Social/Political	Commonwealth Club	4/19/15 5:00am	:30 minutes	<b>Jane Harman: Gathering Global Threats</b> Jane Harman, Former U.S. Representative in conversation with Amy Zegart, Ph.D, Professor, Stanford University; Senior Fellow, Hoover Institution Today, non-state actors and unconventional warfare dominate the global threat landscape: ISIL, Boko Haram, hackers for hire and the "little green men" haunting eastern Ukraine. The United States needs – and lacks – clear strategies equal to those challenges. What role should American intelligence play? How can we develop a strong strategic narrative, one that meets young people where they are? What are the best economic and diplomatic tools in our kit? And what about the use of force and new military technologies, like drones and cyber-weapons? During her nine terms in Congress, Harman served on major security committees: eight years on Intelligence, eight years on Homeland Security, and six years on Armed Services. Now the head of Washington's Wilson Center, she will give her perspective on urgent national security priorities facing the United States.

Technology	Commonwealth Club	4/26/15 5:00am	:30 minutes	<p><b>Bruce Schneier, The Hidden Battles to Collect Your Data</b>  Bruce Schneier, Chief Technology Officer, Co3 Systems; Fellow, Berkman Center for Internet and Society, Harvard Law School; Author, Data and Goliath: The Hidden Battles to Collect Your Data and Control Your World. Shari Steele, Executive Director, Electronic Frontier Foundation – Moderator. Join us for a shocking look at the ways corporations and governments track and control people, and the ways we can fight back. Data is everywhere. We create it every time we go online, turn our phone on (or off!) or pay with a credit card. This data is stored, studied and bought and sold by corporations and governments for surveillance, profit and control. “Foremost security expert” (Wired) and best-selling author Bruce Schneier shows how this data has led to a double-edged Internet: a Web that gives power to the people but is abused by the institutions on which those people depend. In Data and Goliath, Schneier reveals the full extent of surveillance, censorship and propaganda in society today, examining the risks of cybercrime, cyberterrorism and cyberwar. He shares technological, legal and social solutions that can help shape a more equal, private and secure world.</p>

Martinez, Deeper Learning Senior Fellow, Hewlett Foundation; Commissioner, White House Initiative on Educational Excellence for Hispanics – Moderator. Program sponsored by Charles Schwab. For the United States to remain competitive in the global economy, our citizens need to be innovative, versatile and well-educated. To provide for these qualifications, does our model of higher education need a wholesale renovation? What would an education that is tailored to the needs of the 21st century – and affordable to all – even look like? Join this distinguished panel of public and private college educators to tackle the difficult challenges ahead: What is the value of a liberal arts college education versus a pre-professional vocational skill-building model? Why does college cost so much? How can we close the gap between attendance and graduation rates? Can we design blended in-person and online courses that are both instructive and cost-efficient? And finally, how can we get our state and federal governments to continue to support higher education and to take the financial burden off of students?</p>

Global	Commonwealth Club	5/31/15 5:00am	:30 minutes	<b>Joseph Stiglitz</b> , Professor, Columbia University; Author, The Great Divide: Unequal Societies and What We Can Do About Them; Monika Bauerlein, Co-editor, Mother Jones; Moderator. We are living in an era defined by economic uncertainty and bitter politics: The gap between the rich and the poor continues to grow, an emboldened Wall Street has shrugged off attempts at regulation, and important political policies have become the playthings of financial interests. Still, economist Joseph Stiglitz believes that a healthy economy and a fair democracy are within our grasp. By taking what he sees as practical political steps, such as making those at the top pay their fair share, spending more in areas that we all value – education, health, and infrastructure – and eliminating the corrosive advantages built into our markets, Stiglitz argues that we can once again create the opportunities that have for so long defined America, and get the country back on track. Stiglitz is a former senior vice president and chief economist of the World Bank and is a recipient of the Nobel Memorial Prize in Economic Sciences.

Social	Commonwealth Club	6/14/15 5:00am	:30 minutes	<b>Charles Murray: Rebuilding Liberty</b> Charles Murray, W.H. Brady Scholar, American Enterprise Institute; Author, By the People: Rebuilding Liberty Without Permission. David Davenport, Research Fellow, Hoover Institution — Moderator. Part of the American Value Series. Underwritten by the Koret Foundation. Is American freedom being gutted? Acclaimed social

				<p>scientist and bestselling author Charles Murray says we can no longer hope to roll back the power of the federal government through the normal political process. By his count, the Constitution is broken in ways that cannot be fixed even by a sympathetic Supreme Court, our legal system is increasingly lawless and unmoored from traditional ideas of "the rule of law," and the legislative process has become systemically corrupt no matter which party is in control. By the People's hopeful message is that rebuilding our traditional freedoms does not require electing a right-thinking Congress or president, nor does it require five right-thinking justices on the Supreme Court. Instead, Murray argues that that rebuilding can be done by the American people, using America's unique civil society to put government back in its box.</p>

Environment	Commonwealth Club	6/21/15 5:00am	:30 minutes	<p><b>EPA Chief Gina McCarthy</b> Gina McCarthy, Administrator, U.S. Environmental Protection Agency. As Mitt Romney's "Green Quarterback," Gina McCarthy played a key role in helping the Massachusetts Governor craft a plan to protect the climate and grow the economy. Now she's the point person for President Obama's effort to do the same thing on a national scale. The Obama administration's clean power plan is similar to regulations first proposed in the 1990s. In addition to its impact on U.S. industry, it underpins the U.S. position going into the UN climate summit in Paris later this year. Supporters say it is a crucial move to clean up the air. Critics say it is a job killer and may be unconstitutional. Despite the political battles in Washington, Silicon Valley is advancing renewable energy technologies that are creating companies and jobs. Can clean tech save the day? Join America's top environmental protector for a conversation about clean energy, the coal wars, green jobs and more.</p>

Arts/Humor	Commonwealth Club	6/28/15 5:00am	:30 minutes	<p><b>A Sunday with Judy Blume and Molly Ringwald</b></p> <p>Judy Blume, Author In conversation with Molly Ringwald, Actress, <i>Sixteen Candles</i>, <i>The Breakfast Club</i>, <i>Pretty in Pink</i>; Judy Blume Enthusiast. Judy Blume, called “the Queen of YA” by <i>The Washington Post</i>, releases her first novel for adults in 16 years, <i>In the Unlikely Event</i>, this June. Blume — prolific, controversial, beloved — is a literary iconoclast whose novels have been among the first to discuss teen sex, masturbation, menstruation and divorce. For three generations of pre-teen girls, Blume’s books have answered the most intimate questions of love, loss, and growing up. Blume’s latest book, <i>In the Unlikely Event</i>, is based in the supernatural early 1950’s, when three generations of New Jerseyans encounter a fateful string of airplane crashes. Judy Blume will discuss her latest book, her career spanning nearly five decades of writing, children empowerment, and her favorite stories about the young and young at heart.</p>
