Fly With Me is a story about new frontiers for working women and the constraints of traditional notions of femininity. It's about both exploitation and activism, and pitched battles within the courtrooms of the United States. Maligned as feminist sellouts and sluts, stewardesses, as they were called, knew different: They were on the frontlines of a battle to assert gender equality and transform the workplace. Fly With Me will rely on firsthand witness accounts, personal stories, and a rich and extensive archive to tell a lively, fun and important but neglected history of the women who, while flying the world, changed it.

In a new survey released by the Pew Research Center, 80 percent of respondents said religion's role in public life is shrinking in America. That's the highest proportion in two decades of asking the question. John Yang speaks with Gregory Smith, Pew's associate director of research who helps coordinate domestic polling on religion, to learn more about what the results say.

forests teeming with life. What caused such dramatic changes at the ends of the Earth? And what controls the dial on Earth's thermostat? Today, the Arctic is warming faster than anywhere else in the world, and Antarctica has locked in its ice enough water to raise sea level by a terrifying 200 feet. The way that the poles respond to a warming climate is one of the greatest wildcards in predicting our climate future. Johnson uses Earth's history, written in stone, as a cipher to decode what is going on at our polar extremes today, and what the future may hold.
