QUARTERLY ISSUES / PROGRAMS LISTS

Here follows a listing of some of the most significant issues responded to by DESPIERTA AMERICA, along with the most significant programming treatment of those issues for the period **(04/2017)**. The listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

DESCRIPTION OF ISSUE	PROGRAM/ SEGMENT	DATE	TIME	DURATION	NARRATION OF TYPE AND DESCRIPTION OF PROGRAM/SEGMENT
FORD RECALLS	DESPIERTA AMERICA	04/03/2017	8:30am	0:30	Ford Motor Company is recalling 48,443 model year 2017 Ford F-250 Super Duty trucks equipped with 6.2L engines and six-speed automatic transmissions. The transmissions may have a damaged park rod actuating plate that can result in unexpected vehicle movement even though the transmission has been shifted to 'Park.'
	DESPIERTA AMERICA	04/04/2017			NOTHING TO REPORT
JUDGES CLAIM "LGBT" DISCRIMINATION PROTECTED BY CIVIL RIGHTS LAW	DESPIERTA AMERICA	04/05/2017	8:30am	0:27	In another example of judges attempting to make law, a Chicago federal appeals court ruled Tuesday that central-government civil-rights legislation says something it doesn't - that it prohibits job discrimination against lesbian, homosexual, bisexual, and "transgender" employees. The decision, from the Seventh Circuit Court of Appeals in Chicago said 'discrimination on the basis of sexual orientation is a form of sex discrimination.
ICE AGENTS WEARING POLICE BAN	DESPIERTA AMERICA	04/06/2017	9:00am	0:24	Officers and agents with U.S. Immigration and Customs Enforcement, or ICE, have, for years, worn jackets and vests bearing the words "POLICE ICE." They identify themselves as police officers when they knock on doors in search of undocumented immigrants. The use of the label has long been criticized by immigration attorneys, who say the practice is unethical and sometimes illegal, particularly when it involves tricking people into revealing their relatives' whereabouts. But lawmakers have largely ignored the issue. Until now. A House bill introduced Thursday would bar ICE agents and officers from wearing clothing that bears the label "police." It also would affect agents and officers with U.S. Customs and Border Protection.
CALIFORNIA TENANTS ICE	DESPIERTA AMERICA	04/07/2017	9:00am	0:30	Tenants are reporting that homeowners are threatening to report them to the Immigration and Customs Enforcement (ICE) with the intent of increasing rent, evicting them, or simply avoiding the repair of basic housing needs. Under California state law, landlords can not ask a tenant or their family members about their immigration status

FIRES BLAZE ACROSS FLORIDA	DESPIERTA AMERICA	04/10/2017	7:34am	0:25	<p>A total of 105 active wildfires, spanning some 17,092 acres, were reported across the state of Florida Wednesday morning. Of those fires, 26 were considered major, covering more than 100 acres, according to the Florida Forest Service.</p> <p>The state's active wildfires map showed major blazes in counties up and down both coasts. Only the Panhandle and extreme South Florida were free from larger wildfires one day after Governor Rick Scott declared a state of emergency. Scott's Tuesday declaration was made as more than 100 fires sparked across the state on April 11, covering some 20,000 acres.</p>
TRUMP ADMINISTRATION PLEDGES TOUGHER PROSECUTIONS OF UNDOCUMENTED IMMIGRANTS	DESPIERTA AMERICA	04/11/2017	9:01am	0:22	<p>The Justice Department announced Tuesday it would take further steps to up prosecutions against undocumented immigrants -- the latest in a series of steps by the Trump administration to more aggressively enforce immigration laws. Attorney General Jeff Sessions traveled to the US-Mexico border at Nogales, Arizona, to make the announcement with Customs and Border Protection personnel, calling the measures a move against "filth" like gangs and "criminal aliens."</p>
STATE OF EMERGENCY IN FLORIDA OVER WILDFIRES	DESPIERTA AMERICA	04/12/2017	7:27am	1:35	<p>More than 23,000 acres of Florida was on fire Tuesday triggering a state of emergency and comparisons to the devastating wildfire year of 2011 when two forest service rangers were killed battling a blaze near Tallahassee.</p> <p>A prolonged dry spell that has escalated drought conditions in parts of the state to severe levels and windy conditions are blamed for the 105 fires burning Tuesday -- a state number that didn't include fires on federal land.</p>
	DESPIERTA AMERICA	04/13/2017			NOTHING TO REPORT
TRUMP PLANNED PARENTHOOD	DESPIERTA AMERICA	04/14/2017	9:00am	0:25	<p>Behind closed doors, Trump signs bill allowing states to strip federal family planning funds from abortion providers. President Trump signed legislation Thursday allowing states to withhold federal family planning dollars from clinics that provide abortion services, a move that could deprive Planned Parenthood and several other family groups of tens of millions in funding. The move marked the 12th time that Trump has signed a resolution under the 1996 Congressional Review Act (CRA) to abolish a rule issued under President Barack Obama. Less than two hours later on Thursday, Trump signed a 13th</p>

					measure, this one abolishing a Labor Department regulation aimed at expanding retirement savings accounts.
TAX DEADLINE	DESPIERTA AMERICA	04/14/2017	9:00am	0:20	The usual April 15 deadline falls on Saturday this year. That would normally push the deadline to Monday. However, Monday is a holiday in the District of Columbia, so by law, the filing deadline is extended until Tuesday. Monday is Emancipation Day in the District of Columbia. It marks the day in 1862 in which 3,100 slaves living in Washington were freed. All the states that usually have an April 15 deadline have delayed their filing date as well. A handful of states have later deadlines. The IRS has already processed 101 million individual returns and has issued \$229 billion in refunds. The average refund is \$2,851.
TARGET RECALLS EASTER TOYS	DESPIERTA AMERICA	04/14/2017	9:30	0:28	Target is recalling more than 560,000 water-absorbing easter egg and dinosaur toys. The recalled products include hatch and grow easter eggs, easter grow toys and hatch your own dino egg products. The us consumer product safety commission says they pose a "serious ingestion hazard." the commission is also warning medical professionals and consumers that if the product is ingested, it might not appear on an x-ray. No injuries or incidents have been reported. People can return the products to any target store for a refund.
STUDY BOOMERS DISTRESS	DESPIERTA AMERICA	04/17/2017	9:00am	0:28	People in serious psychological distress are three times more likely to be too poor to afford general health care, and 10 times more likely to be too poor to pay for medications, compared with people who are not mentally ill, according to research published Monday in the journal Psychiatric Services. Judith Weissman, lead author of the study and a research manager at New York University's Langone Medical Center, found that 3.4% of adult Americans, or more than 8.3 million people, suffered serious psychological distress in 2014. Nearly a decade earlier, only 3% or less were reported to have suffered in the same way.
TRUMP-WISCONSIN H-1B VISAS	DESPIERTA AMERICA	04/18/2017	7:00am	0:30	President Donald Trump is planning to sign an executive order that seeks to make changes to a visa program that brings in high-skilled workers. Trump is heading Tuesday to Kenosha, Wisconsin, where he plans to sign an order dubbed "Buy American, Hire American," said administration officials who spoke on the condition of anonymity despite the president's frequent criticism of the use of anonymous sources. The officials said the order, which Trump will sign at the headquarters of tool manufacturer Snap-on Inc., would direct

					the departments of Homeland Security, Justice, Labor and State to propose new rules to prevent immigration fraud and abuse. Those departments would also be asked to offer changes so that H-1B visas are awarded to the "most-skilled or highest-paid applicants."
H1-B VISA APPLICATIONS DECLINE	DESPIERTA AMERICA	04/18/2017	7:00am	0:30	Fewer people want to come to work in America that's according to US Citizenship and Immigration Services. The Federal Agency handles processing visa applications. It announced Monday that H1B visa applications fell below 200,000 this year for the first time in five years. An H1B visa is for immigrants with academic degrees looking to work in their fields of study in the US. Those high-skilled foreign workers are used to fill the skills gap in the US. Working in fields such as science and technology. While the number of applicants has dropped the USCIS says the program's cap was met five days into the enrollment period for its fifth consecutive year.
TAX DAY FREEBIES	DESPIERTA AMERICA	04/18/2017	7:00am	0:30	Deadline is today for filing annual tax returns If you're one of the 40 million Americans who has still not filed your taxes this year, here's a reminder that provides little relief: You had an extra three days to submit your annual return, but that time runs out today. Although tax day in the United States - by law - falls on April 15, this year the deadline is today, April 18. That's because April 15 was a Saturday, and Monday a holiday in Washington D.C., the home of the Internal Revenue Service. The capital observes Emancipation Day, a holiday commemorating the day in 1862 when Abraham Lincoln signed legislation freeing slaves in the District of Columbia. IRS agents staffed telephone lines over the weekend to help taxpayers with any last-minute issues, and there are ways to obtain additional time. As of last week, the IRS had processed more than 100 million tax returns. The average refund was \$2,851 this year, up 1.9 percent from last year. About 92 percent of tax returns were submitted electronically.
ANTIDEPRESSANTS PREGNANCY	DESPIERTA AMERICA	04/19/2017	9:00am	0:22	Study eases concerns about antidepressants, pregnancy and autism risk. Taking antidepressants during pregnancy doesn't appear to raise a child's risk of autism, once other factors that could influence the risk are taken into account, two new studies suggest. Depression during pregnancy can be dangerous for both mother and child. Pregnant women with untreated depression are more likely to have severe postpartum depression, and their children are more likely to be born prematurely or at a low birth weight. But

