She parlayed 40 dollars into a fortune and became one of the most successful horse sellers in the United States. The show also features a contemporary of Wilkins, May Arkwright Hutton. Born poor in Ohio and abandoned by her parents, Hutton would become one of the richest women in the American West. Hutton and her husband used their newfound wealth to help many people and causes.</p> <p>The Great War: American Experience “Part 1” Explore America’s tortured, nearly three-year journey to war. A microscopic organism threatens the water quality of these lakes putting the recreation economy of the entire region at risk.</p> <p>Outdoor Idaho "Restoring Rivers" In our headlong search for riches, we haven't always been kind to rivers, damming them, straightening them, running them through concrete channels, all in an effort to gain complete control. This program explores what is happening on the ground – on the Portneuf, the Yankee Fork, the Blackfoot, and the Kootenai rivers – as scientists and river managers seek to restore waterways using new approaches.</p> <p>Outdoor Idaho "Idaho's Salmon" The once abundant salmon runs into the heart of Idaho disappeared. Since then efforts have concentrated on maintaining their genetic lines.
