

**QUARTERLY ISSUES/PROGRAMS LIST**

**STATION:** Idaho Public Television (KAID, KIPT, KISU, KUID, KCDT)  
**CITY OF LICENSE:** Boise, Twin Falls, Pocatello, Moscow, Coeur d’Alene ID  
**SIGNIFICANT TREATMENT OF COMMUNITY ISSUES:** April 1, 2019 – June 30, 2019

Issue	Title/Programming Description	Date/Time/Duration
<p>1. Early Childhood Education</p>	<p>Children’s and Ready to Learn Programming            Programs include Wild Kratts, Sesame Street, Curious George, Peg + Cat, Odd Squad, Daniel Tiger’s Neighborhood, Ready Jet Go!, Splash and Bubbles, etc. These programs are focused on helping young children build strong pre-reading and reading skills.</p>	<p>Weekdays            6:30 a.m. – 5:30 p.m. MT            5:30 a.m. – 5:30 p.m. PT            11/12 hours MT/PT each weekday and            Sundays            6 a.m. – 10:00 a.m. MT            5 a.m. – 9:00 a.m. PT            4 ½ hours each Sunday</p>
<p>2. Education</p>	<p>Science Trek “Robotics”            Robots are used everywhere from work to home. These machines can do work too dangerous for humans, help around the house, or can be used just for fun.</p> <p>Science Trek “Water”            Water is everywhere: in our bodies, the food we eat, and the ground upon which we walk. All living things need water to survive.</p> <p>Science Trek “Volcanoes”            A volcano can be described as part of Earth’s plumbing system. Magma, or molten rock from under the earth, pushes upward through a sort of natural pipe and sometimes explodes lava out of the ground. Volcanoes created many of Idaho’s mountains and plains. Scientists study volcanoes to learn more about Earth and to protect the millions of people who live near these fascinating geological features.</p> <p>Science Trek “Television”            Television re-envision how we see our world. The science behind television influences almost all of our technology today.</p> <p>Science Trek “Force and Motion”            Force makes things move, or more accurately, makes things change their motion. It is basically a push or a pull. Two natural forces we are most familiar with are the forces of gravity and magnetism. In the late 1600s, Sir Isaac Newton figured out that the same force which causes an apple to fall from a tree also governs the motion of the moon and the planets.</p>	<p>4/2/19            4 p.m.            30 minutes</p> <p>4/16/19            4 p.m.            30 minutes</p> <p>5/14/19            4 p.m.            30 minutes</p> <p>5/21/19            4 p.m.            30 minutes</p> <p>6/11/19            4 p.m.            30 minutes</p>

	<p>Science Trek “Horses” Horses have been helping humans for more than 5,000 years. There is one species of domestic horse but over 400 different breeds, bred for different uses.</p>	<p>6/18/19 4 p.m. 30 minutes</p>
<p>3. Outdoor Adventures</p>	<p>Outdoor Idaho “Beyond the White Clouds” It’s some of the most dazzlingly diverse country in the West, deserving of the gold standard of protection. In this hourlong special, the Outdoor Idaho crew visits the three new wilderness areas in the center of Idaho - the White Clouds, the Hemingway-Boulders, and the Jim McClure-Jerry Peak Wilderness - to tell the fascinating 50-year story of how the threat of an open-pit molybdenum mine eventually led to a unanimous vote for Wilderness in Congress. This program also examines some of the major battles yet to be decided.</p> <p>Outdoor Idaho “Where the Road Ends” Far from the population centers of the state, where the roads seemingly end, one can find stories of Idahoans who choose to be closer to nature than civilization. We profile a handful of these places - Big Creek, Paradise, Bayview, Chesterfield, Castle Peak, the Joyce Ranch, Atlanta - where independence and self-sufficiency are embraced by the hearty souls who call these out-of-the-way places home.</p> <p>Outdoor Idaho “Owyhee Adventures” On first glance the Owyhee Desert is a desolate, lonely and forbidding place. But beyond the sage and endless horizon are hidden gems: narrow canyons, creeks and rivers, which hold immense beauty.</p> <p>Outdoor Idaho “Idaho’s Middle Earth” Caves were home to our ancestors, providing shelter from the elements. Today, we’re still drawn to the dark, the unknown, and even the beauty of what lies beneath our feet. The pitch black world of wild caves - deep and mysterious limestone caves, as well as the extensive lava tube caves - present a view of Idaho that is seldom seen.</p> <p>Outdoor Idaho “Climbing Idaho” Today’s rock-climbing enthusiasts support climbing gyms, clubs and advocacy groups - no longer the exclusive band of wanderers of just a few decades ago. The heights they achieve throughout the state require skills, levels of expertise, techniques and climbing methods as varied as the state’s terrain. Cameras follow as they seek to conquer nature’s rock walls.</p>	<p>4/4/19 8 p.m. 1 hour</p> <p>4/18/19 8 p.m. 30 minutes</p> <p>5/23/19 8 p.m. 30 minutes</p> <p>6/6/19 8 p.m. 30 minutes</p> <p>6/13/19 8 p.m. 30 minutes</p>