					earlier studies found a significant association between first-trimester exposure to antidepressants and autism spectrum disorder in children, sparking some concern about prescribing the drugs to pregnant women, researchers explained in background notes.
TRUMP GREEN CARD	DESPIERTA AMERICA	04/20/2017	8:00am	0:30	<p>Trump issuing new, high-tech green cards to prevent immigration fraud. The Trump administration on Wednesday announced it would soon issue a new, redesigned green card for legal immigrants that will be more secure and more resistant to fraud. U.S. Citizenship and Immigration Services said it would start issuing the new cards on May 1, and that the cards would use enhanced graphics and fraud-resistant security features. USCIS said the new green cards would display a person's picture on both sides of the card, and show an image of the Statue of Liberty. Employment Authorization Documents will also include photos of the authorized person, and show a picture of a bald eagle. Both sets of documents will also include holographic images, and will no longer display the person's signature, a move that could make it harder for people's signatures to be forged. USCIS said older green cards and EAD papers would remain valid until they expire, after which they will be replaced by the new, redesigned versions.</p>
CALIFORNIA SANCTUARY PUNISH	DESPIERTA AMERICA	04/20/2017	9:00am	0:30	<p>California Republicans push plans to punish Sanctuary Cities. Democratic lawmakers in Sacramento want California to become the nation's first sanctuary state. Republicans tried to stop it Tuesday with legislation of their own. California's Democrat politicians have been promoting a policy of sheltering criminals in our state who are in here illegally, Allen's bill countered SB 54, which prohibits local law enforcement from communicating with U.S. Immigration and Customs Enforcement officials in almost all cases. The only exception involved is convicted violent felons. Allen believes that's troublesome because that means everyone else including those deported in the past, those convicted of prior or multiple misdemeanors, and those who plead guilty to lesser offenses would be</p>

					protected.
STUDY CHILDREN CROSSING STREETS	DESPIERTA AMERICA	04/20/2017	9:30am	0:30	Children aren't safe crossing the road on their own until they're 14, according to scientists. Their visual judgement and motor skills have not fully developed before then - putting them at risk each time they negotiate a busy street, according to new research. A study using a simulated virtual traffic environment showed accident rates can reach as high as eight percent among six year-olds. Crossing the street by foot seems easy for adults who take stock of the traffic and calculate the time needed to get to the other side without being hit. Crossing the street by foot seems easy for adults who take stock of the traffic and calculate the time needed to get to the other side without being hit Even those aged 12 were struck by vehicles two percent of the time - and had to compensate for their lack of judgement by choosing bigger gaps in traffic.
ARKANSAS EXECUTIONS	DESPIERTA AMERICA	04/21/2017	7:00am	0:30	Arkansas carried out its first execution in nearly a dozen years despite a flurry of legal challenges that had spared three convicted killers, but courts still could scuttle the remainder of the nation's most ambitious death penalty schedule since capital punishment was restored in 1976. Ledell Lee was pronounced dead at 11:56 p.m. Thursday, four minutes before his death warrant was due to expire at midnight, capping a chaotic week of legal wrangling. Arkansas originally wanted to put eight inmates to death before the state's supply of midazolam, one of three drugs used in its lethal injection process, expires at the end of April. Three of those executions were canceled this week because of court decisions. Another inmate scheduled for execution next week has received a stay. But Arkansas wants to put two other inmates to death Monday, and one next Thursday.
ICE OFFICERS UNDER TRAINED	DESPIERTA AMERICA	04/21/2017	9:00am	0:25	Immigration and Customs Enforcement deportation officers are overburdened, under-trained and unaware of department-level deportation priorities, a government watchdog found. The Department of Homeland Security's inspector general, in an April 13 report released publicly Thursday found that ICE deportation officers in charge of "non-detained" immigrants facing deportation at four ICE field offices were responsible, on average, for supervising between 1,700 and roughly 10,000 immigrants. Caseloads for deportation officers overseeing detained immigrants were far less burdensome, averaging between 65 and 104 immigrants per person.

DHS AND IMMIGRANT SCAM	DESPIERTA AMERICA	04/21/2017	9:00am	0:26	Immigration phone scam seeks to steal victims' identities. Scam artists claiming to work for "U.S. Immigration" are calling victims across the country seeking to steal their personal information and commit identity theft, the Department of Homeland Security's inspector general warned. The thieves are using a technique called spoofing, where they alter the caller ID so it looks like the call is coming from the Department of Homeland's hotline number (1-800-323-8603). "The scammers demand to obtain or verify personally identifiable information from their victims through various tactics, including by telling individuals that they are the victims of identity theft," the U.S. Department of Homeland Security's Office of Inspector General said in its fraud alert Wednesday. It also noted that many of the scammers "reportedly have pronounced accents."
STUDY DIET SODAS DEMENTIA	DESPIERTA AMERICA	04/21/2017	9:00am	0:24	Artificially sweetened drinks, such as diet sodas, were tied to a higher risk of stroke and dementia in the study, which published in the American Heart Association's journal Stroke on Thursday. The study sheds light only on an association, as the researchers were unable to determine an actual cause-and-effect relationship between sipping artificially sweetened drinks and an increased risk for stroke and dementia. Therefore, some experts caution that the findings should be interpreted carefully. No connection was found between those health risks and other sugary beverages, such as sugar-sweetened sodas, fruit juice and fruit drinks.
	DESPIERTA AMERICA	04/24/2017			NOTHING TO REPORT
NY POLICE IMMIGRATION	DESPIERTA AMERICA	04/25/2017	9:00am	0:23	Brooklyn prosecutor's office will protect immigrants from being deported for minor crimes. They present new guidelines for educating defendants who are not citizens about the effects of being guilty. Days after US Attorney Jeff Sessions sent letters to eight 'sanctuary cities' including New York, giving an ultimatum that if they do not cooperate with 'La Migra' they will lose federal funds, the Brooklyn Attorney's Office announced on Monday new measures to Protect immigrants from being deported for minor crimes. The initiative would educate the staff of the Office of the Attorney General about the legal consequences that immigration would have for people who are not US citizens, to be accused of certain crimes. In turn, Prosecutors should instruct defense lawyers in criminal court.

DC SANCTUARY CITY	DESPIERTA AMERICA	04/25/2017	9:00am	0:21	DC Police reaffirm that it will not intervene in immigration arrests. The DC Metropolitan Police Department (MPD) once again reaffirmed that its police force will be kept out of immigration issues and arrests, a stance that faces the capital city against the policies of President Donald Trump. Washington DC, self-classified as a "sanctuary city" challenged President Donald Trump's dawning of restricting federal funds to jurisdictions that continue to protect immigrants.
CALIFORNIA SCHOOLS ISLAMOPHOBIA	DESPIERTA AMERICA	04/25/2017	9:00am	0:21	San Diego schools launches effort against Islamophobia. One of the nation's largest school districts has launched a campaign against Islamophobia, drawing praise and criticism. The San Diego Unified School District's multi year plan includes a letter addressing Islamophobia to staff and parents of its 132,000 students. It's expected to be drafted and sent before Ramadan begins in late May. The district is also reviewing internal staff calendars to make sure Muslim holidays are recognized. Next school year, it will review materials on Muslim culture for libraries, provide resources to teachers and engage in partnerships with the Council on American Islamic Relations. Over several years, it plans to consider high school clubs that promote American Muslim culture, create "safe spaces" for students and train staff about Muslim culture.
VISA EXPIRED TRUMP	DESPIERTA AMERICA	04/26/2017	10:00am	0:25	Undocumented immigrants who came to the United States with tourist visas are in the sights of the government. US Department of Homeland Security Secretary John Kelly confirmed that people in the United States with expired visas will be the new priority of immigration officers across the country. 45% of the undocumented population in the country entered the United States using some type of visa, according to a study by the Pew Hispanic Center. Known as "illegal residents", these immigrants became undocumented the moment they stayed in the country once their respective visas expired.
TRUMP TAX PLAN	DESPIERTA AMERICA	04/26/2017	7:00am	0:30	A new congressional estimate could upend President Donald Trump's tax plan even before he releases it. Trump is scheduled to unveil the broad outlines of a tax overhaul Wednesday. As part of the plan, he would propose a massive cut in the corporate income tax, reducing the top rate of 35 percent to 15 percent. The official budget scorekeeper for Congress said Tuesday that even a more modest rate cut, to 20 percent, would add to long-term budget deficits - even if the tax cut is temporary. That's a

					problem for Republicans because the Senate cannot pass legislation that would add to long-term budget deficits without a 60-vote majority. That means Democrats would have to support it, and Republicans and Democrats have major differences when it comes to tax reform.
IMMIGRANT CRIME OFFICE	DESPIERTA AMERICA	04/26/2017	7:00am	0:26	The Homeland Security Department is set to launch an office for American victims of immigrant crime. The Victims of Immigrant Crime Engagement, or a href(equals)' office opening Wednesday is intended to keep victims informed of the immigration proceedings of suspects. Critics have argued that such an office is misguided in part because multiple studies show that immigrants are less likely to commit crime than native-born U.S. citizens. President Donald Trump announced the office in his speech to Congress in February. The office's creation was also part of an executive order aimed at combating illegal immigration. Trump's tough approach to illegal immigration was the core issue of his campaign. The office's opening comes as his administration is highlighting his accomplishments as he approaches the 100-day marker of his presidency.
FDA CRACKS ILLEGAL CANCER	DESPIERTA AMERICA	04/26/2017	8:30am	0:20	The US Food and Drug Administration calls it "cruel deception": companies promising desperate consumers that their products can cure cancer. On Tuesday, the agency responsible for policing the American food and drug market issued warning letters to 14 companies that it says are "illegally selling more than 65 products that fraudulently claim to prevent, diagnose, treat or cure cancer." The companies that received the warning letters are required by law to respond in a timely fashion, indicating whether they intend to pull the products under scrutiny from the market or alter the advertising and packaging to comply with the agency's rules and regulations.
TEXAS SANCTUARY	DESPIERTA AMERICA	04/27/2017	7:00am	2:00	The Texas House has approved a strict ban on "sanctuary cities" in the country's second-largest state, seeking to empower police to enforce federal immigration law against anyone they detain and threatening to jail police chiefs and sheriffs who refuse to do so. Thursday's 93-54 vote followed 15-plus hours of emotional debate, much of it from outnumbered Democrats powerless to stop the bill. Under it, the state could withhold funding from local governments for acting as sanctuary cities, even as the Trump administration's efforts to do so nationally have hit roadblocks. Other Republican-controlled states have pushed for similar policies in recent

