections more than 90 percent of the time. In the past, the "ick factor" has contributed to the technique being seldom used. That is finally starting to change, and researchers are looking for ways to clean up the procedure.

Host: Reed Pence. Guests: Catherine Duff, founder and President, Fecal Transplant Foundation; Dr. Elizabeth Hohmann, Assoc. Prof. of Medicine, Harvard Medical School and Massachusetts General Hospital; Dr. Robert Orenstein, Chair of Infectious Diseases, Mayo Clinic--Arizona

**COMPLIANCY ISSUES COVERED:** health care; public health; consumerism

SEGMENT 2: The psychology of weight loss surgery                      8:31

Synopsis: People who get bariatric surgery often face drastically changed relationships with spouses, children, and friends. Their self image also often needs repair, all while they've lost their most reliable old coping mechanism--food.

Host: Nancy Benson. Guests: Dr. Adam Crane, psychologist, Kane Center for Advanced Surgical Weight Solutions and Suburban Surgical Care Specialists, Hoffmann Estates, IL; Dr. Nick Nicholson, Medical Director, Nicholson Clinic for Weight Loss Surgery, Plano, TX.

**COMPLIANCY ISSUES COVERED:** health care; consumerism

**Program #14-31**                      **Air week: 8-3-14**

SEGMENT 1: Are saturated fats as bad as we think?                      12:18

Synopsis: Most Americans know that saturated fats are bad for their health. But some experts now say saturated fat has been unfairly villified, the victim of bad science in the 1950's. Many of these scientists say the real culprit is carbohydrates in combination with fats. Other experts say the truth is much more complicated. Experts on both sides discuss the evidence.

Host: Reed Pence. Guests: Nina Teicholz, author, [Big Fat Surprise: Why Butter, Meat and Cheese Belong in a Healthy Diet](#); Dr. Eric Westman, Assoc. Prof. of Medicine, Duke Univ. Medical Center; Dr. Penny Kris-Etherton, Prof. of Nutrition, Penn State Univ.; Dr. Walter Willett, Chair, Dept. of Nutrition, Harvard School of Public Health

**COMPLIANCY ISSUES COVERED:** health care; public health; consumerism

SEGMENT 2: Asperger's Syndrome from inside 7:31

Synopsis: Most people don't understand Asperger's Syndrome, which affects high functioning people with autism. Most of those with the syndrome can't express what their lives are like, but here, one person with the syndrome articulates his unusual world.

Host: Nancy Benson. Guest: Aaron Likens, author, [Finding Kansas: Living and Decoding Asperger's Syndrome](#)

**COMPLIANCY ISSUES COVERED:** disabilities; mental health; education

**Program #14-32**                      **Air week: 8-10-14**                      11:48

SEGMENT 1: Police crisis intervention teams

Synopsis: Police confrontations with mentally ill subjects can quickly turn tragic, as neither side often understands the other. Specially trained crisis intervention teams have spread around the country to prevent deaths, injuries, and unnecessary incarceration. Experts discuss how CIT works.

Host: Reed Pence. Guests: Laura Usher, Crisis Intervention Team Program Manager, National Alliance on Mental Illness (NAMI); Mary Neal, Director and co-founder, Assistance to the Incarcerated Mentally Ill; Dr. Randolph DuPont, clinical psychologist and Prof. of Criminal Justice, Univ. of Memphis; Sam Cochran, Major, Memphis Police Dept. (retired) and Project Coordinator, Univ. of Memphis CIT Center.

**COMPLIANCY ISSUES COVERED:** public safety; mental illness; police and criminal justice; police brutality; education; community activism; prisons

SEGMENT 2: Zoobiquity: diseases and disorders we share with animals 8:11

Synopsis: Humans and animals share many diseases, and surprisingly, many behavioral disorders as well.