<p>4. History</p>	<p>Joseph Pulitzer: American Masters Discover the man behind the award. A journalist who became a media mogul with an outspoken, cantankerous editorial voice and two bestselling newspapers, Joseph Pulitzer championed what he regarded as the sacred role of the free press in a democracy.</p> <p>American Experience “Amelia Earhart” Explore the life of the trailblazing pilot who broke records but then mysteriously disappeared over the Pacific Ocean on a solo flight around the world. An enduring American hero, Earhart was the first woman to fly solo across the Atlantic.</p> <p>D-Day At Pointe-Du-Hoc The remarkable story of the U.S. Army's 2nd Ranger battalion, led by Lt. Col. James Earl Rudder, which scaled the 100-foot cliffs of Pointe-du-Hoc in Normandy on June 6, 1944, to destroy six German cannons thought to be located there. The 155mm guns, situated halfway between Omaha and Utah Beaches and within firing range of the planned allied assault, needed to be taken out for Operation Overlord to succeed. The documentary chronicles the dangerous and daring mission, including what happened after the Rangers fought through machine gun fire, cut rope ladders and lobbed grenades to find that the six artillery guns had been moved from the Pointe in the days prior.</p> <p>Day of Days June 6, 1944 The 70th anniversary of D-Day recognizes the struggle to land on Omaha Beach. This film is an opportunity to eavesdrop while one of the most important days in history is recalled by those who were actually there, did the fighting, and witnessed the devastation.</p>	<p>4/12/19 9 p.m. 90 minutes</p> <p>5/7/19 8 p.m. 1 hour</p> <p>5/26/19 9:30 p.m. 1 hour</p> <p>6/4/19 7 p.m. 1 hour</p>
<p>5. Health</p>	<p>Second Opinion “Chronic Fatigue Syndrome” Chronic Fatigue Syndrome (CFS) is a debilitating chronic disease that has a significant impact on a person’s quality of life. Because the cause is unknown, effective treatment is still out of reach for many patients.</p> <p>Second Opinion “ADHD in Adults” Attention deficit hyperactivity disorder (ADHD) starts in childhood but often can go unrecognized until later in life.</p> <p>Second Opinion “Measles/Vaccines” With some parents deciding not to vaccinate their children, measles cases in the United States have reached a 20-year high.</p> <p>Second Opinion “Sudden Cardiac Arrest in Young Athletes” Sudden cardiac arrest is usually caused by an electrical disturbance</p>	<p>4/27/19 7 a.m. 30 minutes</p> <p>5/18/19 7 a.m. 30 minutes</p> <p>5/25/19 7 a.m. 30 minutes</p> <p>6/1/19 7 a.m.</p>