					years. But Texas would be the first where police chiefs and sheriffs could be jailed for not helping enforce immigration law.
TRUMP TAXES	DESPIERTA AMERICA	04/27/2017	7:00am	0:30	President Donald Trump's team boasted Wednesday that its tax-cut plan would lighten Americans' financial burdens, ignite economic growth and vastly simplify tax filing. Yet the proposal so far remains short of vital details, including how it would be paid for. And based on the few specifics spelled out so far, most experts suggest that it would add little to growth while swelling the budget deficit and potentially handing large windfalls to wealthier taxpayers. Trump's plan would replace the current seven income tax brackets with three, and the top bracket would drop from 39.6 percent to 35 percent. It would also slash the corporate rate from 35 percent all the way to 15 percent, a boon to most companies even though many don't pay the full tax now. With tax credits and other loopholes, most corporations pay closer to 20 percent.
ICE CHILDREN CRIMINALS LIST	DESPIERTA AMERICA	04/27/2017	8:00am	0:26	Babies and children are listed in Homeland Security's immigrant database of alleged criminals. A database the Trump administration said would help victims of crimes track the custody of suspected criminal immigrants mistakenly listed babies and other children. The public database included the names of children, from infants to underage teenagers, in immigration custody. When alerted Wednesday evening, Department of Homeland Security officials said the release of children's names was a lapse in policy. The agency is not supposed to release information on children in immigration custody, said Gillian M. Christensen, acting Homeland Security press secretary.
SUPER BACTERIA THREAT	DESPIERTA AMERICA	04/27/2017	9:00am	0:27	Health authorities are concerned about the spread of the Candida Auris infection. A super drug resistant fungus is emerging as a new threat in US hospitals, mainly in New York and New Jersey, according to information released at a CDC conference. The fungus, called Candida auris, is a harmful form of yeast. Scientists say it can be difficult to identify it with standard laboratory tests. Federal health officials sounded the alarms in 2016 because two of three types of drugs commonly used against fungi had little effect.
TOYOTA RECALLS	DESPIERTA AMERICA	04/28/2017	10:00am	0:26	Toyota is recalling 228,000 Tacoma vehicles over an issue that could cause drivers to lose control of their cars. The company says the recall applies to

					<p>certain 2016 and 2017 Tacoma trucks. The issue is that the vehicle's rear differential -- the piece that connects the truck's back two wheels -- could leak oil. According to Toyota... That could lead to a crash if a vehicle is operated for a long time and damages the rear differential. Customers can look up whether their car is included in the recall on Toyota's website. The company says it's already sending notices via mail to affected customers. Toyota is encouraging drivers with affected trucks to bring them into a dealer to get checked out. If there's an issue, the company says necessary parts will be replaced free of charge. Otherwise, minor services may be performed to ensure there isn't an issue going forward. The company declined to comment when asked whether there have been any injuries or crashes linked to this recall.</p>
--	--	--	--	--	---

QUARTERLY ISSUES / PROGRAMS LISTS

Here follows a listing of some of the most significant issues responded to by DESPIERTA AMERICA, along with the most significant programming treatment of those issues for the period **(05/2017)**. The listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

DESCRIPTION OF ISSUE	PROGRAM/ SEGMENT	DATE	TIME	DURATIO N	NARRATION OF TYPE AND DESCRIPTION OF PROGRAM/SEGMENT
HACKING THREAT	DESPIERTA AMERICA	05/01/2017	9:30am	0:25	Tonight, Netflix seeing red over the reported leak of Orange is the New Black more than a month before the season's scheduled release. The hacking group "The Dark Overlord" reportedly stealing the ten episodes from a post-production company leaking them after the hackers say Netflix refused to pay a ransom. Now, the hackers claiming to have stolen content from Fox, Ifc, Nat Geo, and Abc, making more ransom demands.
SPENDING BILL WALL SANCTUARY	DESPIERTA AMERICA	05/01/2017	10:00am	0:26	Republican and Democratic lawmakers forged a \$1.07 trillion spending package that would fund the government through the end of September, but does not include some of President Trump's cornerstone promises including funding for a border wall or funding cuts to sanctuary cities. The proposed legislation has no funding for Trump's oft-promised wall along the U.S.-Mexico border, but does set aside \$1.5 billion for border security measures such as additional detention beds. It does give Trump a \$12.5 billion down payment on his request to strengthen the military, a figure which could rise to \$15 billion should Trump present Congress with a plan for fighting the Islamic State terror group. The proposed \$15 billion amounts to half of Trump's original \$30 billion request.
TEMPORARY VISA SHORTAGE	DESPIERTA AMERICA	05/02/2017	8:00am	0:20	Innkeepers, restaurateurs and landscapers around the U.S. say they are struggling to find seasonal help and turning down business in some cases because the government tightened up on visas for temporary foreign workers. At issue are H-2B temporary visas, which are issued for workers holding down seasonal, nonagricultural jobs. The U.S. caps the number at 66,000 per fiscal year. Some workers return year after year, and Congress has let them do so in the past without being counted toward the limit. No such exception was passed for 2017 at the end of last year, after the presidential election. Lawmakers on Monday unveiled a government spending bill that would

					allow the homeland security secretary to increase the number of H-2B visas this fiscal year to almost 130,000.
US EUROPE TRAVEL ALERT	DESPIERTA AMERICA	05/02/2017	8:00am	0:25	The US State Department has issued a travel alert for its citizens going to Europe, citing the continued threat of terror attacks. The alert mentioned recent attacks in France -- which heads to the polls next week to choose a new president -- Russia, Sweden and the UK, noting that extremists tend to focus on tourist hot spots. A US official told CNN in February that the terror threat in Europe was as high as it's ever been. Recent estimates from Europe and US say as many as 1,900 foreign fighters have returned to Europe after stints in Iraq and Syria, the official said. Some remain committed to terror groups like ISIS, but others returned disenchanting. The alert expires September 1.
INTERN SALARY OF TOP FIRMS	DESPIERTA AMERICA	05/02/2017	9:30am	0:23	Summer is nearing, and workplaces everywhere are awaiting the arrival of this year's interns to help out on extra projects and shoulder the seasonal load. But among certain companies, they're likely doing more than getting coffee and making copies. Or at least, they're being paid that way. According to a new report, the 25 best-paying companies for internships each pay their median summer worker more than \$4,500 a month. That amount, if it was paid over the course of a full year, would be north of \$54,000, exceeding the median annual pay for a U.S. worker, according to Glassdoor's own local pay reports (\$51,350), and the annual figure calculated from the Bureau of Labor Statistics' latest weekly earnings data > for full-time wage and salary workers (\$44,460).
AA REDUCING LEGROOM	DESPIERTA AMERICA	05/03/2017	8:30am	0:20	American Airlines says it plans to add more seats on its coming boeing 737 Max Jetliners. To do that, it will shrink the distance between seats, also known as pitch, by two inches -- from 31 inches to 29 inches -- on the last three rows of the airplane. And it's bringing it down by an inch to 30-inches in the rest of its main economy cabin. With the change, American will become the first large US carrier to offer leg room with a pitch that's nearly on par with ultra-low cost carriers spirit airlines and frontier airlines.

TEXAS SANCTUARY	DESPIERTA AMERICA	05/04/2017	7:00am	0:30	Texas lawmakers pass bill allowing police to ask about immigration status. The Texas Legislature on Wednesday passed a ban on so-called "sanctuary cities" that allows police officers to ask about a person's immigration status and threatens sheriffs and police chiefs with jail time if they don't work with federal authorities. Republican Gov. Greg Abbott has pledged to sign the bill into law, which could now come quickly. The GOP-led Senate passed the bill Wednesday despite objections from Democrats, who call the bill a "show-me-your-papers" measure that will be used to discriminate against Latinos. The term "sanctuary cities" has no legal definition, but Republicans want local police to help federal immigration agents crack down on criminal suspects in the U.S. illegally.
FLORIDA ZIKA MOSQUITOES UNLEASHED	DESPIERTA AMERICA	05/04/2017	9:30am	0:27	Zika fight: Bacteria-laden mosquitoes unleashed in Florida to combat virus. The Florida Keys are flying in 40,000 mosquitos a week, to take their own buzzing vacations, of sorts. Pruszynski is packing 20 of these tubes in her bag, all full of male mosquitoes. Twice a week, she walks a 10-acre test site on Stock Island (right next door to Key West)-part industrial, part residential-putting her mouth up to one end of the tube and then blowing the thousand mosquitos out into the air, to mix and mingle with the native mosquito population.
IMMIGRATION-VISA OVERSTAYS	DESPIERTA AMERICA	05/06/2017	7:00am	0:22	A government report says U.S. immigration agents cannot effectively track foreigners who overstay their visas because of inefficient computer systems and a lack of exit screening. The Department of Homeland Security's Office of Inspector General said Thursday that immigration agents and analysts need better and more integrated computer systems to check visitors' immigration status and training on how to use them. The report also says the U.S. has been slow to roll out a system to screen foreign visitors when they leave the U.S. A pilot program is underway at Atlanta's Hartsfield-Jackson International Airport. The report says more than 500,000 people overstayed their visas during a one-year period ending in September 2015.
TSA TRUCK WARNING	DESPIERTA AMERICA	05/06/2017	7:30am	0:25	The TSA warning commercial trucking and rental companies about the increasing threat of using Tractor-Trailers and other huge vehicles, including buses, as tools of terror. Since 2014, 17 vehicle-ramming attacks resulting in 173 fatalities, with 667 wounded. In december, 12 murdered as this large truck ran over pedestrians at

