Media Description

Default (Media Description) with  
Contract Details

When pulling both \$0 spots and announcements, an announcement on a contract with a \$0 rate will show as a \$0 spot and not as an announcement. The same spot, however, will show as an announcement on an announcement only report, and as a \$0 spot on a \$0 spot only report.

The AUR's are rounded to the nearest \$, consequently the sum of the individual AUR's in a group may not exactly match the group's AUR.

DO NOT USE THIS REPORT TO EXAMINE PROJECTED COPY ON UNLOCKED LOGS - use the Copy - Projected Rotation Report - as the Media Announcement Report's copy assignments are not guaranteed until logs are locked.
