<New and old Thanksgiving traditions were served up at Bishop Ryan Catholic School Tuesday. 440 meals were shared. "We're all going to be squished together." Fifth grader, Elira Cumani, sat next to high school students for lunch. She and other elementary classes worked together with older students to make the place settings for the feast. "We got to partner up with them, already and kind of got to know them, so they're kind of like our friends, I guess." Genevie Vedeeter says the pre-meal decorations and preparations promoted bonding between students of different ages. "I think it was a fun experience because my sister in high school, so I got to do with my sister and it with her and it was really fun." "The menu for this Thanksgiving feast features a non-traditional entree, so students don't tire of turkey." "We're North Dakotans and everyone loves meatballs and gravy and mash potatoes, so that's our meal today."

Principal Tanya Steckler says dessert was provided by the parents who baked apple and pumpkin pies for hundreds of people. She says the meal is an opportunity to pause and be grateful for blessings.

That sentiment was echoed by the placemats students like Mollie Selk crafted..

"Give thanks, happy thanksgiving, be thankful, trust in God and the last one says pray."
