He continued his education at Brenau University where he received a Masters of Business Administration and he completed his academic journey at Clark Atlanta University where he received a Master's in Library Science and a Doctorate in Education.

Dr. Karanja brings a unique perspective and voice on African issues because of his very unique life journey. He was born when Kenya and the rest of the continent was embroiled in the struggle for independence. From these very humble beginnings he became a successful business man in Kenya. He then decided to pursue his education which led him to the United States – where he was again to start over as a student immigrant with a family of five. Through sheer hard work and the internalization of the American spirit which he saw made up of perseverance and optimism, Dr. Karanja has been able to achieve the American dream. | December 22, 2021 | During the pandemic, 4 in 10 adults in the US reported symptoms of mental health disorders and a national state of emergency in child and adolescent mental health was recently declared. Mental pain affects us all, including Christians, because everyone is somewhere on the mental wellness trajectory. Despite these high numbers, 70 percent of pastors rarely address mental health issues from their pulpits. Bible scholar and founder of Christian Thinkers Society, Dr. Jeremiah J. Johnston, says in his new book <i>Unleashing Peace: Experiencing God's Shalom in Your Pursuit of Happiness</i> , "As Christians, we need to build awareness of the problem and remove the stigma, because mental illness is widespread and affects everyone." |
