## SEASON 1 SYNOPSES

### 101 Extreme Sports in New Zealand, Ghost Tours in Savannah, and the World's Most Exotic Hotels

Today on the Coolest Places on Earth we'll go skydiving, jet boating, and bungee jumping in the adventure capital of the world, New Zealand. Pack lots of adrenaline. Then, we'll check in, to check out some of the world's most bizarre, extraordinary, and exotic hotels above ground and below. Plus, weigh anchor and hoist the mizzen! We're going to clash with pirates and meet some ghosts in the most haunted city in America.

### 102 A Road Trip Up America's West Coast, from California to Alaska

Today on the Coolest Places on Earth we're taking you on a road trip up America's Pacific coast from Los Angeles to Seattle and north to the rugged 49<sup>th</sup> state, Alaska. We'll see stars in Hollywood and high above the Redwoods, rip some breakers, mush a team, hook salmon alongside some grizzlies and—"belay on"—scale some big walls. So grab your gear, your board, and your appetite, because where we're going you'll need the fuel.

### 103 What's Hot in Chile

Today on The Coolest Places on Earth we're taking a trip to the long country, Chile, the South American nation of extreme contrasts, like bone-dry deserts and luscious waterfalls, snowy mountains and simmering volcanoes, where modern life and ancient history blend and big cities are just minutes away from exotic warm islands and frosty getaways. Que Rico! Here we come!

### 104 The Coolest Places to See Wildlife: Tanzania, the Great Barrier Reef, and the Amazon Rainforest

Today on the Coolest Places on Earth: the coolest places to see wildlife. We're off to Tanzania's Serengeti National Park to follow migrating wildebeests and track big cats. Then we'll fly over and dive under Australia's technicolor Great Barrier Reef. And last but not least, we'll take a boat into the heart of the most diverse place on earth, the Amazon Rainforest. Next stop? Adventure.