					an outdoor Christmas market in Berlin. The agency saying that no community is immune from these low-tech mass murders.
VISAS MORE INFORMATION	DESPIERTA AMERICA	05/06/2017	8:00am	0:22	The US government is considering asking for more information from some visa applicants to "more rigorously assess" potential terrorists or those who may pose threats to national security. Additional reviews include social networking accounts and personal information about any sibling or child of the applicant. These new revisions would only apply to those who "merit additional scrutiny," the State Department announced, urging the Office of Budgetary Management (OMB) to approve this initiative by 18 May. If approved, the new measure would give consular agents around the world discretion to decide which applicants for US visas could pose a security threat and submit them for further review. This would affect 0.5% of the world's visa applicants, or about 65,000 people, the announcement estimates.
UNEMPLOYMENT APRIL	DESPIERTA AMERICA	05/06/2017	9:00am	0:24	Hiring in the United States rebounded in April as employers added a brisk 211,000 jobs, a sign that the economy's slump in the first three months of the year could prove temporary. The unemployment rate dipped to 4.4 percent -- its lowest point in a decade -- from 4.5 percent in March. The figures suggest that businesses expect consumer demand to rebound after a lackluster first quarter, when Americans increased spending at the slowest pace in seven years, and will need more employees. Still, average paychecks grew more slowly in April, increasing 2.5 percent over the past 12 months, below March's year-over-year gain. Typically, employers are forced to pay more as they compete for a smaller pool of unemployed workers. Hourly pay gains are usually closer to 3.5 percent in a strong economy.
SACRAMENTO IMMIGRANTS	DESPIERTA AMERICA	05/06/2017	9:30am	0:25	Undocumented immigrants in Sacramento will have city-funded legal services as soon as next month to fight deportation and "prepare for the worst," as fears continue to grow about federal immigration plans. Sacramento City Council members voted unanimously Tuesday to set aside up to \$300,000 to fund a network of legal, educational and faith-based nonprofit groups that will help city residents with immediate immigration problems and advise on

					how to protect children and assets if parents are deported in the future. The network would also conduct rights trainings.
TEXAS SANCTUARY CITIES	DESPIERTA AMERICA	05/08/2017	7:00am	2:00	Texas has charged to the forefront of national debate over immigration as Republican Gov. Greg Abbott signed a so-called "sanctuary cities" ban that lets police ask during routine stops whether someone is in the U.S. legally and threatens sheriffs with jail if they don't cooperate with federal immigration agents. The new Texas law was blasted by opponents as the nation's toughest on immigrants since Arizona's crackdown in 2010. Opponents are now vowing a court challenge. Abbott signed the measure on Facebook Live Sunday evening without advance notice, which critics say was to avoid protesters but the governor's office says was to take advantage of social media. The law allows police to inquire about the immigration status of anyone they detain.
SEX ASSAULT HAZING	DESPIERTA AMERICA	05/08/2017	8:30am	0:19	An investigation has found that student-on-student sexual assault in the U.S. is perhaps nowhere as dismissed or as camouflaged as in boys' sports. Records show boys have suffered serious injury and trauma, yet cases often are minimized as "hazing." It examined more than 300 cases of student-on-student sexual violence that surfaced through law enforcement records, lawsuits, interviews and news accounts. The sports setting emerged in those cases as a leading venue for such attacks. Experts say the last decade has seen an escalation into sexual violence on high school and even middle school teams.
BORDER SAFETY INITIATIVE	DESPIERTA AMERICA	05/08/2017	9:00am	0:30	The Tucson Sector of the U.S. Border Patrol is trying to do what it can to reduce the amount of migrants that die in the desert while attempting to cross the border illegally. In 2016, Border Patrol reports finding 84 bodies in the Tucson Sector alone, and expect there were more than that. So they hosted their annual "Border Safety Initiative," aimed at demonstrating the dangerous conditions migrants face when crossing illegally as a way to educate people about border safety

ITALIAN SAUSAGE RECALL	DESPIERTA AMERICA	05/08/2017	9:00am	0:18	Chicken sausage products that might contain bits of plastic are being recalled by Perdue Foods, the US Department of Agriculture's Food Safety and Inspection Service said Saturday. Three consumers have complained of finding blue plastic in sausage links, the USDA said. The items were sold at BJ's Wholesale Club stores in the northeast.. The recalled product is Perdue Harvestland Organic Italian Chicken Sausage. The package code is 64405 and the sell-by or freeze-by date is June 25. More than 1,400 24-ounce packages have been recalled.
SB4 TEXAS LAW	DESPIERTA AMERICA	05/09/2017	7:00am	1:30	Texas sues Austin officials ahead of expected sanctuary cities ban lawsuits. Less than a day after Senate Bill 4, a ban on sanctuary cities in Texas, was signed into law by Gov. Greg Abbott, the state's attorney general has filed a lawsuit asking a federal court to uphold the constitutionality of the law.
MIGRANTS ASK FOR ASYLUM	DESPIERTA AMERICA	05/09/2017	8:00am	1:00	This is what they call the 2017 walk of the refugee. On Monday, more than 200 Central American migrants headed towards the US. To beg the authorities for political asylum. From Chiapas to Tijuana these migrants walked to the US Border, escaping the violence in their countries and want a better quality of life. Most of them come from Nicaragua, Honduras, Guatemala and El Salvador. The event has been planned with a coalition of Mexican and American organizers. It is meant to raise awareness about the dangers facing refugees as well as the Trump administration's efforts to prevent refugees from legally entering the US.
DIABETES YOUNG PEOPLE	DESPIERTA AMERICA	05/09/2017	8:30am	0:22	More and more young people are being diagnosed with diabetes. According to a study published in the New England Journal of Medicine. Researchers analyzed information from nearly five million people under the age of 20. They found that rates of new type-two diabetes cases increased by about 4.8 percent every year between 2002 and 2012. Rates of new type-one diabetes cases increased by 1.8 percent yearly over the same time period. Researchers note differences among ethnic groups and genders.

DHS LAPTOP BAN EXPANSION	DESPIERTA AMERICA	05/11/2017	7:30am	0:21	The DHS is considering increasing the number of flights where large devices like laptops will be banned from carry-on luggage. They blame it on increased terrorism concerns. Currently the ban is in place at ten airports in 8 countries. Officials have said recently that an expansion is "likely." Homeland Security secretary John Kelly will head to Capitol Hill on Thursday to speak with lawmakers about aviation security issues. Domestic and International airline industry officials are expected at the meetings. The DHS official stressed no decision is anticipated for Thursday.
MARIHUANA CALIFORNIA	DESPIERTA AMERICA	05/11/2017	8:30am	0:22	Police in three California counties are testing what amounts to a breathalyzer for drug users -- a device that some authorities and lawmakers said Wednesday is desperately needed now that voters have legalized recreational marijuana in the state. When legalization takes full effect next year, California will become the world's largest market for pot. Yet California is among the states with legalized marijuana that are struggling to find a reliable test and gauge for marijuana impairment that can stand up in court and lead to convictions.
	DESPIERTA AMERICA	05/12/2017			NOTHING TO REPORT
US IMMIGRATION COURTS	DESPIERTA AMERICA	05/15/2017	7:00am	0:50	The Supreme's views on how to handle immigration are about to become more clear. Decisions in a half-dozen cases dealing with immigration are expected over the next two months. They could offer some insight into how the justices might evaluate Trump administration actions on immigration, especially stepped up deportations. The outcomes could indicate whether the justices are retreating from long-standing decisions that give the president and Congress great discretion in dealing with immigration. Some of those cases could be decided as early as Monday. That's when the court is meeting to issue opinions in cases that were argued over the past six months.

GLOBAL CYBERATTACK	DESPIERTA AMERICA	05/15/2017	7:00am	2:00	Global cyber chaos is spreading Monday as companies boot up computers at work following the weekend's worldwide "ransomware" cyberattack. The extortion scheme has created chaos in 150 countries and could wreak even greater havoc as more malicious variations appear. The initial attack, known as "WannaCry," paralyzed computers running Britain's hospital network, Germany's national railway and scores of other companies and government agencies around the world. As a loose global network of cybersecurity experts fought the ransomware hackers, in China, state media said more than 29,000 institutions had been infected along with hundreds of thousands of devices. The Japan Computer Emergency Response Team Coordination Center, a nonprofit providing support for computer attacks, said 2,000 computers at 600 locations in Japan were reported affected so far.
BURRITOS RECALLED	DESPIERTA AMERICA	05/15/2017	8:00am	0:30	Roughly 253,000 pounds of frozen burritos by green chile food company are affected. The items were shipped to distribution centers in California, Illinois, Oregon and South Dakota and were packaged between march 8th and may 10th. There have been no confirmed reports of any illnesses associated with the recall. The usda urges customers to throw the burritos in question away or return them to the place of purchase.
CALIFORNIA NOROVIRUS	DESPIERTA AMERICA	05/15/2017	9:00am	0:30	Almost 1,000 students and teachers contract norovirus in 32 schools across Northern California 952 people in 32 schools in Yolo County, California, have contracted norovirus The illness spread to students, teachers and staff members at the schools The University of California, Davis has also been infected Norovirus is the leading cause of outbreaks of diarrhea and vomiting in the US.
NYT BREAST IMPLANT CANCER	DESPIERTA AMERICA	05/16/2017	9:30am	0:24	The Food and Drug Administration first reported a link between implants and the disease in 2011, and information was added to the products' labeling. But the added warnings are deeply embedded in a dense list of complications, and no implants have been recalled. The F.D.A. advises women only "to follow their doctor's recommended actions for monitoring their breast implants," a spokeswoman said in an email this month. Until recently, many doctors had never heard of the disease, and little was known about the women who suddenly received the shocking diagnosis of cancer brought on by implants. An F.D.A. update in March that linked nine deaths to the implants has helped raise

