

Issue and Programs Report
for

WTZI

88.1 FM Rosemont, IL
2nd Quarter 2013

Calvary Radio, through talking with pastors, community leaders and people with a strong concern for their community, have determined that the following issues are the current issues of highest concern in the area and this report has been created to show how we have addressed these issues.

1. Education

Calvary Radio believes that a good biblical education is the foundation for spiritual success. Education is important because the more knowledgeable we are in the word of God the better equipped we are to stand firm in the confidence of his truth. We also believe that, in addition to studying God's word, it is important that our children are getting a good education in schools and that our undergraduate and graduate students are being taught unbiased truth in their learning institutions. So we encourage people to stand up for truth and fight for good teachers in educational systems.

2. The Economy, Employment & Personal Finance

Due to the current economic recession, families in northwest Indiana are experiencing a higher difficulty in being able to acquire a mortgage, find employment and afford health care. We at Calvary Radio try to provide programming that encourages our listeners to make wise financial decisions through good financial stewardship during these uncertain times and to put their trust in God knowing that he provides for our needs.

3. Family & Marriage

Calvary Radio provides programming for all types of people from all types of families understanding that no family situation is perfect. We desire to provide programming that addresses all types of issues for struggling families. But our solution to these issues is found in Biblical principles and spiritual wisdom not just in psychologists and self help books. We strongly promote a family first structure of living with a high value put on Biblical marriage.

4. Children & Youth

Seeing as how children are our future, Calvary Radio broadcasts various programs geared specifically to certain age groups in the hopes that kids will be challenged to grow in their spiritual lives and become good citizens as they grow older and mature in their faith and relationships with people. We provide Children's programming on Saturday Mornings and Youth programming on Monday evenings and weekends. Hoping to encourage youth to take their faith seriously and not succumb to peer pressure that may advise them to do otherwise.

5. Spiritual Growth & Practical Christian Living

Spiritual growth is one of Calvary Radio's main goals. We try and encourage spiritual growth in our listeners by broadcasting programming with sound Biblical teachers and challenging messages as well as praise and worship music to keep listeners encouraged and edified throughout their week. We strongly urge our listeners to seek to grow in their faith and not be content with a inactive relationship with God.

6. Religious Freedom, Oppression and Terrorism

The signal of WHLP and its translators covers the Chicagoland area, where terrorism is a bigger threat than elsewhere in the US so we at Calvary Radio are doing our best to educate people on the safety level of our area while reminding our listeners that God is our only source for true safety. And while religious and constitutional freedoms are often an issue in schools and are part of America's constant struggle with taking God out of the schools. Calvary Radio brings programming that addresses the true heart issues of fear and security.

7. Public Health

With health care costs on the rise and insurance prices increasing, families in the area often have to live without insurance and the uncertainty of what will happen to them if health problems occur. So we air programming that deals with ways to acquire health insurance and how to maintain good health if health care is unavailable to you. Centering on the fact that our bodies are God's temple and we should do our best to take care of them but understanding that they're also temporary and God has a more perfect plan for us waiting in Heaven someday.

8. Public Safety

Whether our listeners have to deal with icy roads, blazing fires or windy weather, we want them to be well equipped for anything that could come their way. So we provide programming to deal with some of the safety issues in hopes that it may just save a life one day. That's why its important to us that listeners be aware of safety hazards within their homes, cars and workplaces.

Calvary Radio is committed to truth in radio and, in keeping with that commitment, our programming consists mostly of sound biblical teaching programs with a primary focus on the truth of God's word and its instruction to us.

Along with those teachers we also Broadcast Jay Sekulow Live, a daily radio outreach program of the American Center for Law and Justice. Hosted by ACLJ Chief Counsel Jay Sekulow, this live call-in program focuses on the legal and legislative battles underway across America.

The following programs, however, we receive no financial reimbursement for broadcasting and are strictly for the purpose of inciting community interaction, encouraging education and discussing issues that relate to the city and county of license.

Pastor's Perspective is a live call in show, simulcast on Calvary Radio from KWVE in Santa Ana, California. Battleground

The devotional time is dedicated to encouraging and strengthening believers through the word of God. It then moves to a time of prayer for needs and concerns called in by listeners throughout the area. Its focus is to address the needs of people in the community in the best way we know how. Through intercessory prayer to our God.

