WJCZ

91.3 FM Milford, Illinois

3rd Quarter 2017

1. Education

Calvary Radio believes that a good biblical education is the foundation for spiritual success. Education is important because the more knowledgeable we are in the word of God the better equipped we are to stand firm in the confidence of his truth. We also believe that, in addition to studying God's word, it is important that our children are getting a good education in schools and that our undergraduate and graduate students are being taught unbiased truth in their learning institutions. So we encourage people to stand up for truth and fight for good teachers in educational systems.

2. The Economy, Employment & Personal Finance

Due to the current economic recession, families in northwest Indiana are experiencing a higher difficulty in being able to acquire a mortgage, find employment and afford health care. We at Calvary Radio try to provide programming that encourages our listeners to make wise financial decisions through good financial stewardship during these uncertain times and to put their trust in God knowing that he provides for our needs.

3. Family & Marriage

Calvary Radio provides programming for all types of people from all types of families understanding that no family situation is perfect. We desire to provide programming that addresses all types of issues for struggling families. But our solution to these issues is found in Biblical principles and spiritual wisdom not just in psychologists and self-help books. We strongly promote a family first structure of living with a high value put on Biblical marriage.

4. Children & Youth

Seeing as how children are our future, Calvary Radio broadcasts various programs geared specifically to certain age groups in the hopes that kids will be challenged to grow in their spiritual lives and become good citizens as they grow older and mature in their faith and relationships with people. We provide Children's programming on Saturday Mornings and Youth programming on Monday evenings and weekends. Hoping to encourage youth to take their faith seriously and not succumb to peer pressure that may advise them to do otherwise.

5. Spiritual Growth & Practical Christian Living

Spiritual growth is one of Calvary Radio's main goals. We try and encourage spiritual growth in our listeners by broadcasting programming with sound Biblical teachers and challenging messages as well as praise and worship music to keep listeners encouraged and edified throughout their week. We strongly urge our listeners to seek to grow in their faith and not be content with a inactive relationship with God.

6. Religious Freedom, Oppression and Terrorism

The signal of WHLP and its translators covers the Chicagoland area, where terrorism is a bigger threat than elsewhere in the US so we at Calvary Radio are doing our best to educate people on the safety level of our area while reminding our listeners that God is our only source for true safety. And while religious and constitutional freedoms are often an issue in schools and are part of America's constant struggle with taking God out of the schools. Calvary Radio brings programming that addresses the true heart issues of fear and security.

7. Public Health

With health care costs on the rise and insurance prices increasing, families in the area often have to live without insurance and the uncertainty of what will happen to them if health problems occur. So we air programming that deals with ways to acquire health insurance and how to maintain good health if health care is unavailable to you. Centering on the fact that our bodies are God's temple and we should do our best to take care of them but understanding that they're also temporary and God has a more perfect plan for us waiting in Heaven someday.

8. Public Safety

Whether our listeners have to deal with icy roads, blazing fires or windy weather, we want them to be well equipped for anything that could come their way. So we provide programming to deal with some of the safety issues in hopes that it may just save a life one day. That's why it's important to us that listeners be aware of safety hazards within their homes, cars and workplaces.

Calvary Radio is committed to truth in radio and, in keeping with that commitment, our programming consists mostly of sound biblical teaching programs with a primary focus on the truth of God's word and its instruction to us.

Along with those teachers we also broadcast Jay Sekulow Live, a daily radio outreach program of the American Center for Law and Justice. Hosted by ACLJ Chief Counsel Jay Sekulow, this live call-in program focuses on the legal and legislative battles underway across America.

The following programs, however, we receive no financial reimbursement for broadcasting and are strictly for the purpose of inciting community interaction, encouraging education and discussing issues that relate to the city and county

The Following Programs for this Quarter Include

Side A: 7/1/2017

God's Purpose for America

 1526

To destroy a culture, destroy their history. Young people know less about Independence Day than any other holiday. [Peter Marshall](#), author of [The Light And The Glory: Did God have a plan for America?](#) answers that with examples of God's miraculous protection of our Continental army with a heavy fog hiding them from capture and slaughter from the world's greatest military force at the time - Great Britain. Peter Marshall vividly describes the horrendous starving army at Valley Forge and the vision that gave them the courage to fight on against impossible odds. Is God's vision for America still valid today?

Side B: 7/9/2017

Revising American History

 1527

The *College Board* History Standard's Framework, being implemented in high schools nationally, eliminates our Founders like Jefferson, Washington and Franklin, erasing them from history. No mention of Pilgrims, World War II, Viet Nam etc., because it doesn't fit their liberal/globalist agenda. American *exceptionalism* is replaced with American *imperialism*. [Larry Kreider](#) says this propaganda, masquerading as history, eliminates all the good achievements made by Americans and turns young people against their own nation by changing our history to focus on *white superiority* racism, slavery and oppression.

Side A: 7/16/2017

To Go To College or Not pt 1

 1528

Does a college degree mean you can get a better job than if you don't have the degree? College is vastly different today than in the past. [Dr Jonathan Morrow](#), author of [Welcome To College -A Christ Follower's Guide For The Journey](#), is the Director of *Cultural Engagement* at *Impact 360 Institute*. Students absolutely need to be trained if they are to have a chance to withstand the barrage of attacks. He says, "Going to college is no vacation but 4 years of brain and heart surgery." A majority of college students don't believe in absolutes. Why does God allow evil and suffering? Should Christians date non-Christians?