					awareness. The agency had received 359 reports of implant-associated lymphoma from around the world, although the actual tally of cases is unknown because the F.D.A.'s monitoring system relies on voluntary reports from doctors or patients. The number is expected to rise as more doctors and pathologists recognize the connection between the implants and the disease.
STUDY SLEEP AND RELATIONSHIP	DESPIERTA AMERICA	05/16/2017	9:30am	0:20	<p>Before You Break Up With Your Boyfriend, You Should Take A Nap, Science Says It could be because he absolutely sucks, but it could also be because you just haven't been getting enough sleep at night. A new study looked into how sleep deprivation affects our happiness in our romantic relationships.</p> <p>The researchers recruited around 70 newlywed straight couples and had them complete different surveys every day of the week. So what did the researchers find when they looked at the survey results? People who slept more were happier in their relationships as a whole.</p>
TX SB4 PROTEST	DESPIERTA AMERICA	05/17/2017	7:00am	0:22	<p>Elected officials from some of Texas' largest cities on Tuesday declared a "summer of resistance" against state law SB4, which seeks to prohibit local state officials from limiting their cooperation with federal immigration agents. Dozens of activists gathered at the event, interspersed with shouts of "Yes you can!" Between the speeches of the elected leaders and showing posters with messages like "We will go to vote".</p>
IMMIGRATION UNDOCUMENTED	DESPIERTA AMERICA	05/17/2017	7:00am	0:24	<p>Republican lawmakers draft law punishing at least five years in jail for re-entry of undocumented immigrants into the country. The plan proposes, among other measures, to force the parents of undocumented minors to carry electronic shackles, hire more judges to accelerate deportations, and increase ICE capacity to imprison undocumented migrants. Senator John Cornyn's plan and Rep. Michael McCaul is specifically targeting sanctuary cities, including a move that would force parents of undocumented teenagers to wear electronic shackles on their ankles so they do not miss their deportation court hearings.</p>

LAPD ICE	DESPIERTA AMERICA	05/17/2017	9:00am	0:25	Los Angeles Police (LAPD) will maintain its stance not to collaborate with immigration authorities in deportation proceedings, the company's chief Charlie Beck reiterated Tuesday. The LAPD commissioners made it clear that their officers should be governed under Special Order 40, which since 1979 prohibits them from investigating the immigration status of persons or performing police duties to determine whether they are authorized to live or work in the country.
STUDY BELLY BEER	DESPIERTA AMERICA	05/17/2017	9:30am	0:26	A new study concluded that abdominal fat (often related to excessive consumption of alcohol) increases the risk of mortality even more than overweight. The research detailed that those who fail to have a normal Body Mass Index the person can be considered healthy. The tummy generated by abdominal or visceral fat doubles the risk of mortality. In addition to alcohol, a diet with many carbohydrates and fats (sausages, fried foods, canned foods and other processed foods), lack of exercise, stress and lack of sleep are other factors that can cause fat to build up in the abdominal area.
JUDGE BLOCKED IMMIGRANT HELP	DESPIERTA AMERICA	05/18/2017	7:00am	0:25	A federal judge temporarily blocked a decision Wednesday from the Justice Department that according to activists would hinder much of the work they do to help those facing deportation proceedings. Judge Richard Jones of Seattle made his decision immediately after hearing arguments in a lawsuit filed by the nonprofit group, the Northwest Immigrant Rights Project. The Justice Department sent the group a letter last month in which it said it could not give some legal advice to immigrants unless it formally assumes its legal defense in court. The order would force the group and similar organizations to stop preparing motions and other documents on behalf of immigrants who represent themselves at hearings, the organization said. The group filed a lawsuit against the federal government last week, accusing it of violating its rights to freedom of expression, freedom of assembly and to petition the government.

INMIGRANTES DETENTIONS	DESPIERTA AMERICA	05/18/2017	7:00am	0:25	Arrests of undocumented nationals increased 38 percent nationwide in the first 100 days of Trump's rule. A report from the Immigration and Customs Enforcement (ICE) reveals that the new government is holding more undocumented immigrants than Obama, and so does the number of those arrested without a criminal record. In the first 100 days of President Donald Trump's government, illegal immigration arrests increased 37.6 percent compared with arrests in the same period in 2016. A report by the Immigration and Customs Enforcement (ICE), released Wednesday, That since January 25, when Trump signed two executive migration orders, one on the sanctuary cities and another on the construction of the wall on the Mexican border, until April 30, the agency arrested 41,318 individuals on civil charges for violations To immigration law.
USCIS CITIZENSHIP	DESPIERTA AMERICA	05/18/2017	8:00am	0:25	There are more applications for citizenship, and more delays to process them. USCIS has more than 630,000 pending citizenship cases and the time it takes to naturalize has been increasing for up to a year or more. USCIS Monitor alleges unspecified "technical" problems. While it is unclear what those "technical problems" are, since USCIS spokespeople did not respond to a request for more information, if it was confirmed that they exist and that the delays have been palpable for community organizations and individuals seeking citizenship . According to the experience of organizations dealing with citizenship and individual immigrants, this has meant that the process of passing all the steps to being sworn in as a citizen of the United States a year ago took between 6 and 8 months - and in some cases less - Day is an average of 8 months to a year.
TSA AGENTS TRAVEL SEASON	DESPIERTA AMERICA	05/18/2017	8:00am	0:25	TSA adding additional agents, canine teams ahead of projected record summer air travel season. Even as experts project that a record 234.1 million passengers will take to the skies on U.S. airlines this summer, the TSA says it's prepared for the travel onslaught. Last summer -- which saw just 224.8 million travelers, or 9.3 million fewer than are expected this summer -- hours-long lines snarled checkpoints across the country, sparking outrage among passengers and airlines alike.

BORDER PATROL AGENTS	DESPIERTA AMERICA	05/18/2017	9:30am	0:25	Senate expedites the hiring of Border agents. Lie detector test tripping up many potential hires. The Senate Homeland Security Committee approved a bill Wednesday to speed up hiring of Border Patrol agents by grandfathering in longtime military troops and law enforcement officers who have already passed background checks. As President Trump calls for a new surge of agents to patrol his proposed border wall, experts say the requirement for a polygraph test trips up too many good candidates and causes 18-month delays in getting agents on board.
DC DEBATE BILL IMMIGRATION	DESPIERTA AMERICA	05/19/2017	7:00am	0:25	Honor of State and Local Law Enforcement Act (H.R. 2431) purports to empower states and localities to take action against serious criminals who have violated immigration law.[2] In reality, the bill is a vehicle for a massive expansion of the federal government and of federal power over states and their citizens. The legislation imposes new mandates on states and uses federal grants to coerce them into following the bidding of the federal authorities. These requirements undermine the federalist system that the Founders intended. Even where it does grant certain state agencies greater powers, it does so while undermining the authority of the state legislatures. It authorizes state and local law enforcement personnel to enforce immigration laws without any authorization from their state legislature to do so and without any training.
TAKATA AIRBAG SETTLEMENT	DESPIERTA AMERICA	05/19/2017	7:30am	0:25	Millions of car owners whose vehicles were outfitted with faulty Takata Airbags may soon receive up to \$500 under terms of a new consumer settlement. Owners of nearly 16,000,000 vehicles made by Toyota, Subaru, BMW and Mazda are eligible for compensation. The amount each car owner is paid will vary, depending upon their circumstances. The proposed deal, which comes more than 8 years after initial reports of the recall first emerged, stipulates that the carmakers will pay \$553,000,000. Some of that money will go to programs designed to get car owners to get their airbags replaced.
POOL CDC PARASITIC WARN	DESPIERTA AMERICA	05/19/2017	9:00am	0:25	CDC warns of parasitic infection, toxic gas. Beware of contaminated pool water: Outbreaks of a parasitic diarrhea-causing infection linked to pools and water playgrounds doubled in the United States from 2014 to 2016, according to the Morbidity and Mortality Weekly Report issued Thursday by the Centers for Disease Control and Prevention. Cryptosporidium is a germ

					that can make people sick with diarrhea for up to three weeks. Nicknamed crypto, this parasite spreads through contact with the feces of an infected person. In 2016, the CDC received word of 32 outbreaks linked to swimming pools or water playgrounds in the US, compared with just 16 two years earlier.
TRUMP BUDGET	DESPIERTA AMERICA	05/22/2017	7:30am	0:21	President Donald Trump will unveil a proposed budget this week that would drive millions of people off food stamps and cut Medicaid, targeting the social safety-net programs for the poor in a new wave of spending cuts. Trump's blueprint for the 2018 budget year comes out Tuesday. It includes reductions to benefit programs such as Medicaid, the government insurance program for the poorest and many disabled Americans; federal employee pensions, welfare benefits and farm subsidies. Even before its release, it was widely panned by Republicans and Democrats. All told, according to people familiar with the plan, Trump's budget includes \$1.7 trillion over 10 years in cuts from such so-called mandatory programs. That includes cuts to pensions for federal workers and higher contributions toward those pension benefits, as well as cuts to refundable tax credits paid to the working poor.
SANCTUARY POLICIES AND ICE	DESPIERTA AMERICA	05/22/2017	9:00am	0:25	Data Suggest 'Sanctuary' Policies Impeding ICE Arrests. Illegal-alien apprehensions surge in areas with strong local cooperation, decline in San Francisco. Immigration arrests jumped more than a third during President Donald Trump's first 100 days compared with the same period last year, but statistics requested by LifeZette show wide geographic variation. Overall, Immigration and Customs Enforcement data reported by the government last week showed that arrests of illegal immigrants totaled 41,898 from Jan. 20 through April 29. That was a 34.6 percent increase over the same period in 2016. Some ICE offices were far busier than others, however.
UNDOCUMENTED IMMIGRANTS DEPORTATION	DESPIERTA AMERICA	05/22/2017	10:00am	0:25	Immigration arrests are up 20 percent and deportations have increased 30 percent in New Jersey over the past year as enforcement officers nationwide work to fulfill the president's promise to crack down on illegal immigration. But John Tsoukaris, the head of immigration enforcement in New Jersey, said most undocumented immigrants in the state don't need to be afraid because his officers are focusing on those who have committed serious crimes or have deportation orders against them. Nationally, more than 41,300

