Subject: Foreign Policy Statement

[EXTERNAL EMAIL]

Hi - There is an amended FCC rule that requires us to ask if the programs we air are owned by a foreign government. A simple "Yes" or "No" in an email would suffice..

Could you answer this for me or point me to the right contact?

Are you owned by a foreign entity?

Radio stations are supposed to have this done and in their Public File for all content providers. Thank you!

Specifically, broadcasters are required to notify program suppliers leasing airtime or providing free programming to the station for airing that there is a disclosure requirement that applies to programming provided by foreign government entities or their agents, and to affirmatively ask whether the programmer is a foreign government entity or an agent of one, as well as whether a foreign government entity or an agent of one was involved in the preparation, funding, or distribution of the programming.
