

Issues and Programs Report
for

WJCZ

91.3 FM, MILFORD, ILLINOIS

1st Quarter 2014

Calvary Radio, through talking with pastors, community leaders and people with a strong concern for their community, have determined that the following issues are the current issues of highest concern in the area and this report has been created to show how we have addressed these issues.

1. Education

Calvary Radio believes that a good biblical education is the foundation for spiritual success. Education is important because the more knowledgeable we are in the word of God the better equipped we are to stand firm in the confidence of his truth. We also believe that, in addition to studying God's word, it is important that our children are getting a good education in schools and that our undergraduate and graduate students are being taught unbiased truth in their learning institutions. So we encourage people to stand up for truth and fight for good teachers in educational systems.

2. The Economy, Employment & Personal Finance

Due to the current economic recession, families in northwest Indiana are experiencing a higher difficulty in being able to acquire a mortgage, find employment and afford health care. We at Calvary Radio try to provide programming that encourages our listeners to make wise financial decisions through good financial stewardship during these uncertain times and to put their trust in God knowing that he provides for our needs.

3. Family & Marriage

Calvary Radio provides programming for all types of people from all types of families understanding that no family situation is perfect. We desire to provide programming that addresses all types of issues for struggling families. But our solution to these issues is found in Biblical principles and spiritual wisdom not just in psychologists and self-help books. We strongly promote a family first structure of living with a high value put on Biblical marriage.

4. Children & Youth

Seeing as how children are our future, Calvary Radio broadcasts various programs geared specifically to certain age groups in the hopes that kids will be challenged to grow in their spiritual lives and become good citizens as they grow older and mature in their faith and relationships with people. We provide Children's programming on Saturday Mornings and Youth programming on Monday evenings and weekends. Hoping to encourage youth to take their faith seriously and not succumb to peer pressure that may advise them to do otherwise.

5. Spiritual Growth & Practical Christian Living

Spiritual growth is one of Calvary Radio's main goals. We try and encourage spiritual growth in our listeners by broadcasting programming with sound Biblical teachers and challenging messages as well as praise and worship music to keep listeners encouraged and edified throughout their week. We strongly urge our listeners to seek to grow in their faith and not be content with a inactive relationship with God.

6. Religious Freedom, Oppression and Terrorism

The signal of WHLP and its translators covers the Chicagoland area, where terrorism is a bigger threat than elsewhere in the US so we at Calvary Radio are doing our best to educate people on the safety level of our area while reminding our listeners that God is our only source for true safety. And while religious and constitutional freedoms are often an issue in schools and are part of America's constant struggle with taking God out of the schools. Calvary Radio brings programming that addresses the true heart issues of fear and security.

7. Public Health

With health care costs on the rise and insurance prices increasing, families in the area often have to live without insurance and the uncertainty of what will happen to them if health problems occur. So we air programming that deals with ways to acquire health insurance and how to maintain good health if health care is unavailable to you. Centering on the fact that our bodies are God's temple and we should do our best to take care of them but understanding that they're also temporary and God has a more perfect plan for us waiting in Heaven someday.

8. Public Safety

Whether our listeners have to deal with icy roads, blazing fires or windy weather, we want them to be well equipped for anything that could come their way. So we provide programming to deal with some of the safety issues in hopes that it may just save a life one day. That's why it's important to us that listeners be aware of safety hazards within their homes, cars and workplaces.

Calvary Radio is committed to truth in radio and, in keeping with that commitment, our programming consists mostly of sound biblical teaching programs with a primary focus on the truth of God's word and its instruction to us.

Along with those teachers we also broadcast Jay Sekulow Live, a daily radio outreach program of the American Center for Law and Justice. Hosted by ACLJ Chief Counsel Jay Sekulow, this live call-in program focuses on the legal and legislative battles underway across America.

The following programs, however, we receive no financial reimbursement for broadcasting and are strictly for the purpose of inciting community interaction, encouraging education and discussing issues that relate to the city and county of license.

Pastor's Perspective

Pastor's Perspective is a live call in show, simulcast on Calvary Radio from KWVE in Santa Ana, California. Various pastor's host the show to answer theological, spiritual and social questions from callers throughout the country with the goal of educating people on God's word and challenging them to grow in a deeper relationship with Christ through studying his word and seeking His wisdom for their lives.

