He feels strongly about the fact that people gave him a helping hand along his path and he now must return the honor. He goes to work to help change lives.

B. Poverty

“Dialogue Houston” Duration: 30 minutes Episode broadcast Saturday, 8/5/17 at 6:30 AM and Sunday, 8/6/17 at 4:30 AM hosted by Dr. Laurence Payne, President Educational Excellence Resource Group with guests Sharon Washington, Ph.D. and CEO Command Line and Pat O’Donnell, CEO Unabridged Technology discussed a new trend in fighting poverty through social impact investing. After billions of dollars spent in social programs, the United States still has 896 million people living below the poverty line. Mr. O’Donnell decided to direct some of his investment funds toward businesses that make money while tackling social injustices. He sees this trend as a win/win; he’s out to prove that one can receive a return on investments while improving the world.

“Dialogue Houston” Duration: 30 minutes Episode broadcast Saturday, 8/19/17 at 6:30 AM and Sunday, 8/20/17 at 4:30 AM hosted by Dr. Laurence Payne, President Educational Excellence Resource Group with guest Gleshia Joyner Givens of The Joyner Pitch discussed the role of women and community in looking after those struggling financially. As a single mom herself, who has had a career in social work, Ms. Givens provides both practical advice and inspiration for families. Her motto is, “It’s not what happens to us, it’s how we react to what happens to us.”

“Dialogue Houston” Duration: 30 minutes Episode broadcast Saturday, 8/26/17 at 6:30 AM and Sunday, 8/27/17 at 4:30 AM hosted by Dr. Laurence Payne, President Educational Resource Group with guest Gabrielle Gunn, Houston Independent School District (HISD) Teacher discussed the challenges teachers face daily in educating children who come to school hungry, not properly socialized and, in many cases, dealing with emotional burdens beyond their years. For underperforming HISD schools, the overarching problem at the center of the issue is poverty. When dealing with students who don’t have the basics either emotionally or socially, learning gets lost. Ms. Gunn is promoting more community involvement through mentors and volunteers to help fill the gap in the public school system.

C. Small Business Development

“Dialogue Houston” Duration: 30 minutes Episode broadcast Saturday, 7/8/17 at 6:30 AM and Sunday, 7/9/17 at 4:30 AM hosted by Dr. Laurence Payne, President Educational Excellence Resource Group promoted the annual Liftoff Houston Start-up Business Plan Competition sponsored by Capital One. Logistics involves moving equipment, parts, and product nationwide and worldwide. If you can’t ‘organize and move it’, commerce doesn’t happen. There is presently a severe shortage in trained logistics specialists and Mr. Onorato has worked with HCC to develop a comprehensive program to address that. He emphasized that with the training, there are always great jobs waiting for these graduates.

The group is working toward being able to provide permanent transitional housing for Houston’s homeless.

The school’s student body represents 32 countries and 29 languages. These students have experienced various levels of trauma from poverty, to death and war-torn destruction. These children and their families have all fled pervasive violence and the program helps heal them and integrate them as well as educate them. The program has been recognized by the United Nations as a model to be emulated.
