Synopsis: 911 is literally a lifeline for millions of Americans, but it's mostly based on old technology depending on landline phones to know where callers are. But egg donation (or sale, as some insist) is not regulated, and while short-term risks are known, few donors have been followed for years. Long-term risks are not well understood. Experts discuss what we know... and what we don't.

Synopsis: Many local jurisdictions have criminalized activities of the homeless, such as sleeping on public streets or panhandling.