Host: Nancy Benson. Guests: Dr. Barbara Natterson-Horowitz, cardiologist, UCLA Medical Center and co-author, [Zoobiquity: What Animals Can Teach Us About Health and the Science of Healing](#); Kathryn Bowers, co-author, [Zoobiquity](#)

**COMPLIANCY ISSUES COVERED:** pets and people; psychology

**Program #14-33**                      **Air week: 8-17-14**

SEGMENT 1: Alzheimer's from inside 12:42

Synopsis: Millions of Americans will experience the slow loss of memory due to Alzheimer's disease. But what is it like for those going through it. A journalist describes how he hopes to provide the most detailed look yet as he progresses through early-onset Alzheimers.

Host: Reed Pence. Guest: Greg O'Brien, author, On Pluto: Inside the Mind of Alzheimer's

**COMPLIANCY ISSUES COVERED:** health care; public health; consumerism; family issues; elderly and senior citizens; disabilities

SEGMENT 2: Seasonal eating 8:08

Synopsis: Eating fruits and vegetables that are locally in season has many health benefits, but consumers also need to be careful of pesticides. Experts discuss.

Host: Nancy Benson. Guests: Jolene Hart, author, Eat Pretty: Nutrition for Beauty Inside and Out; Dr. Alex Lu, Assoc. Prof. of Environmental Exposure Biology, Harvard Univ. School of Public Health; Joan Dye Gussow, Prof. Emeritus and former Chair, Columbia Teachers College Nutrition Education Program and author, This Organic Life: Confessions of a Suburban Homesteader

**COMPLIANCY ISSUES COVERED:** Consumerism; agriculture; environment and pollution; public health

**Program #14-34 Air week: 8-24-14**

SEGMENT 1: Setting speed limits 11:28

Synopsis: Auto crashes kill more than 35,000 people in the US each year, but that toll is down dramatically even as speed limits have been going up. Engineers now realize that artificially slow speed limits can be more dangerous than high speeds.

Host: Reed Pence. Guests: John Bowman, Communications Director, National Motorists Assn.; Lt. Garry Megge, Traffic Services Division, Michigan State Police; Dr. David Noyce, Prof. of Civil and Environmental Engineering and Director, Traffic Operations and Safety Laboratory, Univ. of Wisconsin-Madison.

**COMPLIANCY ISSUES COVERED:** traffic and highway safety; public safety; police, laws and legal system

SEGMENT 2: When summer bites 12:31

Synopsis: Summer vacation can be marred by mosquito and tick bites and by the rash of poison ivy. Home remedies abound on the internet, but do any of them work? What does? Experts discuss the best ways to avoid these problems and get relief.

Host: Nancy Benson. Guests: Joseph Conlon, Technical Advisor, American Mosquito Control Association; Dr. Phillip Baker, Exec. Dir., American Lyme Disease Foundation; Dr. Jamie Weisman, scholar, American Academy of Dermatology and physician, Peachtree Dermatology Associates, Atlanta.

**COMPLIANCY ISSUES COVERED:** consumerism

**Program #14-35 Air week: 8-31-14**

SEGMENT 1: Hypoplastic left heart syndrome 12:28

Synopsis: Newborns born with virtually "half a heart" can now be saved through a series of surgeries rerouting their heart blood flow. An expert, a cardiac nurse and the mother of one such child discuss the successes and questions these procedures raise.

Host: Reed Pence. Guests: Diana Scoles, mother of child born with hypoplastic left heart syndrome; Dr. Michael Gewitz, Physician In Chief & Chief, Pediatric Cardiology, Maria Fareri Children's Hospital, Westchester Medical Center, Valhalla, NY, Prof. of Medicine, New York Medical College and past Chair, Council of Cardiovascular Disease in the Young, American Heart Assn; Angela Boomsma, nurse in Advocate Medical Group Pediatric Cardiology Practice

**COMPLIANCY ISSUES COVERED:** health care; youth at risk; technology

SEGMENT 2: Cystic fibrosis nutrition 7:49

Synopsis: Most people know cystic fibrosis as a disease that clogs the lungs with mucous, but the same sort of mucous also clogs ducts for digestive secretions, making it very difficult for CF patients to digest food and get adequate nutrition. Two experts discuss the results of this problem and ways patients get around them.

