TODAY'S DECISION WRAPS UP ONE OF THE LONGEST AND MOST CONTENTIOUS DEBATES IN THE HISTORY OF THE FOOD AND DRUG ADMINISTRATION.

GIRLS 17 AND YOUNGER WILL STILL NEED A DOCTOR'S NOTE TO BUY THE PILLS.

BUT, WOMEN 18 AND OLDER WILL HAVE EASIER ACCESS TO THE MEDICATION.

PLAN B- WHICH IS MANUFACTURED BY BARR LABORATORIES WILL BE SOLD ONLY IN PHARMACIES AND HEALTH CLINICS.

TO BUY IT ..WOMEN WILL HAVE TO SHOW PROOF OF AGE.

THE PILLS ARE A CONCENTRATED DOSE OF THE SAME DRUG FOUND IN MANY REGULAR BIRTH CONTROL PILLS.

IF A WOMAN TAKES THE PILLS WITHIN 72 HOURS OF UNPROTECTED SEX ...THEY CAN LOWER THEIR RISK OF PREGNANCY BY UP TO 89 PERCENT.

SUPPORTERS OF PLAN-B SAY THE F-D-A'S DECISION IS HISTORIC.

[REDACTED] For the first time in the 40 year history of oral contraceptives American women 18 and older will have immediate access to a safe and effective pill to prevent unintended pregnancies in the event of a contraceptive failure.

ANTI-ABORTION GROUPS GROUPS HAVE LONG BEEN CRITICAL OF PLAN -B.

THEY SAY IT IS AN ABORTION ON DEMAND PILL THAT COULD ALSO LEAD TO AN INCREASE IN SEXUALLY TRANSMITTED DISEASES.

Making the drug over-the-counter gives a false sense of security.

I think today is a good day for the FDA. They've

done the right thing in making it available for women.

THERE'S SOME UNCERTAINTY OVER HOW TO MAKE SURE OLDER PEOPLE DON'T BUY THE DRUG FOR FRIENDS UNDER 18.
