even door to door solicitors attempting to get donations. Electronic correspondence is also a great way for scammers to target people now. Caution should be taken with inquiries that want a donation immediately as scammers often want money quickly to move on to the next victim. Find an organization that is trusted and well-known. **WHIO REPORTS:** This edition of WHIO Reports focused on the winter season and preparations for inclement weather conditions. Between 24 and 48 hours, guests suggest people begin to get ready for a major weather event. The Red Cross and Montgomery County Emergency Management Agency rely on the news and the National Weather Service to receive important information on conditions and begin to get the word out and prepare for response. Social media enhances the immediacy of information distribution and creates more avenues to reach people. Recommendations are to have food, clothing and first aid materials ready for at least 3 days of use and stay informed. The biggest concern is power outages. Guests encouraged viewers to make sure to pay attention to children, the elderly and pets during these periods of inclement weather. Although weather alerts of watches and warnings may seem a bit of overkill, people need to take them seriously as it only takes one time to not heed to endanger your life or property. Guests: Heather Thomas, Disaster Program Manager at the Dayton Red Cross; Rich Wirdzek, WHIO-TV Meteorologist; Jeff Jordan, Director of Montgomery County Emergency Management. GREATER DAYTON RED CROSS 370 West 1st Street Dayton, OH 45402 937-222-6711 website: [www.redcross.org/oh/dayton](http://www.redcross.org/oh/dayton) MONTGOMERY COUNTY EMERGENCY MANAGEMENT 117 South Main St, Suite 721 Dayton, OH 45422 937-224-8934 website: [www.mcoho.org/services/emergencymgt/](http://www.mcoho.org/services/emergencymgt/)

CULTURE ISSUES:

10/13/13 5:00AM 00:11:37

**VIEW POINTS:** SEGMENT 2: News magazines were big business during WWII until their demise in the 1970s, and the photographers who took the award-winning and poignant pictures for those magazines were the rock stars of their profession. We talk to a man whose father, John Launois, was one of the biggest, most successful American photojournalists of his time. We'll hear why and how the Frenchman came to the US, learned his trade, developed a love for America, and hear stories of his amazing career taking the pictures that defined history and the culture of the 60s and 70s. Host: Marty Peterson. Guests: Chris Pan Launois, son of the late John Launois, author of "L'Americain: A memoir," ([www.theamericanbook.com](http://www.theamericanbook.com)). **COMPLIANCY ISSUES COVERED:** African-American history, war, popular culture, journalism, media

10/20/13 5:00AM 00:9:47

**VIEW POINTS:** SEGMENT 1: Photographs of the mid-19<sup>th</sup> century are fairly rare – and they're getting harder to find every year. That's because many of them between the 1840s and 1860s used the daguerreotype process. That's where images were taken and preserved not on photo paper, but on thin metal plates. These pictures are subject to corrosion, and those that remain in private and public collections are

in danger of being irreparably harmed or destroyed altogether. We talk to two scientists who are studying the problem at the nano level with state-of-the-art technology to find out how they corrode, and how they, and our heritage, might be preserved, and learn more about how corrosion develops in other materials we use on bridges, buildings and objects. Host: Christopher Michael. Guests: Edward Vicenzi, Research scientist at the Smithsonian Institution’s Museum Conservation Institute ([www.si.edu/mci](http://www.si.edu/mci)); Volker Rose, Physicist with the Advanced Photon Source and Center for Nanoscale Materials, Argonne National Laboratory, ([www.anl.gov](http://www.anl.gov)). **COMPLIANCY ISSUES COVERED:** science & technology, media, museums & culture, infrastructure

10/27/13 5:00AM 00:11:49

**VIEW POINTS:** SEGMENT 1: Halloween is here, and millions of Americans will be seeking out horror films and wearing monster costumes hoping to scare family and friends – and themselves. But why? What does a good fright do for us? We talk to three specialists in thrills and chills about the issue, how children process fright and get some suggestions on films and books appropriate for the holiday. Host: Christopher Michael. Guests: Dr. Frank Farley, psychologist, Professor at Temple Univ., Philadelphia ([www.temple.edu](http://www.temple.edu)); Catherine Zimmer, Assistant Prof. in the program of Film & Screen Studies, Dept. of English, Pace Univ., NY ([www.pace.edu](http://www.pace.edu)); Allen Grove, Prof. of English, Alfred Univ., NY ([www.alfred.edu](http://www.alfred.edu)). **COMPLIANCY ISSUES COVERED:** mental health; children & family issues; arts & recreation; media.