Host: Nancy Benson. Guests: Sue Landgraf, mother of CF patient and Executive Director, Cystic Fibrosis Research, Inc.; Suzanne Michel, registered dietitian and Clinical Asst. Prof, Medical Univ. of South Carolina Cystic Fibrosis Center.

**COMPLIANCY ISSUES COVERED:** consumerism; health care; youth at risk

**Program #14-36 Air week: 9-7-14**

SEGMENT 1: "Marriage 101" 7:54

Synopsis: Nearly half of marriages end in divorce in the US. A college course at Northwestern Univ. seeks to give students tools to build relationships that last, with lessons for all of us. The course's teacher and a student who recently took the course explain.

Host: Reed Pence. Guests: Dr. Alexandra Solomon, Asst. Clinical Prof. of Psychology, Northwestern Univ.; Denise Zou, student, Northwestern Univ.

**COMPLIANCY ISSUES COVERED:** family relationships; interpersonal relationships; education

SEGMENT 2: TBI's and homelessness 11:24

Synopsis: New research is showing that a remarkably high proportion of homeless men have suffered a traumatic brain injury in the past, raising the possibility that TBIs may cause behaviors directly leading to homelessness.

Host: Nancy Benson. Guests: Dr. Jane Topolovec-Vranic, Associate Scientist, St. Michael's Hospital, Toronto, and Asst. Prof. of Occupational Science, Univ. of Toronto; Dr. Steven Hwang, Research Scientist, St. Michael's Hospital, Toronto, and Prof. of Medicine, Univ. of Toronto

**COMPLIANCY ISSUES COVERED:** homelessness; poverty; health care; rehabilitation; prevention

**Program #14-37 Air week: 9-14-14**

SEGMENT 1: Discoid lupus 9:23

Synopsis: Lupus results when the immune system turns on the body, producing inflammatory attacks on virtually any organ. A minority of patients have lupus only on the skin, and while this is not life threatening, it can still be psychologically devastating.

Host: Reed Pence. Guests: Dr. Christopher Hansen, Asst. Prof. of Dermatology, Univ. of Utah; Dr. Victoria Werth, Prof. of Dermatology, Univ. of Pennsylvania & Chief, Dermatology Section, Philadelphia VA Medical Center; Dr. Betty Diamond, Investigator, Fineston Institute for Medical Research

**COMPLIANCY ISSUES COVERED:** health care; consumerism; technology

SEGMENT 2: "Prozac kids" grow up

12:14

Synopsis: Use of prescription medications for mental disorders among children and adolescents is growing rapidly. An author, herself a Prozac user since age 17, discusses attitudes toward medications revealed in her extensive interviews with dozens of similar subjects.

Host: Nancy Benson. Guests: Kaitlin Bell Barnett, author, [Dosed: The Medication Generation Grows Up](#)

**COMPLIANCY ISSUES COVERED:** youth at risk; mental illness; education

**Program #14-38**

**Air week: 9-21-14**

SEGMENT 1: Income and life expectancy

12:06

Synopsis: Average life expectancy in the US is increasing, but among lower income people it is not, and the lifespan gap between rich and poor is increasing. Even middle class people have shorter lifespans than the rich. Experts discuss how a large income buys extra years of life, and why a lower income produces barriers to a longer life.

Host: Reed Pence. Guests: Dr. David Kindig, Emeritus Prof. of Population Health Sciences, Univ. of Wisconsin-Madison; Dr. Michael Reisch, Daniel Thursz Distinguished Prof. of Social Justice, Univ. of Maryland

**COMPLIANCY ISSUES COVERED:** public health; economics; poverty; youth at risk; employment; worker safety; health care; consumerism

SEGMENT 2: Traveling with a disability

8:19

Synopsis: Leisure travel is possible for people with disabilities if they plan well in advance and communicate their needs ahead of time. A travel writer with a disability discusses.

Host: Nancy Benson. Guest: Kendra Williams, Executive Editor, [MSTravels.org](#).

