After forty-two years of practicing OB-GYN, Dr. James Ingvaldstad retired to start another chapter in his life. He wrote *Road Trip* to share stories of his trips to La Gonave, Haiti and to bring awareness to the work of La Gonave Haiti Partners and Childspring International.

Road Trip chronicles the adventures, surprises and touching moments of the author's eighteen years of travel to Haiti and La Gonave. From his fraternity

days, through forty years of medical practice, this book is a tapestry of events woven and bonded by the heart and soul of the Haitian people; who became a part of, not just his story, but also many others. An often-overlooked country, Haiti is home to a people that show core values of trust, faith, respect, and caring every day. Those same values are shared in equal measure by his fellow travelers. Each came to serve and share their time and talents and instead had their lives transformed by an unexpected chance to be served. Through these stories, you may, in some measure, experience how those who are poor and seem the least of us, have hearts that can change the world.

Jarvis and Tabitha Hogan-Brice of Covington, Georgia will be sharing their testimonies. They had experienced setbacks along the way as they worked to finish college. Tabitha will share how she found God and the trials and tribulations that she faced when she went away from God's Plan. Jarvis found God through his wife and will share about how he is finding his purpose in life and how he wants to be a blessing to others just as God has been to him. I went to the doctor, and thankfully, I was fine. But, the doctor's visit did shed light on the way I lived. My life still moved as fast as it was the night I crashed into a pole doing 130 mph on my motorcycle. I began to give the trajectory of my life some thought. Shortly after, I met a pastor who hired me to repair his church. He then invited me to an actual service. I attended, confessed my sins (including the drugs I had in my car in the church parking lot),

and accepted Christ. About ten months after I accepted Christ, I received a 20-year prison sentence for trafficking cocaine. The conviction was modified to 10 years, and I completed 5. Born in Korea in 1956 soon after the end of the Korean War, Steve Stirling was stricken with polio at age one. Five years later, marital and financial struggles caused his father to abandon him at an orphanage. Shortly afterward, his three-year-old sister was left there as well. *The Crutch of Success* tells Steve's incredible story of early years in the orphanage, his adoption into a large, loving family in Alaska, and his determination to succeed. He earned degrees at Cornell and Northwestern universities, married the woman who was literally the answer to his prayers, and climbed the corporate ladder with several Fortune 500 companies.

Steve seemed to have it all...but his ambition was detrimental to his health, his family, and his soul. Then God touched Steve and asked him to spend his life helping those in need.