Side B: 7/23/2017

To Go To College or Not pt 2

 1529

The percentage of Christians in this generation has declined to just 4%. A huge percentage lose their faith at college. How can a Christian survive in an anti-Christian campus? [Abby Nye](#), a courageous Christian, university student, and author of [Fish out of Water-Surviving & Thriving as a Christian on a Secular Campus](#), tells how professors intimidate and convert Christians into humanism. Her literature professor told Abby that the Bible is a book of myths and not a credible source. Yet she was required to buy a Koran for her required class on Islam. What's the future for the Church as the majority leave the faith

Side A: 7/30/2017

A Nuclear EMP Attack

 1530

What happens when the electrical grid is shut down? Former CIA Director James Woolsey says we are very vulnerable to an enemy EMP attack. [Mike Maloof](#), author of [A Nation Forsaken-EMP: The Escalating Threat of An American Catastrophe](#), spent 30 years with the Defense Department protecting us from terrorism, and now warns that it's not "if" but "when" an EMP will be exploded over this country. The results will be catastrophic. It's preventable, but our government is ignoring it, so we need to prepare ourselves. A huge solar flare, an EMP or RF weapons are a real threat. What can we do to be prepared?

Side B: 8/6/2017

Raising Boys To Succeed

 1531

Are girls smarter than boys? Why are two-thirds of the D's and F's given to boys? Boys learn differently than girls. The system is biased against boys. A boy's desire to learn is quenched by a system that doesn't understand how boys learn. There are scientific differences between the way boys and girls think and learn. [Dr Michael Gurian](#), author of [Raising Boys By Design, What the Bible and Brain Science Reveal About What Your Son Needs to Thrive](#), has done extensive research in brain science to help parents understand boys and help them succeed. It's easier to build strong boys than to repair broken men

Side A: 8/13/2017

Crimes of The Educators

 1532

Common Core, the new federal takeover of local schools through curriculum and tests, is causing parents to reconsider public schools. [Alex Newman](#), co-author of [Crimes of the Educators - How Utopians are Using Government Schools to Destroy America's Children](#), says there has been a deliberate dumbing down of children by using a reading method that fails to teach reading, memorizing whole words instead of phonetics, to create illiterates dependent on the government. Teaching immoral sex ed. results in cultural degeneracy. The result is the transformation from Christian and capitalist, to socialist and totalitarian.

Side B: 8/20/2017

Public Schools and the Decline of Christianity

 1533

For all the basic problems of abortion, immorality and illiteracy, there must be a root cause. [Colin Gunn](#), producer of [Indoctrination- Public Schools and the Decline of Christianity](#), says our culture is the product of our schools. Christian students and teachers are forbidden from being Christian! Yet secular educators are given awards for promoting atheism and homosexuality. We are losing our culture, because Christians have refused to educate their own children but continue to support a corrupt system. Why do parents trust their precious children to a system that destroys their faith in God?

Side A: 8/27/2017

Home School Genius part 1

 1534

How can you develop a genuine love for learning in your child? [Carole Seid](#), an educational consultant said, "The single most effective tool in shaping a child's character is great literature." *The right book at the right time can change a child's destiny*. How can parents build genius in their children? [Dr Raymond Moore](#), the grandfather of homeschooling, says statistical research of geniuses throughout the ages shows there are three common elements to producing genius. Jesus said, "The greatest commandment is to love the Lord with all your ... MIND." A secular education *can't do that* but home schooling can

Side B: 9/3/2017

Home School Genius part 2

 1535

Parents! The education you choose for your child will determine their success or failure in life! How do home-schooled students do as adults? If a child does not go to school, *how will they learn to interact with other people?* Now there's a comprehensive research study answering all your questions on home schooling. A leading researcher, [Dr Brian Ray](#), President of the *Home Education Research Institute*, found homeschoolers were more socially and political involved. And that 94% of home schooled students kept the faith of their parents! While the majority, 85% of those who go to public schools reject their Christian faith.

Side A: 9/10/2017

War Against Islamic Jihad part 1

 1536

What does America represent to the world? Does America have a unique culture or is it just a melting pot? [Col. Larkin Spivey](#), a combat US Marine and the author of [What Do We Stand For? American Ideals in the War Against Islamic Jihad](#), says Islamic Jihad is contrary to our Constitutional freedoms, yet Islamists pose a serious threat with Sharia Law that would undermine our basic principals. The Founders gave individuals the greatest freedom in history by limiting government; in stark contrast to Islam Sharia Law's oppression by a few. American is unique because of belief that Christ gave us freedom.

Side B: 9/17/2017

War Against Islamic Jihad part 2

 1537

American universities have become breeding grounds for recruiting students into Islam! [Kamal Saleem](#), a Muslim terrorist trained to kill infidels, went on his first mission to kill Israelis at age 7. He came to America to recruit students into Jihad, but through a life threatening car accident, he turned to Christ, and Christ appeared to him. How could anything other than an authentic experience with the Risen Christ explain the complete transformation of the hardened mind of this Muslim terrorist? Kamal has become such a fearless and zealous Christian that he goes into Mosques to convert Muslims to Christ.

Side A: 9/24/2017

Great News for Americans part 1

 1538

[Gerard Lameiro](#), author of [Great News For America- The Constitution, Freedom and Prosperity Are Coming Back](#), correctly

predicted a conservative victory for Trump when the media said he didn't have a chance. He predicts the diminishing of RINO republicans and the end of the liberal Democrat Party. He now predicts true conservatives will gain control in Congress and we will see the end of the Roe v Wade abortion holocaust and the national debt paid off. He says, "We are just beginning to witness a *new conservative revolution*. God is answering the prayers of His people!" This is great news!