11/24/13 5:00AM 00:09:53

**VIEW POINTS:** SEGMENT 2: When it comes to popular literature, novels seem to get all the attention. The mysteries, love stories, suspense and historical family sagas sell millions of books and make some of their author’s household names. Why is it that short stories don’t enjoy some of that fame? We talk to a professor of English and also to a short story author about why these stories aren’t top of mind with the public, what short stories bring to literature that longer writing doesn’t, and we’ll hear some advice for first-time authors on getting started writing short stories. Host: Marty Peterson. Guests: Diane Glancy, Visiting Professor, Azusa Pacific University, Los Angeles County, CA ([www.apu.edu](http://www.apu.edu)); Lani Hall Alpert, musician, lyricist, author of “Emotional Memoirs & Short Stories,” ([lanihall.com](http://lanihall.com)). **COMPLIANCY ISSUES COVERED:** arts, literature, education, commerce

12/08/13 5:00AM 00:10:36

**VIEW POINTS:** SEGMENT 1: For many Americans, the history courses they took in school left them either bored or frustrated. All of those names, dates, and locations that had to be memorized made what should have been an exciting subject dry and uninteresting. We talk to filmmaker Ken Burns about a new venture he is undertaking with actor Tom Hanks and Audible.com that aims to bring history to life, by having talented actors create audio books from American literary masterpieces that present our history through personal stories of war, the settling of the west, slavery and The Great Depression. Host: Gary Price. Guests: Ken Burns, filmmaker and documentarian, ([www.audible.com](http://www.audible.com)). **COMPLIANCY ISSUES COVERED:** education, war, literature, the arts, technology, philanthropy

12/29/13 5:00AM 00:13:03

**VIEW POINTS:** SEGMENT 2: The hit PBS series, “Downton Abbey” is premiering soon in the U.S., and all of the intrigue, loves, heartbreak and wealth will be on display for the millions of devotees of the show. But what is shown in the series a true depiction of what *really* went on in the homes of aristocratic families during the early part of the 20<sup>th</sup> century? We talk to an author – and present resident of the “Downton Abbey” castle – about the actual Earls and Countesses who lived, loved and lost back then. Host: Marty Peterson. Guests: Lady Fiona

**VIEW POINTS: SEGMENT 1:** Advertising is everywhere, and we’re all susceptible to it – whether it’s the sexy women selling beer during football game commercials; the cute duck that has your insurance needs in mind, or the super-sophisticated couple who emerge from the luxury car dressed in their designer outfits. Why do we fall for these ads? Is it just the images? Or is there more to it? We talk to a graphic artist and a veteran advertising professional about the visual and psychological aspects of marketing and advertising. Host: Christopher Michael. Guests: Chip Kidd, graphic designer and author of “A Kidd’s Guide to Graphic Design,” ([www.chipkidd.com](http://www.chipkidd.com)); Chris Malone, Managing Partner, Fidelum Partners, co-author of “The Human Brand: How we relate to people, products and companies,” ([www.thehumanbrand.com](http://www.thehumanbrand.com)). **COMPLIANCY ISSUES COVERED:** consumerism, business, arts

**WHIO REPORTS:** This edition of WHIO Reports focused on the Austin Landing Development and the economic impact on the area particularly the Dayton Mall. Two newly appointed Miami Township trustees discussed their interest in focusing on the development of new technology and fiscal responsibility in the township. The Austin Landing development is very important to the future as the first phase is nearing completion. It was originally intended to be a business park with few retail businesses but that was changed over time due to possible taxation issues and community demand. Austin Boulevard has space beyond Austin Landing to continue to develop the area travelling up 741 to the Dayton Mall area. It is a very exciting prospect and will be a profitable addition to the Miami Valley. There is some concern regarding the coexistence of Austin Landing and the Dayton Mall particularly retail but a relationship between the two can establish success for both. Guests: Andrew Papanek, Miami Township Trustee-Elect; Robert Matthews, Miami Township Trustee-Elect; Larry Budd, DDN Reporter. MIAMI TOWNSHIP 2700 Lyons Rd. **VIEW POINTS:** SEGMENT 1: When your cable TV goes out or you need an adjustment on your credit card bill, sometimes the call to customer service is worse than the original problem. Why is this? Why can't businesses get better at dealing with their customers' requests? We talk to two customer service pros about why the problem is so widespread, what a company and a consumer can do to make service faster and more pleasant, and the cultural differences that arise when customer service is outsourced abroad. Host: Christopher Michael. Guests: Ron Kaufman, founder and chairman of Up! Your Service, author of the NY Times bestseller, "Uplifting Service: The proven path to delighting your customers, colleagues and everyone else you meet," ([www.upliftingservice.com](http://www.upliftingservice.com)); John Ragsdale, VP of Technology for the Technology Services Industry Association, author of "Lessons Unlearned: 25 years in customer service," ([www.tsia.com](http://www.tsia.com)). **COMPLIANCY ISSUES COVERED:** business, consumerism, international business, employment

