**VIEW POINTS:** SEGMENT 1: Everyone loves Memorial Day – it’s time off of work, a day for picnics, barbecues and relaxation. Often, though, the fun and celebration of the first holiday of summer obscures the real meaning of the day – to remember the brave military men and women who gave their lives for their country. We talk to two former Navy Seals about how they created a march that helps them, the families of fallen soldiers and others to honor those who served and raise money for non-profits that help vets, their families and first responders around the country. Host: Gary Price. Guests: Clint Bruce & Stephen Holley, U.S. Naval Academy graduates, former Navy Seals, cofounders of “Carry the Load.” Compliance Issues Covered: military & veterans, community action, philanthropy, war

6/5/16 6:30AM 00:24:30

**WHIO REPORTS:** This edition of WHIO Reports focused on the expansion of the National Museum of the U.S. Air Force. Curators discussed the addition and grand opening. Guests: Jeff Duford, Museum Curator; Christina Douglass, Museum Curator NATIONAL MUSEUM OF THE U.S. AIR FORCE 1100 Spaatz St, Dayton, OH 45431 (937) 255-3286 website: [www.nationalmuseum.af.mil/](http://www.nationalmuseum.af.mil/)

6/19/16 5:00AM 00:11:05

**VIEW POINTS:** SEGMENT 1: There are millions of people incarcerated in American prisons – many of them juveniles sentenced to long terms alongside adults. Should children be tried as adults and sent to adult prisons? Are they mature enough to understand the consequences of their actions? Or should they be treated differently than adults who commit serious offenses? Our guests discuss why we have so many people incarcerated and how juveniles – even those who commit murder – should be given another chance. Host: Gary Price. Guests: Peter K. Enns, Associate Professor, Dept. of Government at Cornell University, Executive Director of the Roper Center for Public Opinion Research, and author of the book, Incarceration Nation: How the United States became the most punitive democracy in the world; Jean Trounstein, Professor at Middlesex Community College in Lowell, Massachusetts, and author of the book, Boy With a Knife: A story of murder, remorse and a prisoner’s fight for justice. Compliance Issues Covered: the justice system, prisons, children, crime

6/19/16 5:00AM 00:11:05

**VIEW POINTS:** SEGMENT 2: Many school-aged children in the U.S. end up in juvenile detention or expelled from school for offenses ranging from arriving late to breaking the dress code to fighting in the hallway. Once “pushed out” from school, these children are often headed down the road to a life of poverty and more serious crimes. A good portion of these kids are African-American girls who, our guest says, are unfairly targeted for discipline because of a misunderstanding of their behavior. We discuss this phenomenon and also talk to a professor who has studied the effect that extremely strict school rules have on the students and the teachers who are made to enforce them. Host: Marty Peterson. Guests: Dr. Monique Morris, President and Co-founder of the National Black Women’s Justice Institute and author of the book, Pushout: The criminalization of Black girls in schools; Meira Levinson, Professor of Education at the Harvard Graduate School of

**VIEW POINTS:** SEGMENT 2: Learning to survive in uncertain times and learning how to treat everyone in our community with respect and equality are lessons we can all benefit from. However, we don't usually think that primitive peoples are the best teachers of these lessons. Our guest would take exception to that. As a young woman, she lived with the old Bushmen of southwestern Africa and discusses how she learned a lot about how to raise children, find food and water, and about how community cooperation and equality of the sexes enabled these people to survive and thrive in a formidable environment. Host: Marty Peterson. Guests: Elizabeth Marshall Thomas, author of the book, Dreaming of Lions: My life in the wild places. This is creating new business opportunities for growers, processors, sellers and other entrepreneurs who want to get in on the action. It’s become a multi-billion dollar business and now investors, corporations and Wall Street are looking at how they can gain from the new “cannabusiness” models on the horizon. We talk to a journalist who is researching and watching the economic, regulatory and legal aspects of legalized marijuana to find out just how extensive the industry is now, and how it could grow in the future. She tells us why it’s so important to have the “money talk” with your significant others and even your boss in order to make sure that there are no conflicts during a marriage, in employment and unemployment, in eldercare situations and before a parent or loved-one dies. Host: Marty Peterson. Guest: Lori Sackler, Sr. Vice President at Morgan Stanley Wealth Management, author of the books The M Word: The money talk every family needs to have about wealth and their financial future, and, The M Word Journal: How to have the money talk.