					undocumented immigrants have been taken into custody since President Donald Trump took office and expanded the power of immigration officials to decide who should be held for deportation. Some 400 immigrants are arrested each day now - a 38 percent jump from the previous year. The arrests and deportations have heightened fears among the 500,000 undocumented immigrants in New Jersey, advocates said. They are reporting a noticeable increase of ICE officers in neighborhoods and that larger sweeps of undocumented people are occurring. Despite Tsoukaris' assurances, they also say undocumented immigrants who don't have criminal backgrounds are being arrested more frequently.
	DESPIERTA AMERICA	05/23/2017			NOTHING TO REPORT
	DESPIERTA AMERICA	05/24/2017			NOTHING TO REPORT
HEALTH OVERHAUL	DESPIERTA AMERICA	05/25/2017	7:00am	0:30	A new analysis by Congress' nonpartisan budget scorekeepers undermines claims by House Republicans that their health legislation protects people with pre-existing conditions. Instead, the Congressional Budget Office "score" of the bill passed earlier this month says that in some cases, people with pre-existing conditions would not be able to purchase comprehensive health insurance at premiums comparable to those under current law, if they could purchase it at all. The finding is a blow to arguments from House GOP leaders who managed to get their bill over the finish line by arguing that a last-minute addition of \$8 billion would bolster protections for those with pre-existing conditions. The CBO specifies that these people would have difficulty getting affordable coverage despite the additional funding that would be available.

GRACO RECALLING CAR SEATS	DESPIERTA AMERICA	05/25/2017	8:00am	0:30	Graco Children's Products is recalling more than 25,000 car seats because the harness webbing can break in a crash and may not keep children restrained. The recall affects certain My Ride 65 convertible seats with model numbers 1871689, 1908152, 1813074, 1872691, 1853478, 1877535, 1813015, and 1794334. The seats were made on July 22, 2014 and have a code of 2014/06 on a tag that's on the webbing. Documents posted Wednesday by the National Highway Traffic Safety Administration say that agency tests discovered the webbing strength problem. Graco traced the problem to a single batch of webbing. Graco says in documents that it will notify owners and dealers will provide a replacement harness free of charge. The recall is expected to start on July 17.
TSA TESTING ENHANCED	DESPIERTA AMERICA	05/25/2017	9:00am	0:24	But the TSA is testing enhanced screening of electronics at 10 US airports. In a statement it said at these airports, travelers will be asked to place electronics larger than a cell phone in a separate bin for X-ray screening. It says TSA officers will be stationed at those airports to help travelers through the process. Among the airports involved in the pilot program Los Angeles, Phoenix, Boston, Detroit and Fort Lauderdale, also Boise, Colorado Springs, Lubbock, San Juan and Las Vegas. The TSA also stresses its top priority is to protect the traveling public.
Appeals Court Rejects Trump Travel Ban	DESPIERTA AMERICA	05/26/2017	8:00am	0:20	A federal appeals court on Thursday declined to life an injunction on President Trump's ban on travel to the United States from six majority-Muslim nations. The U.S. Court of Appeals for the Fourth Circuit, in a 10-to-3 ruling, found that the Trump policies amounted to religious discrimination, in violation of the Constitution. Further, the appeals court found that while the president of the United States has broad powers related to entry to the country, those powers are not absolute.
Homeland Security: Flight Laptop Ban May Be Massively Expanded	DESPIERTA AMERICA	05/29/2017	7:00am	0:28	Bad news for frequent fliers, good news for airport bookstores: Homeland Security chief John Kelly says officials are seriously considering banning laptops, tablets, and other large electronic devices from cabin baggage on all international flights to or from the US, reports the BBC. When asked on Fox News Sunday whether he would expand the ban, which currently applies to flights from 10 cities in Muslim-majority countries, Kelly said he might, adding that a "real threat" exists. Terrorists, he said, are "obsessed" with

					"the idea of knocking down an airplane in flight, particularly if it's a US carrier, particularly if it's full of mostly US folks."
	DESPIERTA AMERICA	05/30/2017			NOTHING TO REPORT
LAPTOP BAN DHS ALTERNATIVES	DESPIERTA AMERICA	05/31/2017	0:30	8:30am	The airline industry feels US security officials may be looking into alternatives to a proposed laptop ban. An industry source said europeans expressed outrage at the proposal to the Department of Homeland Security. And since the department hasn't done anything since then, airlines now feel its leaders are open to other options. The source says those options could include additional random and secondary screenings. But the department says the electronics ban is still on the table, along with other options. Any device larger than a cellphone is already banned in the cabin on flights from ten airports in africa and the middle east. But US officials are considering expanding the ban to all international flights to and from the US.
MACADAMIA RECALL	DESPIERTA AMERICA	05/31/2017	0:24	9:00am	Macadamia nuts, cashews recalled for possible listeria contamination. Simple Truth Dry Roasted Macadamia Nuts and Ava's Organic Cashews Roasted & Salted are the subject of unrelated recalls for possible listeria contamination, according to the Food and Drug Administration. The macadamia nuts were sold in six states: Ohio, Kentucky, Kansas, Nebraska, Missouri and Indiana. Kroger, Bakers, Gerbes and Dillons stores carry the Simple Truth line. The recalled macadamia nuts were sold in a clear 12-ounce plastic package and have a May 2, 2018, expiration date on the side. The UPC is 11110-02478. Kroger said it has removed the macadamia nuts from its shelves. If you bought one of these packages, throw them away or take them back to the store for a refund or a replacement. Anyone with further questions can call 1-800-KROGERS.

QUARTERLY ISSUES / PROGRAMS LISTS

Here follows a listing of some of the most significant issues responded to by DESPIERTA AMERICA, along with the most significant programming treatment of those issues for the period (06/2017). The listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

DESCRIPTION OF ISSUE	PROGRAM/ SEGMENT	DATE	TIME	DURATION	NARRATION OF TYPE AND DESCRIPTION OF PROGRAM/SEGMENT
TRUMP VISAS	DESPIERTA AMERICA	06/01/2017	0:30	8:00am	It would be more difficult to obtain a Visa to travel to the United States under the government of Donald Trump. The administration presented a new questionnaire that should be responding to applicants from every part of the world. Includes biographical information on the last 15 years and social network profiles of the last five. In addition, consular officers may request previous passports, post, phone numbers, travel history and employment.
IMMIGRATION CRACKDOWN ECONOMY	DESPIERTA AMERICA	06/01/2017	0:30	9:00am	The migratory politics of the president Trump branch economic growth, according to experts. Millions of undocumented workers prefer to stay at home in place of going to shopping centers, for fear to deportation. Such decision will increase savings, but it would reduce the cost of expenses. The consumption of the middle class, including migrants, represents around 70-percent of the american economy.
CLIMATE CHANGE	DESPIERTA AMERICA	06/02/2017	7:00am	2:30	President Donald Trump's decision to pull out of the landmark Paris climate accord sends an unmistakable message to the world: America First can mean America Alone. Trump's move, announced with great fanfare in the White House Rose Garden on Thursday, immediately leaves the United States isolated on a paramount global concern. It demonstrates the U.S. is willing to back away from a coalition it assembled just 18 months ago. Nearly 200 countries joined the landmark deal forged under Trump's predecessor. Now the U.S. stands with only Syria and Nicaragua as countries on the sidelines. Nicaragua balked because it found the deal's standards insufficient. It's a bitter blow to stalwart European partners who launched an aggressive campaign to convince Trump that American leadership is central to combating climate change. Even a direct appeal from the Vatican wasn't enough to persuade the president.