Pastor's perspective is broadcasted weekdays at 5:00pm CST and runs 58 minutes long and most commonly covers issues regarding Spiritual Growth, Family & Marriage through answering questions related to these topics.

Saturday Morning Kids Show

Two hours of story time for children is provided to teach about spiritual and social things children can understand. This is used as an alternative to Saturday morning television, with little or no educational value, aimed at children.

Programming starts at 7am CST on Saturdays and shows include: Praise club workshop, Paws & Tales, Bible News Network, Praise Club Workshop and Adventures in Odyssey which cover issues related to children like the benefit of sharing, loving one another and loving God.

Battleground

Battleground is a live, 25 minute show dedicated to reaching out to the community through a short devotional message and a time of intercessory prayer. The devotional time is dedicated to encouraging and strengthening believers through the word of God. It then moves to a time of prayer for needs and concerns called in by listeners throughout the area. Its focus is to address the needs of people in the community in the best way we know how. Through intercessory prayer to our God.

It is our desire to lift up prayer requests from people of all races and religions in an effort to reach out to those who don't have Jesus Christ as their personal savior.

Prayer requests are received any time day or night through people e-mailing us at battleground@calvaryradionetwork.com or by calling the station toll free at 866-303-9457 and dialing the special battleground extension number 203. Requests are taken by staff members during normal business hours and any time there is staff present at the studios.

Battleground is broadcast weekdays at 10:30am CST with various pastors from around the nation and covers a wide variety of issues due to prayer requests that stem from family & marriage to the economy & unemployment to youth and children to spiritual growth and more.

Issues In Education

Issues in Education is an interview show exploring issues with Christianity in schools, education, and intellectual thought. It's hosted by Bob and Geri Boyd with a goal of educating and informing listeners of things going on in schools and in the world that they may not be aware of as well as challenging people to get involved in their community.

Issues in Education is broadcasted at 4:30am Sunday Mornings

The Following Programs for this quarter include:

Guest: Stephen Nichols

Date: 01/04/2014

Issue/s Addressed: Issues In Education – Bonhoeffer – Cost of Discipleship

The way to teach character is through role models and biographies. Brilliant young German theologian, [Dietrich Bonhoeffer](#), author of [The Cost of Discipleship](#), challenged Hitler and the compromised German Church. Because Bonhoeffer lived a cross centered life he also died a martyr's death at the age of 39. Professor **Stephen Nichols**, professor at [Lancaster Bible College](#) and the author of [Bonhoeffer – On the Christian Life, From The Cross, For The World](#), sees parallels between Germany in Bonhoeffer's day and our society today and what it means to be a true disciple. "Silence in the face of evil is itself evil," wrote Bonhoeffer.

Guest: Ed Klein

Date: 01/11/2014

Issue/s Addressed: Issues In Education – Non-Affordable Healthcare

What's the purpose of public education? Is it to train students to become socialists? [Ed Klein](#), author of [The Amateur – Obama in The White House](#), says the real issue is not about healthcare for the poor, but a complete socialist takeover of our nation. [Amy Ridenour](#), author of [Shattered Lives – 100 Victims of Government Health Care](#), says, "Socialized medicine will have the compassion of the IRS, the efficiency of the Post Office and all at Pentagon prices." Socialized medicine puts a government bureaucrat between you and your doctor and determines who lives and who dies based on costs to the state.

Guest: Orlean Koehl

Date: 01/18/2014

Issue/s Addressed: Issues In Education – Common Core Part I

Socialists have created a masterpiece to transform America called [Common Core](#). Under the guise of reform, Common Core indoctrinates students and brings in all the worst educational fads like fuzzy math and re-written history. Common Core is a pernicious threat to our children and to our future. This is the "education" that Hitler, Mao and Stalin used to make youth compliant. [Orlean Koehl](#), author of [Common Core – A Trojan Horse](#), says schools are being used for a socialist take over. [Emmett McGroarty](#), author of [Controlling Education From the Top](#), says centralized control over education is the road to ruin.