It is our desire to lift up prayer requests from people of all races and religions in an effort to reach out to those who don't have Jesus Christ as their personal savior.

Prayer requests are received any time day or night through people e-mailing us at battleground@calvaryradionetwork.com or by calling the station toll free at 866-303-9457 and dialing the special battleground extension number 203. Requests are taken by staff members during normal business hours and any time there is staff present at the studios.

Battleground is broadcast weekdays at 10:30am CST with various pastors from around the nation and covers a wide variety of issues due to prayer requests that stem from family & marriage to the economy & unemployment to youth and children to spiritual growth and more.

Issues In Education

The Issues in Education program is an interview show exploring issues with Christianity in schools, education, and intellectual thought. It's hosted by Bob and Geri Boyd with a goal of educating and informing listeners of things going on in schools and in the world that they may not be aware of as well as challenging people to get involved in their community.

Issues in Education is broadcasted at 4:30am Sunday Mornings

The Following Programs for this quarter include:

Guest: Mike LeMay

Length: 26

Date: 04/06/13

Issue/s Addressed: Issues in Education: Christ Can Save America

The Suicide of American Christianity

We are a nation on a suicide course as people look to government as their god. Only Christ can save America as humanism has undermined the foundational Biblical principle, that government is to be a servant of God and the people, not our master. This unique concept has made this nation the most free and prosperous in history. [Mike LeMay](#), author of [The Suicide of American Christianity- Drinking the "Cool"- Aid of Secular Humanism](#), says Christianity is not affecting the culture because the culture is infecting the Church, as generations of Christian students learn the ways of the world in public schools.

Guest: Joel Rosenberg

Issue/s Addressed: Issues in Education: Damascus Countdown Part I

Damascus Countdown

generation has witnessed more fulfilled prophecy, since Christ, as this present generation. Yet many more prophecies are

on the threshold of fulfillment. Iranian leaders believe the only way to bring the Caliphate into world dominion is to destroy Israel. [Joel Rosenberg](#), author of [Damascus Countdown](#), predicted 9/11 nine months before it happened, now suggests Israel will launch a preemptive strike against *Iran*, but if they fail to get all the nuclear warheads, retaliation from the Islamic world would be *overwhelming*. He says, "An atomic Iran could do in 6 minutes what it took Hitler 6 years to do, kill 6 million Jews."

Guest: Joel Rosenberg

Date: 04/20/13

Issue/s Addressed: Issues in Education: Damascus Countdown Part II

Damascus Countdown

if Iran gets an atomic bomb or already has it? Would Israel launch a preemptive strike against Iran? What happens if Israel is then overwhelmed with a massive retaliation from the entire Muslim world and one of thousands of missiles is atomic? [Joel Rosenberg](#), author of [Damascus Countdown](#), says Isaiah 17 prophecies that when the nations come against Israel, God will defend Israel and Damascus will *cease to exist as a city*. God is bringing Muslims to faith in Christ and a very dramatic example is [Kamal Saleem](#), a Muslim terrorist who had a direct encounter with Jesus Christ, witnesses in Mosques.

Guest: Jeff Seto

Length: 26

Date: 04/20/13

Issue/s Addressed: Issues in Education: Made In Heaven

Man's Indiscriminate Stealing of God's Amazing Design

Many technological advances are based on nature. Some of the best inventions come from those who study God's design in nature yet don't give God credit or even acknowledging Him. Aerospace engineer, [Jeff Seto](#), co-author of [Made in Heaven - Man's Indiscriminate Stealing of God's Amazing Design](#), gives many examples of ideas that came from God in nature, like lowly creatures like mosquitoes (painless needles) and spiders, mussels (underwater glue), wasps and burrs (Velcro) serve as inspirations for top scientists. [Ray Comfort](#), says, "It's dishonest to steal God's ideas and say they came from nothing."