TEXAS SANCTUARY LAWSUIT	DESPIERTA AMERICA	06/02/2017	7:00am	0:24	San Antonio is joining a lawsuit against the state of Texas over its so-called "sanctuary city bill". Senate bill-four will penalize local governments that prevent police from asking people about their immigration status. No public discussion, no public comment. The decisions all made behind closed doors. The city of San Antonio is standing with the Mexican American Legal Defense and Education Fund in filing a lawsuit against the state of Texas and senate bill 4. Several organizations also standing behind the city and MALDEF, the Texas organizing project says it will "applaud the san antonio city council members who voted to stand up to governor abbott." Those in favor of the suit are asking other large cities in Texas to join in the fight.
CALIFORNIA AB450 PASSES ASSEMBLY	DESPIERTA AMERICA	06/02/2017	8:00am	1:00	The California Assembly on Wednesday passed and sent to the Senate a bill prohibiting employers from letting immigration agents enter worksites or view employee files without a warrant or subpoena. Assemblyman David Chiu says his bill, AB450, aims to prevent workplace raids and make sure President Donald Trump follows the law in his efforts to deport millions of immigrants living in the country without authorization. "This bill is about ensuring that if Donald Trump wants to send 10,000 ICE agents into our workplaces, that he do it legally, the San Francisco Democrat said, referencing Trump's plans to hire more Immigration and Customs Enforcement agents to crack down on illegal immigration. "We need to stand up for our immigrant families, we need to stand up for our immigrant workers.
UNEMPLOYMENT RATES MAY	DESPIERTA AMERICA	06/02/2017	9:00am	0:18	U.S. employers pulled back on hiring in May by adding only 138,000 jobs. Hiring was still enough to help keep pushing unemployment lower. The Labor Department says the unemployment rate fell to 4.3 percent from 4.4 percent. Hiring in the months of April and March were revised downward by a combined 66,000. Job gains have averaged 121,000 over the past three months, a deceleration from an average of 181,000 over the past 12 months. Average hourly earnings have risen a middling 2.5 percent over the past year. Restaurants and healthcare firms posted solid job gains. Food services added 30,300 workers, while health care contributed 24,300 jobs. Construction added 11,000 jobs. But manufacturers, retailers and governments shed workers last month.
HARLEY-DAVIDSON RECALLS	DESPIERTA AMERICA	06/05/2017	9:00am	0:30	Harley-Davidson is recalling about 57,000 motorcycles worldwide because an oil line can come loose, spewing oil into the path of the rear tire. The recall covers certain 2017 Electra Glide Ultra Classic, Police Electra Glide, Police Road King, Road King, Road King Special, Street Glide, Street Glide Special, Road Glide and Road Glide Special motorcycles built from July 2 through May 9.

					Milwaukee-based Harley said a clamp on an engine oil cooler line may not have been installed correctly. The company said it has nine reports of oil lines coming off. The problem caused two crashes and one minor injury. Dealers will inspect the clamps and fix them free of charge. The recall is expected to start Tuesday.
ARIZONA DRIVER LICENSE "DREAMERS"	DESPIERTA AMERICA	06/05/2017	9:30am	0:30	Advocates for "Dreamers" are urging the nation's high court to reject Arizona's last-ditch bid to take away their licenses to drive. In new legal briefs filed with the U.S. Supreme Court, attorneys for various groups are asking the justices to leave undisturbed an appellate court ruling that concluded the state acted illegally in refusing to issue licenses to those accepted into the Deferred Action for Childhood Arrivals program. The 9th Circuit Court of Appeals said DACA recipients are in this country legally. The judges said Arizona has no right to unilaterally decide the issue of legal presence for itself.
"SILENT RAIDS"	DESPIERTA AMERICA	06/06/2017	7:00am	0:25	Nearly a million undocumented people, in search of the "silent raids". Nearly one million undocumented immigrants with deportation orders face the fear of being deported after a routine appointment at the Immigration and Customs Enforcement (ICE) offices in one of the so-called "silent raids". Amid rising arrests of undocumented immigrants under the administration of President Donald Trump immigrants who must meet those appointments become the easiest target to deport. According to an ICE spokeswoman in Southern California, on May 29 there were 968,238 foreigners in the entire country who were not detained with a final deportation order. Of these, 946,122 have active cases with ICE, 177,479 have criminal convictions and 783,829 have no criminal history. This latest figure includes immigrants who request a deportation suspension from ICE agents.
TAX CREDITS	DESPIERTA AMERICA	06/06/2017	8:00am	0:23	Thousands of undocumented workers could lose their tax credits if President Donald Trump's budget plan is approved. Analysts say its proposal has a strong probability of being passed in Congress. President Trump proposes that anyone claiming the EITC or the Child Tax Credit (CTC), when filing their taxes, must have two unique requirements: to have a social security number and Be legally authorized to work in the US. This measure is designed to prevent thousands of undocumented immigrants from receiving these benefits each year. These tax credits are called "reimbursable" because people who do not earn enough to pay taxes can still get these repayments. By 2017, low-income undocumented immigrants could receive as much as \$ 6,318 for the EITC and up to \$ 1,000 for each child qualified for the CTC.

IPHONE TO BLOCK TEXTS DRIVING	DESPIERTA AMERICA	06/06/2017	9:30am	0:24	<p>Soon, Apple will introduce a new iPhone feature that will do away with that annoying and dangerous urge to look at a text message while you're driving. The feature, called "Do Not Disturb While Driving," will be part of Apple's iOS 11, a new version of the operating software for Apple mobile devices. Whenever the phone is connected to a car using either Bluetooth or a cable, or if the car is moving, the phone will withhold any notifications for things like text messages or news updates. If someone does text you while you're driving, the phone can respond with an automatic message telling them you're driving and can't respond just now. The iPhone screen will also be locked to prevent drivers from using many of their apps while driving. Passengers who are just riding, and not driving, will have the ability to disable the feature.</p>
IMMIGRANTS DEPORTATION	DESPIERTA AMERICA	06/07/2017	7:00am	0:30	<p>Lawyers warn that the Trump government is reopening deportation cases that were suspended. They warn that those immigrants who are released after their cases have been closed by immigration courts must be prepared to face their expulsion from the US.</p>
IMMIGRANTS FOOD STAMPS	DESPIERTA AMERICA	06/07/2017	7:00am	0:30	<p>A crackdown on illegal immigration under President Donald Trump has driven some poor people to take a drastic step: opt out of federal food assistance because they are fearful of deportation, activists and immigrants say. People who are not legal residents of the U.S. are not eligible to take part in what is formally known as the Supplemental Nutrition Assistance Program. But many poor families include a mix of non-legal residents and legal ones, such as children who have citizenship because they were born in the U.S. In those cases, it is often an adult who is not a legal resident who submits the application. Some now feel that is too dangerous under a president who has made immigration enforcement a priority. Throughout the U.S., there are accounts of people resisting efforts of nonprofit organizations to sign them up for food stamps, letting benefits lapse or withdrawing from the program because of the perceived risk.</p>
US VISA FRAUDES	DESPIERTA AMERICA	06/07/2017	8:00am	0:30	<p>The Labor Department today announced a campaign to combat "more aggressively" possible fraud cases in visa programs for foreign workers, by strengthening civilian investigations and threat of criminal penalties. The announcement follows a decree issued last April by President Donald Trump instructing his government agencies to punish possible visa fraud, especially H-1B, which allows foreign nationals to be hired temporarily Of high qualification. This is in addition to the efforts of the Department of Homeland Security and the Department of Justice, which last April announced a</p>

					tightening of the investigations at every step before the Office of Citizenship and Immigration Services (USCIS).
STUDY ALCOHOL	DESPIERTA AMERICA	06/07/2017	9:00am	0:30	Alcohol consumption, even at moderate levels, is associated with an increased risk of brain damage and cognitive impairment, according to a study published Tuesday in the medical journal The BMJ. Their authors, a group of British researchers from the universities of Oxford and College London, add that the work supports the recent reduction of the orientation of alcohol in the United Kingdom and questions the current limits recommended in the United States. Many studies have analyzed the harmful effects to the brain of an excessive intake of alcohol, but very few have done about moderate consumption, the authors said.
BREAST CANCER PREGNANCY	DESPIERTA AMERICA	06/07/2017	9:00am	0:30	A study gives reassuring news for breast cancer survivors who want to have children. Those who later became pregnant were no more likely to have their cancer come back than those who did not have a baby. This was true even if their cancers were the type fueled by hormones, which soar during pregnancy and theoretically might spur a recurrence. It's a big issue - the average age of moms has been rising and more women are being diagnosed with breast cancer in their childbearing years. About 11 percent of new breast cancer cases in the U.S. are in women under 45. The study involved more than 1,200 women in Europe. Results were discussed at an American Society of Clinical Oncology conference that ended Tuesday in Chicago.

ICE RAIDS	DESPIERTA AMERICA	06/09/2017	7:00am	0:30	ICE retakes "raids" and stops 70 in two states. "La Migra" ensures that it continues to focus on criminals. Immigration and Customs Enforcement (ICE) agents resumed the "raids" and in three days detained 70 people in Dallas and Oklahoma. In recent weeks, "La Migra" had been reporting the detention of some immigrants, mainly criminals, but this time its operation resulted in a greater number of people, of which 64 are men and six women.

VISA SCAM	DESPIERTA AMERICA	06/09/2017	10:00am	0:30	The city's Department of Consumer Affairs is warning immigrants that scammers are trying to exploit their attempts to get legal status by falsely telling them they can get a visa after living in the United States for 10 years. The DCA sent out a warning to look out for the scam, known as the 10-Year Visa Scam, in which unscrupulous immigration service providers and attorneys advertise an "easy" opportunity for immigrants to obtain legal status. Despite being advertised as a simple fix, the DCA warns that getting a green card based on residency requires someone to both enter deportation proceedings and prove their family would undergo "extreme, unusual, and exceptional hardship" if the person was deported. According to DCA, at least one immigrant spent \$25,000 in pursuit of this "easy" visa, paying tremendous amounts of money for a false path to legal status that puts them in jeopardy.