	<p>in the heart and leads to a sudden loss of heart function, breathing and consciousness. Nine out of 10 people who experience sudden cardiac arrest, die from it.</p> <p>Second Opinion “Preventive Cancer Screening” More than half a million people die of cancer each year in the U.S., so it’s no wonder we want to do what we can to catch and treat cancer early. For some cancers, we have preventive cancer screenings that are readily available. But who should be screened?</p> <p>Second Opinion “Pancreatic Cancer” A diagnosis of pancreatic cancer is devastating for the patient and his/her family. Often the cancer is caught when it is at an advanced stage, and survival rates are lower than many cancers.</p> <p>Second Opinion “CPR in America” This program sets out to do something no television show has ever done - teach as many people as possible the life-saving skill of Hands-Only CPR. 90% of people who suffer out-of-hospital cardiac arrests die. Receiving immediate CPR can double or triple a person’s chance of survival. But 70% of Americans feel helpless because they don’t know CPR or they’re afraid of hurting the victim. You can help make a tangible difference in the cardiac arrest survival rate in your community!</p>	<p>30 minutes</p> <p>6/15/19 7 a.m. 30 minutes</p> <p>6/22/19 7 a.m. 30 minutes</p> <p>6/29/19 7 a.m. 1 hour</p>
<p>6. Local Community Interest</p>	<p>Outdoor Idaho “50 Years of Wilderness” For the 50th anniversary of the Wilderness Act, we visit each of Idaho’s designated wilderness areas - the Selway Bitterroot, Craters of the Moon, Sawtooth, Hells Canyon, Gospel Hump, Frank Church River of No Return, and Owyhee Canyonlands - to explore what we’ve learned since the passage of this landmark legislation. And we also visit two proposed wilderness areas: the Boulder-White Clouds of central Idaho and north Idaho’s Scotchman Peaks.</p> <p>Idaho Experience “Idaho’s Mail-Order Messiah” After a revelation from God, Frank B. Robinson founded Psychiana - the psychological religion - in Moscow, Idaho, in 1928. He rejected traditional religion and told his students they could tap their own inner God Law for health and happiness - a potent message during the tumultuous years of the Great Depression and World War II. Psychiana had no churches, no ministers, no services.</p> <p>Dialogue “Keith Allred” Can we all just get along better? Idaho native Keith Allred answers a resounding “yes” to that question, and now has a national platform to try and make that happen. Allred, the Democratic nominee for the Idaho governorship in 2010, is a mediator who founded The Common Interest, a multi-party citizens’ group that studied Idaho</p>	<p>4/25/19 8 p.m. 30 minutes</p> <p>4/25/19 8:30 p.m. 30 minutes</p> <p>4/26/19 8:30 p.m. 30 minutes</p>

	<p>legislative issues and came to a consensus on positions. He is taking that model to a national level with a new initiative at NICD called “CommonSense American.”</p> <p>Outdoor Idaho “Hops &amp; Barley” You got it: an entire show on beer! There’s a lot that goes into making a fine glass of stout; and it starts with hops and barley. The goal of Idaho breweries, on the whole, is not to be the next Budweiser, but to be the best neighbor they can be. And with a storefront on just about every block, and a few thirsty people in every neighborhood, the brewmasters in Idaho think the industry is just getting started.</p> <p>Outdoor Idaho “Wild Horses” Mustangs are a symbol of our Western tradition, yet they are often reviled, as they compete for resources with livestock and wildlife in an ever-changing environment impacted by range fire and drought. We examine what is happening with wild horse herds in Idaho and how some new ideas may offer solutions to a seemingly hopeless situation.</p> <p>Outdoor Idaho “Health of Our Lakes” From the air, northern Idaho’s lakes appear as magnificent pools of blue, shimmering water. But if you look at a microscopic level, you’ll find signs that Idaho’s lakes, like waterways around the world, are in trouble. A microscopic organism threatens the water quality of these lakes putting the recreation economy of the entire region at risk.</p>	<p>5/9/19 8 p.m. 30 minutes</p> <p>5/16/19 8 p.m. 30 minutes</p> <p>5/30/19 8 p.m. 30 minutes</p>
<p>7. Local Government</p>	<p>Idaho Reports “A Veto for Voters” Senate Majority Leader Chuck Winder discusses what it will take to adjourn. Sen. Jim Guthrie talks about the Senate Republican caucus.</p> <p>Idaho Reports “The Rules Don’t Apply” Division of Financial Management administrator Alex Adams explains what’s next now that the Idaho Legislature adjourned without taking care of administrative rules. Clark Corbin and Kevin Richert of Idaho Education News breaking down the year in education. Department of Health and Welfare Director Dave Jeppesen discusses Medicaid expansion.</p> <p>Idaho Reports “Looking Back” Gov. Brad Little gives his first press conference since the Legislature adjourned for the session. Nicole Foy of the Idaho Press discusses the upcoming Census and whether it could miss sections of Idaho’s Latino population.</p>	<p>4/5/19 8 p.m. 1 hour</p> <p>4/12/19 8 p.m. 1 hour</p> <p>4/19/19 8 p.m. 30 minutes</p>

	<p>Idaho Reports "Little's Perspective" Gov. Brad Little sits down to share his thoughts on Medicaid expansion work requirements, Lt. Gov. Janice McGeachin's recent controversies, and education.</p>	<p>4/26/19 8 p.m. 30 minutes</p>
