

5/6/09

Dear Maureen,

As you know, Mike Commorato has been producing radio ads for East Stroudsburg High School North for the past five years as part of a public service project. The students write these ads in Honors Seminar Class using their research projects as the topics for the ads, which have included Aviation, Marine Biology, Diplomacy, Animation and Fashion.

These ads are always the highlight of the class, and those students who are chosen to record their ads at Lite 93.5 receive an opportunity they'll always remember. Mike is tireless in his commitment to excellence and is a wonderful instructor for the students, who learn a lot about production throughout the entire process. He is a great asset to your station and everyone at High School North commends him for his efforts. Thank you for your support of this very worthwhile project.

Jeff Lewis