Guest: Kitty Werthmann

Length: 26

Date: 05/04/13

Issue/s Addressed: Issues in Education: Don' t Let Freedom Die

Socialist Bureaucracy

"We elected Hitler. Hitler didn't take Austria by force; we elected that monster in 1938 when 98% voted to annex Austria to Germany. I am an eyewitness to that history," said Kitty Werthmann. What was it like to live under Nazi (the National Socialist Party) Germany with Hitler? Are there parallels in our nation today? A socialist bureaucracy takes control over education, healthcare, businesses, gun ownership, and the economy -with massive spending that leads to hyperinflation. Out of 18,000 German pastors, only 200 refused to sign a loyalty oath to Hitler. Many said Hitler was given to them by God.

Guest: John Whitehead

Length: 26

Date: 05/11/13

Issue/s Addressed: Issues in Education: Is America Becoming a Police State Pt I

Government of Wolves

Simply being late to school could cost a \$250 fine and jail time! [John Whitehead](#), President of [The Rutherford Inst](#) and author of [Government of Wolves](#), says if the police can take your property and even take your life without due process, with drones, the Constitution is dead! Zero tolerance means getting thrown out for bringing a toy soldier to class. In asset forfeiture courts allow police to seize your car, home or cash without charging you with a crime. A little boy who pointed his finger like a gun was called a terrorist threat. Teachers used to discipline, but now it's called criminal as police arrest and jail students.

Guest: John Whitehead

Length: 26

Date: 05/18/13

Issue/s Addressed: Issues in Education: Is America Becoming a Police State Part II

This Disarmament of US Citizens

When our government treats us as the enemy, they're no longer serving us but ruling over us. When a patriotic Marine can be locked up for simply criticizing the government, we have entered a police state. The government wants to disarm citizens, but arm federal agencies with billions of bullets to intimidate and control a naive populace. [John Whitehead](#), President of the [Rutherford Inst.](#), has defended hundreds of zero tolerance cases. Schools have become like prisons with surveillance cameras, metal detectors, police patrols, strip searches and lock downs. It's part of creating a populace submissive to a police state.

Guest: Jeremiah Denton/John Steer

Length: 26

Date: 05/25/13

Issue/s Addressed: Issues in Education: Remembering Our Military

Intolerance Toward Christians

Army command has sent out warning of hate groups that are "inconsistent" with Army values. Amazingly, among the hate groups are Christian groups like the [Family Research Council](#). Since "Don't ask, don't tell," we've gone from tolerance for homosexuals to intolerance toward Christians. To produce heroes who will defend our freedoms, we need to teach students about the sacrifices made for their freedoms. [Jeremiah Denton](#), tells how God brought him through his severe torture in Viet Nam. [John Steer](#), gives a fascinating account of his experiences in Viet Nam and how he took the gospel to Russian generals.

Guest: Fred Stoeker

Length: 26

Date: 06/01/13

Issue/s Addressed: Issues in Education: Porn Plague

Every Young Man's Battle – Strategies for Victory in the Real World of Sexual Temptation

There's a porn plague capturing millions of young minds and destroying individuals, families and crippling our nation's morality. Millions of people, including Christians and pastors, visit porn sites. [Fred Stoeker](#), author of [Every Young Man's Battle - Strategies for Victory in the Real World of Sexual Temptation](#), says, "We're in a spiritual war but the enemy is seductive and camouflages sin as pleasure. Instead it brings pain." How can we control what comes into our eyes and minds? [Clay Allen](#), president of [Avenue](#), and [Fred Stoeker](#), give excellent techniques for avoiding the deadly trap of pornography.

Guest: Randy Thomasson

Length: 26

Date: 06/08/13

Issue/s Addressed: Issues in Education: Schools of Corruption part I

Laws have been passed to force churches, Christian schools and bookstores, the Boy Scouts, etc., to include transgenders and homosexuals or have their status stripped. Cal. AB 1266 would force schools to let boys, who feel they're really girls inside, to use the girls showers, bathrooms and even play on the girls teams. It's now illegal for counselors to counsel minors out of homosexuality. Students no longer learn about the Founders but are required to celebrate homosexual activists. [Randy Thomasson](#), of [SaveCalifornia.com](#), says schools are being used to force acceptance of transvestites and homosexuality.