**COMPLIANCY ISSUES COVERED:** disabilities; consumerism

**Program # 14-39**

**Air week: 9-28-14**

SEGMENT 1: High school starting times

12:41

Synopsis: Research is piling up showing that high school age students have a natural circadian rhythm that calls for them to sleep from about 11:00pm to 8:00am. Most schools start class before 8:00, leaving most students with a severe and detrimental sleep deficit. Experts discuss how a growing number of schools are pushing classes to later in the day for student benefit.

Host: Reed Pence. Guests: Dr. Kyla Wahlstrom, Director, Center for Applied Research and Educational Improvement, Univ. of Minnesota; Dr. Terra Ziporyn Snider, Co-Founder & Exec. Director, Start School Later.

**COMPLIANCY ISSUES COVERED:** public health; education; youth at risk

SEGMENT 2: The search for why we yawn

6:59

Synopsis: Virtually all vertebrates yawn, but no one really knows why we do it. Experts discuss theories and the evidence behind them.

Host: Nancy Benson. Guests: Dr. Robert R. Provine, Prof. of Psychology, Univ. of Maryland-Baltimore County; Dr. Andrew Gallup, Asst. Prof. of Psychology, State Univ. of New York at Oneonta

**COMPLIANCY ISSUES COVERED:** consumerism

Quarterly Issues Report – Q3 Third Quarter, July 6-September 28, 2014  
Viewpoints Programs 14-27 through 14-39

During the third quarter of 2014 the following compliancy issues were covered

African-American Issues	Health Care
Agriculture	History
Animal Welfare And Abuse	Hobbies
Arts & Literature	Interpersonal & Business Communication
Bullying	Labor
Business	Law, Legislation & the Court System
Celebrity Culture	Medicine
Children & Family Issues	Mental Health
Civil Rights	Non-Profit Organizations
Commerce	Politics
Communication	Pop-Culture & Pop-Media
Construction Trades	Poverty
Crime	Prisons
Depression & Anxiety	Racism
Ecology	Recreation
Education	Schools
Employment	Science & Technology
Environment	Small Business
Farming	Sports & Recreation
Film & Media	Suicide
Finance	Therapy
Folklore	Wildlife & Endangered Species
Government	Youth At Risk
Health & Well Being	

Description of Issue	Program/Segment	Date	Time of Day	Duration	Description of Segment
arts & literature; recreation; business; film & media	Program #14-27 Segment 1	7/6/14		10:49	<p>SEGMENT #1 – Thrillers: What they are and why we love them</p> <p>SYNOPSIS: When vacation time comes, people head for the pool, the beach and to resorts for some rest and relaxation. Many of them take along a good “beach read” - a book that lets them get out of themselves and enjoy an exciting, romantic or mysterious story. Thrillers are among the most popular vacation books, and we talk to two best-selling authors about what it takes to write in the genre.</p> <p>Host: Gary Price. Guests: Steve Berry, author of the Cotton Malone series of thrillers, the most recent, “The Lincoln Myth,” and Steve Martini, author of the Paul Madriani series of thrillers. Both authors are contributors to the thriller anthology, “Face Off”.</p>
prisons, crime, business, education	Program #14-27 Segment 2	7/6/14		10:44	<p>SEGMENT #2- Making a Success of Your Life – After Prison</p> <p>SYNOPSIS: We talk to a former three-time convict who had a wake-up call while in prison and turned his life around. We discuss how he came to the realization that his problems were of his own making, how he changed his attitude and created a mindset to facilitate his ambition to make it in business – legally – and how anyone with perseverance and positive thinking can achieve their goals.</p> <p>Host: Marty Peterson. Guests: Weldon Long, entrepreneur, trainer, speaker, author of “The Power of Consistency,”</p>
arts & literature, media, African-American issues, crime, history.	Program #14-28 Segment 1	7/13/14		9:16	<p>SEGMENT #1 – Letters: What they teach us and why they’re important</p> <p>SYNOPSIS: When was the last time you wrote or received a real, handwritten letter in the mail? It’s sad that there are young people today will never experience the joy of getting or writing a personal letter during their lives. We talk to a writer and editor about the importance of letter writing, and what we can learn from reading letters from notables and unknowns of the past.</p> <p>Host: Gary Price. Guests: Shaun</p>
