7/3/2023	New TMP 4pm KHNL	4pm pkg Skyline Morning Commute First Day	Skyline Morning Commute First Day. Today marks the first full commuting weekday that Skyline is open for riders. Casey Lund was out in Kapolei early this morning to see who's taking it to work. Aloha from the uh West Oahu Skyline station today was the first full commuter day and of course it was a holiday. Maybe some folks taking it off in waiting for that Fourth of July holiday on Tuesday. Things were pretty quiet though. We did see some more writers parking at this really large park and ride station. Earlier this morning though, things were pretty quiet. But what made you want to kind of give Skyline the Honolulu Rail System a try and give it a shot.	0:02:30
7/3/2023	New TMP 4pm KHNL	4pm vsv Rail Weekend Issues	Rail Weekend Issues. Rail officials say they were very happy with the number of people who tried Skyline this weekend but they also report some issues. Some people apparently fell or were injured due to either train motion or issues at the stations. While some riders did report the incidents...others were only mentioned on social media. The city is urging people to report even minor falls to rail staff. There was also one train that stopped before a station and had to be manually driven to the platform. Officials think that might have happened because someone had previously blocked the gates or doors from closing.	0:01:10

7/3/2023	New TMP 5pm KHNL	5pm pkg Rail Bus Transfers	Rail Bus Transfers. City transportation officials have worked hard to coordinate opening of the Skyline rail system with local bus routes. This was the Halawa station platform near Aloha Stadium on Skyline's second week....a stark difference from opening day on June 30th. Were most of the trains where standing room only.	0:02:48