Guest: Nicholas Aggor

Date: 01/25/2014

Issue/s Addressed: Issues In Education – Common Core Part II

Common Core literature is propaganda undermining patriotism. Common Core math is an absurd experiment that fails to teach simple math. [Orlean Koehl](#), author of [Common Core – A Trojan Horse](#), says Common Core is designed to make a compliant workforce. Teacher [Andrew Bernstein](#), says parents would be horrified if they knew students are not learning basic arithmetic. Gathering students into groups creates mindless followers as in Communist nations. Engineer, [Nicholas Aggor](#), was so troubled his sons were doing so poorly at math, he wrote his own series of math textbooks and they excelled!

Guest: Chuck Crismier

Date: 02/01/2014

Issue/s Addressed: Issues In Education – King of the Mountain Part I

Could we really be living in the Last Days as prophesied in the Bible? In Genesis 12, God says He will bless those who bless Israel and curse those who curse Israel. As America turns away from Israel to support Israel's enemies, with billions of dollars in aid and armaments, we may be facing God's judgment. [Chuck Crismier](#), author of [King of the Mountain, the Eternal, Epic, End-Time Battle](#), spent 30 years in pastorates and 20 years as a trial lawyer and 9 years as a teacher, has been called the prophet of our time. A one-world government is contrary to God's Word. God calls our nation to be separate.

Guest: Chuck Crismier

Date: 02/08/2014

Issue/s Addressed: Issues In Education – King of the Mountain Part II

Fulfilled prophecy is God's proof for His Divinely inspired Word. A nation being born in a day was prophesied by Isaiah thousands of years ago & was fulfilled on May 15, 1948, as Israel was born in one day. [Chuck Crismier](#), author of [King of the Mountain, the Eternal, Epic, End-Time Battle](#), says we may see the culmination of Biblical prophecy in our day. [Joel Rosenberg](#), author of [Damascus Countdown](#), says, "If Israel launches a preemptive strike against Iran, Iran's retaliation and the Islamic world could be *overwhelming*. An atomic Iran could do in 6 minutes what it took Hitler 6 years to do, kill 6 million Jews."

Guest: Laura Hollis

Date: 02/15/2014

Issue/s Addressed: Issues In Education – The President Is Not a King

Our Founders fought a war for our independence; will we now surrender our freedoms to become subjects to a king? Obama acts more like a king than a president. Attorney [Laura Hollis](#), teaches entrepreneurship and business law at Norte Dame, author of an article entitled, [Obamacare Should Remind Us We Are Not Subjects](#), says, "It's shocking that millions of free Americans stand idly by while this man systematically dismantles our Constitution, steals our money and crushes our freedoms." History is replete with examples of how tyrants rose to power in the same way our President is doing so now.

Guest: Andy Andrews

Date: 02/22/2014

Issue/s Addressed: Issues In Education – A Nation of Mised People

How do you kill 11 million people? What's the method used to do something that diabolical? Could it happen in America? [Andy Andrews](#), author of [How Do You Kill 11 Million People? – Why The Truth Matters More Than You Think](#), says 11 million people, the number killed by Nazi's from 1933 to 1945, could have fought back by overwhelming the few guards. But Nazi leaders like Eichmann told them they were there to be protected from the advancing Russian soldiers. That they would have good schools and jobs. They were lied to and they believed it. Are our leaders lying to us today? Is history repeating itself?

Guest: Pastor Bill Smith

Date: 03/01/2014

Issue/s Addressed: Issues In Education – The Love of JESUS

Why do people fail in marriage, business, school or work? Why do we undermine, even poison, our closest loved ones? Our Lord was despised and rejected yet He didn't become bitter but continued to show unconditional love. How can we do that? We need to learn to love people just as Jesus loves us. [Pastor Bill Smith](#), author of [Loving Well \(Even If You Haven't Been\)](#) says Jesus demonstrates authenticity, patience, forgiveness and compassion so that we can be that way to others. Our Creator opens His Soul to us, sharing His most private thoughts, so that you can learn to live with agape love toward others.