12/15/13 5:00AM 00:09:12

**VIEW POINTS:** SEGMENT 2: There is such a temptation to be generous to others – and ourselves – during the holidays that many Americans end up in credit card trouble when the bills start rolling in. We talk to an accountant who was once in heavy debt from her cards about how she got there, how to spot the red flags of credit card overuse, and strategies for getting out of debt and learning how to use credit wisely. Host: Marty Peterson. Guest: Beverly Harzog, Certified Public Accountant, consumer advocate, lecturer and author of the book, "Confessions of a Credit Card Junkie," ([www.beverlyharzog.com](http://www.beverlyharzog.com)). **COMPLIANCY ISSUES COVERED:** personal finance, consumerism, business

12/15/13 6:30AM 00:24:30

**WHIO REPORTS:** This edition of WHIO Reports focused on the development opportunities around the Great Miami River. The University of Dayton and the River's Institute over the years have created initiatives that created the common vision of community leaders and possibilities for recreation, industry, and technology. Outdoor recreation is a billion dollar industry so the region wants to tap into this by creating marinas, amphitheaters, levees, etc. among the many cities/areas committed such as Miamisburg, Troy and Dayton. Municipalities are seeing budget restrictions on potential developments which are forcing leaders to be more creative. Improving the river corridor has solid financial benefits industrially as well as setting the region up as a destination. Guests: Stan Kelley, Project Manager for the city of Troy and President of the Ohio's Great Corridor Association; Dan Foley, Montgomery County Commissioner; Katie Frank, Downtown Development Coordinator, Miamisburg; Larry Budd, Reporter, DDN. Still, many people are having trouble paying their mortgage for the expensive homes they bought during the boom. We talk to two finance specialists about mortgage modification plans and other options, and why it's important for families – and lenders – to have homes occupied rather than abandoned. Host: Marty Peterson. Guests: John Gallo, lecturer in finance, University of Iowa, Iowa City, IA ([www.hopenow.com](http://www.hopenow.com); [www.uiowa.edu](http://www.uiowa.edu)); Mick Barron, CEO & Pres., of How To Modify.com ([www.howtomodify.com](http://www.howtomodify.com)). **COMPLIANCY ISSUES COVERED:** housing, finance, family issues, taxes

**WHIO REPORTS:** This edition of WHIO Reports focused on home foreclosures and the status on the rebound from the recession. The borrowing of loans by interested homeowners and subsequent fraud by banks played into the foreclosure issue. The guests advised that if you are under the threat of foreclosure, do not vacate as the process can take a while. Those under the threat should reach out to organizations such as the HomeOwnership Center for assistance. We have 55,000 less than jobs in the area than 5 years ago so shame that some feel should not be a deterrent. While we are rebounding from the recession in the area, we are not yet in the clear. **WHIO REPORTS:** This edition of WHIO Reports focused on the Affordable Care Act also known as Obamacare. Guests discussed the main purpose of the legislation and what it means for families in the Miami Valley. Lower cost and better quality outcomes for those without insurance are goals of the Affordable Care Act. It also aims to incentivize those in the healthcare industry who now only make money if people are sick. Access, quality, insurance companies, doctors, and hospitals will all be affected. People covered by their employer’s coverage can be affected by decisions made by companies on coverage due to the act. Those who want to retain good employees should try to make decisions that are in their best interest. Chronic diseases have skyrocketed.
