

Tim:

Of course we are not involved with any foreign ownership.

If you can send me the official letter that others send, I will be happy to replicate that documentation.

Taylor

Tim:

Thank you for your note below. With regards to the FCC's Foreign Sponsorship Disclosure Rule that was adopted by the FCC in April 2021, please be advised that our company, Northern Broadcasting System, Inc., has never had any airtime lease agreements with foreign governments or their representatives.

Further be assured that there is no part of the programming that our Northern AG Network or Northern NEWS Network provides to your radio stations that is provided, funded, or distributed by "governments of foreign countries, foreign political parties, agents of foreign principals, or United States-based foreign media outlets."

Please don't hesitate to contact me if you have further questions at all.

Best regards always,

Taylor

Subject: Foreign Ownership Question

Hey Taylor - Per the new FCC rule, we are supposed to find out whether the programmer is a foreign government entity or an agent of one, as well as whether a foreign government entity or an agent of one was involved in the preparation, funding, or distribution of the programming.

So, as I understand it, we are supposed to ask each programming provider and then put in our public file. So if you would reply back with the answer, I'll check that off the list!

Thank you!