Guest: Dr. David Menton

Date: 03/08/2014

Issue/s Addressed: Issues In Education – God’ s Wondrous Sign

Schools do a disservice to their students by showing inaccurate and anti-Christian propaganda films like *Inherit the Wind* that makes a mockery of the Bible and suppresses the truth in unrighteousness. Anatomist and teacher at *Answers in Genesis*, [Dr David Menton](#), professor of the year at Washington U School of Medicine, discusses his [DVD series](#) on the ear, the eye, the brain and reproduction. Sound is converted from airwaves to tiny bones in the inner ear, to neuro-chemicals in the brain. Man’s best efforts to replace the eye is a glass eye. The eye is much better in function and design than any camera lens.

Guest: Dan Smithwick

Date: 03/15/2014

Issue/s Addressed: Issues In Education – Worldviews Undermine Destinies

The worldviews of our citizens will determine our destiny as a nation. Since God only blesses those nations whose God is the Lord, what will happen to a nation that rejects the Lord? Sadly, most parents don't realize that schools are turning children away from God and toward humanism, atheism and socialism. [Dan Smithwick](#) has done some fascinating research on worldviews in his PEERS Test that shows we are rapidly becoming a pagan nation. Dan compares worldviews of Haitians to Dominican Republicans to what could happen here. A worldview is more than the gospel. It's a whole world and life view.

Guest: Dr. Robert Simonds

Date: 03/22/2014

Issue/s Addressed: Issues In Education – Leaving School Finding Education

Are public schools a relic of a bygone era unfit to prepare students of today for careers and success? Since the education of children will determine our nation's success or failure, why trust them to a failing system? [John Wiles](#), author of a dozen books on educational leadership, including [Leaving School Finding Education](#), says the time has come to consider alternatives such as vouchers and homeschooling. [Dr Robert Simonds](#), President of C.E.E., issues a challenge for grandparents to educate their grandchildren, since the focus in schools is not academics but homosexuality and drugging healthy kids.

Guest: Pat Morley

Date: 03/29/2014

Issue/s Addressed: Issues In Education – How God Makes Men Part I

How does God make a Godly man? [Pat Morley](#), the author of [How God Makes Men - 10 Epic Stories, 10 Proven Principles, One Huge Promise for Your Life](#) says Abraham is the example of believing God no matter what the circumstances. Joseph was sold into slavery and served 13 years in prison, but it was part of God's plan of using seemingly random acts for a much greater good. Nehemiah, who rebuilt the walls of Jerusalem, shows when we respond to God's call, we get an identity and destiny. That we are working for something that God cares about. Job shows us that suffering develops our character.

Friends and Neighbors

Friends and Neighbors is a weekly 15 minute interview show, hosted by Tonya Mandich, specifically directed to address the issues in the community of broadcast. Interviews, with guests from different companies, community groups and non-profit organizations, are intended to educate & inspire discussion about the various issues and address the problems and concerns from people within the community.

Guest: Diane Nens

Date: 01/04, 01/05/14

Issue/s Addressed: Public Health – Hearing Preservation Program

According to the National Center for Health Statistics, hearing loss is a growing health issue among young adults and older Americans, affecting more than 48 million people nationwide. In fact, it's become the third most prevalent health challenge after heart disease and arthritis. To help us better understand the issue of hearing loss and what we can do to prevent it, we invited Diane Nens, Audiologist with Hi Health Innovations, one of the leading most organizations in the country to speak about the facts regarding hearing loss, and the dangers of this issue.

Guest: Sally Pacholok

Date: 01/11, 01/12/2014

Issue/s Addressed: Public Health – Vitamin B12 Deficiency Program

Experts say, Vitamin B12 is critical for life, as well as good health. Recent studies show approximately 40 percent of the U.S. population is low on B12. Sally Pacholok, Registered Nurse and Co-author of "Could It Be B12" says a growing number of people are incurring severe injuries due to what seems to be an "epidemic of misdiagnosis" of B12 deficiencies.

To inform us about the importance of B12 to the healthy functioning of our bodies, as well as help people connect the dots who may be suffering from the result of a B12 deficiency, Sally shares her personal experiences, coupled with her professional encounters with patients that have resulted in a passion to help others get the help they need.

In the second part of this interview with Sally Pacholok, we discuss possible genetic predispositions to a B12 related deficiency, how to be screened, and specific cases where people were treated for a B12 deficiency and recovered from life-threatening conditions. For more information about B12 go to www.b12awareness.org, or look up their book "Could It Be B12: An Epidemic of Misdiagnosis".