TRAVEL BAN	DESPIERTA AMERICA	06/13/2017	7:00am	0:34	Hawaii's Attorney General Doug Chin says a ruling that upholds the blocking of President Donald Trump's travel ban shows why the country has three branches of government. Chin says the 9th U.S. Circuit Court of Appeals ruling Monday is everything high school students learn in social studies coming into play the way it should. The three-judge panel of the court upheld a lower court decision and said Trump violated U.S. immigration law with the ban. Chin says this ruling, along with previous ones blocking a travel ban, shows there are checks and balances to keep the president from doing whatever he wants. Chin says he expects Hawaii's lawsuit challenging the travel ban to go to the U.S. Supreme Court along with a similar ruling by another appeals court. U.S. Attorney General Jeff Sessions says the ban is necessary to protect national security.
SUPREME COURT	DESPIERTA AMERICA	06/13/2017	7:00am	0:33	By a unanimous decision, the nation's Supreme Court repealed part of an immigration law that treats parents differently in relation to granting citizenship to children born outside the United States. Judge Ruth Bader Ginsburg called the 1940s era law "surprisingly anachronistic" because of how it stereotypes men and women. Her opinion points to several cases of discrimination in which she argued successfully before the country's highest court on the principle that having a rule for mothers and another for parents is unconstitutional. But in an unplanned turn, the court's determination did not help Luis Ramon Morales Santana, a New York resident who successfully

					challenged the law.
USCIS AND DACA	DESPIERTA AMERICA	06/13/2017	9:00am	0:22	Despite the rhetoric of Donald Trump himself and some members of his cabinet, as well as the pressure of extreme anti-immigrant groups, the US government continued to approve as many DACA cases in the first quarter of this year as it had been doing previously. The first figures from the Trump government regarding approval of renewals and new cases of Deferred Action for Child Arrivals, better known as DACA, reflect that there is not much that has changed in the practice of the Immigration and Citizenship Agency ). During the first quarter of this calendar year, between January and March 2017, USCIS approved 124,799 cases, of which 17,275 were new cases that had never before been DACA and the rest (107,524) were Benefit ratio previously
STUDY PREMATURE BABIES	DESPIERTA AMERICA	06/13/2017	9:00am	0:27	Researchers say a new study should help ease the minds parents of premature babies when it comes to how well their children will perform in school. The report, published in JAMA Pediatrics, finds that babies born early often catch up to their peers academically. About 10 percent of babies in the U.S. are born prematurely - before 37 weeks of pregnancy, according to the Centers for Disease Control and Prevention. The study found that two-thirds of babies born at only 23 or 24 weeks were ready for kindergarten on time. The researchers were surprised to see that nearly 2 percent of these extreme preemies even achieved gifted status in school.

TRUMP IMMIGRATION	DESPIERTA AMERICA	06/15/2017			Trump 'stops' the clock to ensure that the Supreme Court hears the defense of his immigration veto. Two federal judges stopped the entry into force of the veto that affected immigrants from six countries as discriminatory, now the Government is directed to the highest court to render ineffective the blockade of the executive order issued in March, which would expire this week

TRUMP DAPA	DESPIERTA AMERICA	06/16/2017	7:00am 8:00am 8:30am	9:00	The Trump government formally revoked the program created by its predecessor on Thursday to protect immigrants who were parents of US citizens or legal residents from deportation. The program, known as DAPA, was announced by the Obama administration in 2014 but was blocked by a Texas federal judge after 26 states challenged its legality in federal court. On Thursday night, Homeland Security Secretary John Kelly formally revoked the memo that created the program, which was similar to another that protects illegal immigrant youth from deportation.
TRUMP CUBA	DESPIERTA AMERICA	06/16/2017	7:00am	5:00	The White House says President Donald Trump plans to announce a revised Cuba policy that's aimed at stopping the flow of U.S. cash to the country's military and security services. The policy will maintain diplomatic relations and allow U.S. airlines and cruise ships to continue servicing the island. Trump was making the announcement Friday at a Miami theater associated with Cuban exiles who oppose the island's leadership. The president is expected to cast the policy moves as fulfillment of a promise he made during last year's presidential campaign to reverse then-President Barack Obama's diplomatic re-engagement with the island after decades of estrangement. Senior White House officials who briefed reporters on the announcement say Obama's overtures had enriched Cuba's military while repression increased on the island.
OVERWEIGHT PREGNANT MOTHERS	DESPIERTA AMERICA	06/16/2017	10:00am	0:30	The risk of babies being born with major birth defects increases, the more overweight or obese a mother is, according to a Swedish study. The authors of the research say their findings "underline the importance of having a maternal BMI in the normal range before pregnancy" and that efforts should be made to encourage women of reproductive age to adopt a healthy lifestyle and obtain a normal body weight before conception. The team analyzed medical birth records made between 2001 and 2014 for more than 1.2 million births in Sweden. The records contained information on pregnancy characteristics, along with any cases of major congenital malformation and a number of organ-specific malformations that were diagnosed during infants' first year of life.
EVACUATIONS ORDERED IN CALIFORNIA BECAUSE OF FIRE	DESPIERTA AMERICA	06/19/2017	7:08	0:24	ordered in Big BearA brush fire in Big Bear, California, on Monday afternoon prompted voluntary evacuation orders for those in the area. The wildfire, dubbed the "Holcomb fire," was first reported as "growing rapidly" in the San Bernardino National Forest. The fire was approximately 850 acres by 9:00 p.m. EDT.

<p>Cindy may spawn more tornadoes, severe weather from Louisiana to Florida</p>	<p>DESPIERTA AMERICA</p>	<p>06/20/2017</p>	<p>8:01</p>	<p>0:24</p>	<p>Even though Cindy is inland and weakening, the risk of flooding and severe thunderstorms will continue along the central Gulf Coast and part of the interior South. Cindy made landfall in Cameron Parish, Louisiana, between 2 a.m. and 4 a.m. CDT Thursday with maximum sustained winds between 40 and 45 miles per hour. Cindy was downgraded to a tropical depression as of mid-morning Thursday.</p>
<p>Heavy Rains And Flooding As Tropical Storm Cindy Makes Landfall</p>	<p>DESPIERTA AMERICA</p>	<p>06/21/2017</p>	<p>9:06am</p>	<p>1:30 pkg</p>	<p>Some coastal areas in Texas and Louisiana are under a tropical storm warning and forecasters are warning of potential heavy flooding as Tropical Storm Cindy moved inland from the Gulf of Mexico Thursday morning. Severe weather and flooding have already been reported over the past two days along the Gulf Coast. The storm made landfall early Thursday morning near the Texas/Louisiana border, according to the National Hurricane Center</p> <p>The center predicts the storm will diminish to a tropical depression later Thursday as it heads north through Louisiana and then moves northeast through parts of several states including Arkansas, Mississippi, Alabama, Tennessee and Kentucky.</p>
<p>Extreme Heat in Southwest Creates Public Health Hazard</p>	<p>DESPIERTA AMERICA</p>	<p>06/22/2017</p>	<p>7:06</p>	<p>0:22</p>	<p>The southwestern U.S. is about to feel the wrath of a punishing heat wave that includes a forecast of 120 degrees in Phoenix — a temperature not seen in the desert city in more than 20 years. The broiling temperatures will also be felt in Las Vegas and Southern California, creating a public health hazard. Rising temps are being closely watched by everyone from airline pilots and emergency room doctors to power grid managers and mountain cities unaccustomed to heat waves.</p>
<p>How the Health Care Bill Could Impact Consumers</p>	<p>DESPIERTA AMERICA</p>	<p>06/23/2017</p>	<p>7:06</p>	<p>2:13 pkg</p>	<p>Republicans in full control of government are on the brink of history-making changes to the nation's health care system. The impact for consumers would go well beyond "Obamacare."</p> <p>Former President Barack Obama's signature law is usually associated with subsidized insurance markets like HealthCare.gov. But the Affordable Care Act also expanded Medicaid. Not only would the GOP legislation scale back coverage through the insurance markets and phase out the Medicaid expansion, it would also make fundamental changes to the broader Medicaid program. The federal-state program covers low-income people, from newborns to elderly nursing home residents, from special-needs kids to</p>

					<p>young adults caught in the opioid epidemic.</p>
SB-4 COURT HEARING	DESPIERTA AMERICA	06/26/2017	7:09	0:23	<p>It was a festival like environment in front of San Antonio's federal courthouse.</p> <p>Those opposed to SB4 which is the state ban on sanctuary city policies came Monday vowing to fight the law regardless of what was said inside the courtroom.</p> <p>The law prevents communities from enacting ordinances that ignore federal immigration law. It also prevents police officers from being punished by their departments for asking people about their immigration status during routine traffic stops.</p>

Lacking votes, Senate GOP delay health care vote	DESPIERTA AMERICA	06/28/2017	7:09	0:32	<p>In a bruising setback, Senate Republican leaders shelved a vote on their prized health care bill Tuesday until at least next month, forced to retreat by a GOP rebellion that left them lacking enough votes to even begin debate.</p> <p>The bill, which would roll back much of President Barack Obama's health care law, has been one of the party's top priorities for years, and the delay is a major embarrassment to Trump and McConnell. At least five GOP senators — conservatives and moderates — have said they would vote against even beginning debate, and the bill would be derailed if just three of the 52 Republican senators voted against it.</p>
Firefighters slow Arizona wildfire, allowing some residents to return	DESPIERTA AMERICA	06/29/2017	8:04	0:23	<p>Firefighters gained ground against a fierce, five-day-old wildfire in central Arizona on Thursday, enabling authorities to lift evacuation orders for the largest town that had been threatened, but 2,000 people remain displaced in neighboring communities. The blaze, dubbed the Goodwin Fire, has charred nearly 25,000 acres (10,120 hectares) and destroyed an unknown number of homes since erupting on Saturday in the Prescott National Forest, 70 miles (113 km) north of Phoenix.</p>

STATE OFFICIALS MAKE LEGAL THREAT AGAINST DACA	DESPIERTA AMERICA	06/30/2017	7:00	1:47 pkg	Texas Attorney General Ken Paxton and nine other state Republican attorneys general sent a letter Thursday threatening to sue if the Trump administration does not "phase out" the Deferred Action for Childhood Arrivals program, under which more than 700,000 undocumented immigrants who were brought to the U.S. as children, many of them now college students, have obtained two-year, renewable work permits and protection against deportation.
