Long before “Rosie the Riveter”... there was the Victorian Valkyrie—Women that stepped into new roles during the Civil War ...I’m Tina LeValley and this is the Real Virginia...

In many ways, the coming of the Civil War challenged the ideology of the day....and redefined the lives of both men AND women in the antebellum era. ...Sue Cochrane with the Appomattox 1865 Foundation says the war forced women into public life in ways they could scarcely have imagined just a generation before...[SOUNDBITE]...

From the North and South...woman pulled their weight and then some! It was through their wartime contributions that galvanized more modern ideas about what a woman’s “proper place” should be...For the Real Virginia...I’m Tina LeValley.

Legal Aid / balancing the scales of justice

Imagine having to deal with the legal hassles of consumer fraud, contract disputes... scams... or any number of other civil law matters... on your own without legal guidance! Representing yourself only sounds good on TV... but many people have no other choice-- I'm Tina LeValley and this is the Real Virginia--

The Institute of Advanced Legal Studies, in 2009, wrote "Access to justice is an essential element in the democratic process. Whatever rights and responsibilities exist they are worthless unless it is possible for all to access the law and the courts... in order to ensure that those rights and responsibilities are fully observed... Virginia Legal Aid Society Executive Director David Neumeyer tells us about services available to those in need in the Greater Lynchburg region... [SOUNDBITE]...

Legal aid for those whom otherwise couldn't afford counsel... exemplifies the balancing of those scales of justice-- Though, the service may not be entirely free... some clients may be asked to pay for certain expenses... such as court filing fees or fees for serving papers. They also can refer you to an agency if they are unable to assist. To learn more visit: www.VLAS.org -- For the Real Virginia... I'm Tina LeValley

Envision the James is an on-going conservation initiative that works with communities and partners across the James River watershed ...planning and implement projects that sustain and enhance the region's natural and cultural heritage. Rob Campbell the Upper James Outreach Coordinator say is more than that...the state of the river also impacts local economies, wildlife abundance, and outdoor recreation assets for present and future generations...[SOUNDBITE]...
