**Host: Glenn Halbrooks**

**Topic: VOICES For Alabama's Children**

**Guest: Rhonda Mann, Deputy Director, VOICES For Alabama's Children**

Ms. Mann's conversation focus was on how the report shares two competing narratives. On the one hand, Alabama is improving the well-being of its children. The state made small improvements in many of the indicators the Annie E. Casey Foundation measures. However, on the other hand, Alabama's position relative to other states is falling. This is true with the state's overall ranking and in many of the individual indicators as well. Rhonda shared what we should take away from these narratives. OICES will release the Alabama Kids Count Data Book later this year. The Alabama data book will include a county-by-county comparison. Glenn asked, and Rhonda answered the following questions: What is VOICES for Alabama's Children? What is the Annie E. Casey KIDS COUNT Data Book? How did Alabama do in this report? Can you explain a little more about the difference in the rates and the rankings? Were there any surprises in this year's Data Book? Ms. Mann will be back when the VOICES book comes out.

**Topic: 15th Annual Relay for Health and Wellness**

**Guest: Choon Lang, RN, Alabama Department of Public Health**

The Health, Wellness, and Social Services Ministry Members of the Mount Gillard Missionary Baptist Church, and Healthy Connections Members will hold its Healthy Connections Health Promotion Event on Saturday, July 27, 2019 from 8 A.M. – 12 P.M. at Mt. Gilliard Missionary Baptist Church located at 3323 Day Street in Montgomery, AL. They put on this event each year to educate members of the community, particularly the West Side, leading to the reduction of obesity, diabetes, heart disease, cancer and poverty. They canvass the neighborhood with health literature, and hold a health panel discussion at the church. There will be outdoor children's activities, presentations regarding physical, mental, education, employment and financial health as well as various giveaways for children and adults. She said that most illness that these residents suffer have a connection with the foods that they eat. They are encouraged to eat fresh fruits and vegetables, but have noticed that there are fast food restaurants, but no accessible grocery stores in a lot of these neighborhoods. This makes it difficult for people without transportation to shop for wholesome, healthy foods.

**9:00-9:30 A.M. & 4:30-5:00 P.M.**

**Host: Mandy McQueen**

**Topic: Hope Inspired Ministries**

**Guest: Jo Ann Johnson, Executive Director, Hope Inspired Ministries**

Hope Inspired Ministries (HIM) serves low-skilled, poorly educated, and chronically unemployed adult men and women by preparing them to obtain and maintain employment. Ms. Johnson said their nine-week job training and life skills program develops individual worth, encourages personal responsibility, and promotes the value and honor of a hard day's work. It is this is their intention to lift people out of the cycle of poverty and equip them with the skills to become self-sufficient, productive citizens in their communities. Their adult students, approximately 180 per year, primarily consist of those determined to be "high-risk" due to living lives of poverty, crime, violence, addiction, prison, and chronic unemployment. The students typically have few job and life skills, little to no coping skills, no dependable structure, and very little education. Upon completion of six weeks of classroom instruction, students' skills and abilities are assessed and the student is then matched with a local business where they put their new training to use during a 120 hour, unpaid internship. In many cases, the local business hires the student upon internship completion. We currently have between 80-85% of our graduates in the workforce. We also have a 3% recidivism rate compared to the current recidivism rate in Montgomery of 35%. This serves to prove that, given the chance, many in our society will choose the path of becoming a productive citizen rather than remain in a life of poverty, dependence, and crime.

**Topic: AID To Inmate Mothers**

**Guest: Carol Potok, Executive Director, Aide To Inmate Mothers**

**Shanna Rainey, Program Participant**

AIM was founded 32 years ago to reunite mothers in prison with their children. Many of the children couldn't visit because they lacked transportation. The program works with a network of churches across the state to provide drivers and vans to transport the children. The visit is child-friendly: children enter through a side gate to avoid bars, toys and activities are provided, as well as photos and a meal. Carol discussed their programs: (1) their Storybook program allows mothers to read a bedtime story on video for their children and they send the DVD and books to the children. Almost 1400 children were served last year. (2) Parenting classes help women learn about positive parenting, nurturing and how to parent from prison. (3) Project Reconnect help women with reentry preparation including self-esteem classes, budgeting mock job interviews, workplace etiquette, and resume writing. (4) Genesis House: A transitional home for women leaving prison provides them with structure and intensive case management when first released from prison. Short- and long-term goals are set, residents must abide by a curfew and are randomly drug tested. 20 women were served through this program in 2018. Shanna told the viewers about her experiences with the house. To help with all of this, AIM's "All That Jazz" Celebration and Fundraiser will be held on September 24<sup>th</sup> at the Sanctuary in downtown Montgomery. **Topic: Tickled Pink**  
**Guests: Ellis Eskew, Alabama News Network Anchor**

Alabama News Network's 5<sup>th</sup> Tickled Pink Expo will be held Saturday, September 28<sup>th</sup> at the Multiplex in Downtown Montgomery. In a lead-in to Breast Cancer Awareness Month, the event benefits the Joy To Life Foundation. Proceeds from the expo are given to the Foundation that pays for screenings, mammograms, biopsies, and other crucial services that are needed in the fight against breast (and ovarian) cancer. JTL caters to the medically underserved, and helps those throughout the state . . . men and women. Ellis told Amanda about all the events and what she can expect to find there. The expo is filled with vendors and entertainment for the whole family. Health, cosmetics, boutiques, games, food, school choirs, dance lines, community drum circle, and cash giveaways, etc., can all be found under one roof. The stations gave free makeovers to two breast cancer survivors, and they were absolutely beautiful, inside and out! To date, the Tickled Pink Women's Expo has raised thousands of dollars to provide services to women who cannot afford them.

**Topic: Joy To Life Foundation**  
**Guest: Joy & Dickie Blondheim, Co-Founders, Joy To Life Foundation**

Joy Blondheim co-founded the Joy To Life Foundation with her husband, Dickie Blondheim after she was diagnosed with, and survived breast cancer. She realized that there were people in Montgomery at that time that were not as fortunate as she was, and she then decided to do something about it. Her first fundraiser was a "Joy To Life" walk, that has now grown to include thousands of participants that comes from all over the country. She also started the Joy To Life Pink Tag, and the Pink Trash Can with proceeds that go to the Foundation. There is also a gift shop where you can find JTL "swag" items. Joy's screening program is very successful, and she talked to Amanda about how her awareness programs impact people. They have had men screen for and been diagnosed with breast cancer. She told Amanda about how Hippa laws prevent the Foundation from getting too specific about those that they screen, but Joy gave some examples of how the Foundation has directly benefited people in the State. Men that were diagnosed are some of them. Joy also discussed why the Tickled Pink Expo is so important, as it provides more screenings to more people. Started in the City of Montgomery, Joy To Life now serves the whole State of Alabama, with the Alabama Department of Public Health supporting their efforts.