Guest: Dr. Jerome Corsi

Length: 26

Date: 06/15/13

Issue/s Addressed: Issues in Education: Schools of Atheism Part II

Why, in a nation founded by Christians, is Christianity banned in schools? The godless ACLU has done incredible damage by destroying every vestige of Christianity in public. Courts now side with the ACLU, because as they say in order to keep religious *neutrality*, *religious freedom* must be banned. [Dr Jerome Corsi](#), author of [The Bad Samaritans - the ACLU Relentless Campaign to Erase Faith From the Public Square](#), says the roots of the ACLU are atheism and communism. To replace our Christian roots with Marxism, they promote evolution, porn and Islam. If we abandon belief in God, we abandon *freedom*.

Guest: Colin Gunn

Length: 26

Date: 06/22/13

Issue/s Addressed: Issues in Education: Schools of Indoctrination Part I

We are witnessing the collapse of our nation morally, spiritually and financially. For all the problems, there must be some root cause. It's not because of abortion, homosexuality and corruption. These are symptoms. What is the root cause? [Colin Gunn](#), producer of the film (cuts included) [Indoctrination- Public Schools and the Decline of Christianity](#), says culture is the product of our schools. Law forbids Christians from being Christians, yet secular teachers are given awards for promoting atheism and homosexuality. Many cuts from the film including RC Sproul, "We don't lose children, we *give them away*."

Guest: Colin Gunn

Length: 26

Date: 06/29/13

Issue/s Addressed: Issues in Education: Schools of Indoctrination Part II

Persecution has begun as Christian teachers are fired and students censored for just speaking about their faith. Cuts from the fast paced, captivating film by [Colin Gunn](#), producer of [Indoctrination-Public Schools and the Decline of Christianity in America](#). An atheist education produces atheist students and an anti-God, immoral culture. We are losing our culture, because Christians have refused to educate their own children. A new vision for changing our culture must include educating children. Parents! Why would you trust your child's mind to strangers you know nothing about and a school system of atheism?

Navigating the Challenges of College Life

Dr. Budzidzewski, a professor of government and philosophy at the University of Texas shares his personal experience, observations, and insights in matters related to faith and education from his book, "How To Stay Christian In College". Many students who attend college struggle with the changes related to campus life. Dr. Budzidzewski shares his wisdom with our listeners as to how they can stay grounded in their faith in Jesus Christ through seeking out connections who will provide the "right" kind of peer pressure, and avoiding getting stuck in the "lone ranger" kind of thinking. He presents scenarios that a student most commonly finds himself in with regard to conflicts with teachers and peers to help them navigate through these challenges. The myths and means of spiritual attack on campus as well as exhortations to both students as well as parents who are preparing to make the transition to this season of life are shared. The issues related to world-view are examined and the response which would be most effective in these challenges are also suggested.

Issue/s Addressed: Issues in Education: Spring Hill Camp

Kids Need Camp Campaign

Danae During, Summer Director for East Michigan joins us to share why "Kids Need Camp", a video presentation they include at the close of every day camp experience. Spring Hill Day Camp is an excellent day camp and overnight camp experience for kindergarten age through 6th grade age children for their day camp experience. In addition to day camp, there is also an invitation to grades 6-12 for away camp. Spring Hill Camp offers College students opportunity to serve as mentors through this hands-on ministry... often discovering their life purpose and giftedness. During their summer at camp, they acquire many skills that will transfer to other life experiences and roles (work, ministry, marriage, etc.) Statistics show that kids are watching too much TV; the average elementary age child watches 1,680 minutes per week of television, plays 1,880 minutes of video games, and spends 623 minutes of the computer. To fight these statistics, SpringHill Camp offers an opportunity to kids through fund-raising campaigns to send many underserved kids to daycamp each year through partnerships with supportive Churches, as well as donation from Teen youth campers themselves.

\$9,000.00 was raised from camp counselors alone this last summer session. In addition, we also interviewed a couple of campers to give testimony to their day camp experience. To learn more about away camp, families are invited to a overnight stay called "Family Fun Day" which orients visitors with the away camp experience. For information go to www.springhillcamps.com.
