1. (vii) Participation in scholarship programs designed to assist students interested in pursuing a career in broadcasting.

Emma L. Bowen Foundations for Minority Interests in Media, Inc.

Established in 1989, the Emma L. Bowen Foundation for Minority Interests in Media is a non-profit organization whose mission is to create career opportunities in the media industry for minority youth through a program that focuses on scholastic achievement, direct work experience and professional development. Students in the program work in media companies each summer and during school breaks, from high school through college. The students earn both wages and matching scholarship funds to be used for college tuition and related expenses. Over a period of up to five (5) years, the students experience numerous aspects of Company operations and develop professional and practical skills that will help prepare them for their careers, many of which begin at the companies where the students interned. Hello,

We have arranged situational training for all employees on April 25/26. Officer Kelly Buckberry from the Southfield Police Department will lead the sessions.

There are three times to choose from, if you cannot attend please make sure your direct manager is aware and approves of you missing the class.

Tuesday, April 25 9am
Tuesday, April 25 2pm
Wednesday, April 26 noon

Please let me know if you have questions.

Hi Kimberley ,

If you don't have a list of the attendees, you can use the station listing and highlight who you believe attended.

Hello 🌟

As part of the LinkedIn Enterprise Program, we're excited to extend access of LinkedIn Recruiter across FOX.

To ensure you make the most out of this powerful tool, we've partnered with LinkedIn to create a custom Recruiter Education Curriculum for our team. The curriculum includes a combination of self-guided online tutorials and live webinar sessions on Recruiter's main features and best practices. Please save this email for your reference.

The Education Curriculum is divided into the following steps:

Pre-work: Self-guided online training with 2 learning tracks which you can choose from based on your past experience with LinkedIn Recruiter. This self-guided pre-work will lay the foundation to help ensure the live session is as valuable as possible.

- Track 1: Beginner User Curriculum (110 minutes)
- Track 2: Experienced User Curriculum (199 minutes)

Live Training: Register for a live webinar based on your past experience with LinkedIn Recruiter. Choose from a Recruiter Essentials webinar or an Advanced Deep Dive webinar on a topic of your choice. Please complete the pre-work prior to joining the session.

Continued Education: Explore the LinkedIn Recruiter Learning Center for the full catalog of ongoing product training, quick tips, and live webinars.

Hope this is helpful! Please let me know if you need anything from me. I am always here 🌟

All the best,
Lauren

Subject: Emma Bowen Conference + Another FTS Student of the Year!!!

Hi Jean, Roselyn, and Iris,

We just wrapped up another great EBF conference!

Thank you again for always supporting us as a sponsor.

I wanted to share that the **2022 Emma Rising Star** (formerly Student of the Year) winner is **Fredlyn Pierre Louis** who is interning at Fox 32 News! We had **Niena Drake**, EBF AMMP Director and alum who interned and worked Fox 32 News present him the award. Niena was also a past Student of the Year winner! This adds to the already long list of FTS winners of this award! You see the full Emma Rising Star Award [here](#) and Fredlyn's reaction when he heard his name [here](#)!

EBF fellows **Breana Adams** and **Metia Carroll**, both interning at Fox 4 KDFW are enjoying their summer experience! They were very excited to find FTS representatives and thank them for the experience but since you were not able to attend wanted to share their message with you via [this video](#).

ABOUT AAJA The Asian American Journalists Association is a professional membership association founded in 1981 by a group of AAPI journalists seeking to support one another and to encourage more AAPIs to pursue journalism. Today, we continue to champion the development of AAPI representation and leadership in journalism through trainings, opportunities and resources for our members as well as through nurturing and maintaining a network and community of AAPI journalists globally.

The heart of AAJA's four-fold mission is to increase AAPI perspectives and representation in newsrooms, media, and storytelling as follows:

- To provide encouragement, information, advice and scholarship assistance to AAPI students who aspire to professional journalism careers.
- To provide to the AAPI community an awareness of news media and a better understanding of how to gain fair access.

- To provide a means of association and support among Asian American Pacific Islander (AAPI) journalists, and to advance AAPI journalists as managers and media executives.

- To research and point out when news media organizations stray from accuracy and fairness in the coverage of Asian Americans and Pacific Islanders and AAPI issues.

Blueprint Schools Network- Founded in 2010, Blueprint Schools Network (“Blueprint”) is a national nonprofit organization that promotes educational equity and improves life outcomes for students by partnering with states, districts, and schools to plan, implement, and monitor school improvement initiatives. Blueprint’s whole-school improvement is grounded in a framework of five core strategies. These strategies emerged through analyses of the attributes that drive student achievement and represent common elements capable of closing the opportunity gap. The foundation of the Blueprint Math Fellows Program stems from our framework of five strategies that recent research has identified as the biggest drivers of student achievement in high-performing schools. One of the strategies that consistently demonstrated the most significant gains in student achievement is providing data-driven, small-group, differentiated instruction. In 2010, we launched our small group differentiated instruction strategy “the Blueprint Math Fellows Program” as a standalone intervention service. Blueprint is actively growing and is currently partnering with public school districts and charter school networks in Oakland (CA), Pittsburg (CA), Denver Metro Area - Commerce City (CO), East Saint Louis (IL), Nashville (TN), and Washington (DC) to plan and implement math tutoring programs.

C-Space- We believe in a better way of doing business. Of treating customers as humans. Not as targets, data points or subjects who need convincing...but as people, who need a little help. Being human is about valuing what’s important to people – their emotions, their lives, their dreams, their realities. It’s about building relationships between a company and its customers on equal ground. Because relationships are the source of results. By humanizing business – breaking down the walls, departments and structures that keep customers on the outside – companies can integrate the people they’re trying to serve into the ways they work. To create change. To weave customers into the fabric of a company’s culture. To see bigger possibilities for customers, employees, and business. To maximize growth and minimize risk. Working with customers, on equal ground, for mutual benefit, creating something we call, Customer-Inspired Growth.

Day One Agency- We move the world by stopping it in its scroll with stories that earn. We've taken the best parts of traditional PR, digital, and creative agencies and structured our team to shape, share, and fuel stories that connect and earn a place in culture. A lot of agencies talk about making content, but we believe stories are what actually break through, and we've built our entire creative process around them.

DDB North America- We have a simple belief — Unexpected Works. It means that the best idea is the one you never saw coming. The thing that catches you so off guard that you can't look away. And the only path to genuinely unexpected works is through creativity. Not just what passes for creativity because it answers a brief, looks the part and helps everyone sleep at night. But creativity that is foreign, surprising, and interesting enough to cause jaws to drop and sales to soar. It's having the fresh perspective and raw energy to bring something into the world that no one's ever seen before. We're talking about the courage to shake things up and maybe even tear a few things down. And knowing that what most would call the finish line is where the real work starts. We believe in people, product, and profit, in that order. For us, people always come first. They're the soul of our agency. It takes awesome folks to make awesome work. That's why we make sure everyone who comes through the door is as great as the people who are already here. It's also why we constantly strive to build diverse teams where everyone brings something unique to the table. Because you can't make the unexpected if you only work with the usual suspects. By bringing together diverse thinkers with different backgrounds and perspectives, we validate Bill Bernbach's notion that an idea can turn to dust or magic, depending on the talent that rubs against it. So, come be part of the magic.
