And, along with the fostering, we have adopted children as well. We have eight kids under-our-roof that are adopted – ages 21 to 6 – (she smiles), so it’s been a busy household, but we enjoy it. It’s a blessing, and we believe that we’re being obedient to God’s calling on our lives.” The Dungys believe it’s critically important to say ‘yes’ to God, when you’re convinced it’s God calling you. Their life experiences with fostering and adoption, as well as marriage and serving God, are detailed in their new jointly-written book “Uncommon Influence: Saying Yes to a Purposeful Life.” Tony explains, “We just think that Christianity – people can say ‘it’s weird,’ people can say it’s different, but Jesus said, ‘We go down a narrow road,’ and the path is not the broad path that the whole world is on. So, we choose to look at that as not weird or different...but, <i>uncommon</i>. That’s the first word in the book title. As for the second word: <i>influence</i>, “We wanted to let people know that they can have an influence in their world in a lot of different ways.” Learn some</p>

Hurricane Ian	Local News Break	Sep 30	4:00 am	58 seconds	The storm pushed offshore yesterday along the First Coast, and things have settled down in Northern Florida. Jacksonville is still a bit windy, but that will settle down as the morning moves on. A storm surge warning remains in place for intra-coastal areas and the St. Johns River as trapped tides and high-water levels combine to create above-average water levels. Local coastal inundation will still be possible during high tides. Ian is 145 miles SSE of Charleston with maximum sustained winds of 85 MPH. The storm is moving NNE at 9 MPH. It's expected to make landfall sometime later this morning in South Carolina. Cleanup and recovery will continue in Florida, so remember there could be debris in roadways and damage to infrastructure. Continue to be safe.
