VIEW POINTS: SEGMENT 2: The President of the United States has a lot of powers that we think are given to him by the U.S. Constitution. You might be surprised to find out, however, that very little in that document actually outlines the job or the authority the Commander-in-Chief possesses. We talk to a historian about how executive powers and privilege for the President were created not by Congress but by the first man to hold the nation’s highest office. Host: Marty Peterson. Guests: Harlow Giles Unger, historian and author of the book, “Mr. President: George Washington and the making of the nation’s highest office,” **COMPLIANCY ISSUES COVERED:** government, history, the Presidency, laws & the Constitution

2/16/14 5:30AM 00:12:12

WHIO REPORTS: This edition of WHIO Reports focused on the Montgomery County Veteran's Treatment Court that assists vets with rehabilitation due to potential mental health issues such as PTSD that may attribute to their criminal history. The program began nationally and was spearheaded locally by Judge Dennis Adkins. The Montgomery County Court system has a partnership with the Dayton VA that allows for continuous supervision of the vets participating in the program to keep them on track. Many veterans try to self-medicate to cope with their psychological problems such as alcohol or drugs. Many did not have any issues prior to their service so they are owed additional assistance due to the trauma they suffered in service of the country. Family is often the first to notice issues and have resources to reach out and get help for them such as the Dayton VA or Veteran's Resource Center. Guests: Judge Dennis Adkins, Montgomery County Common Pleas Court Judge; Teresa Sichman, Veteran Justice Outreach Coordinator; Jim Dare, Montgomery County Common Pleas Court Administrator; Mark Gokavi, DDN Reporter. CULTURE ISSUES:

1/05/14 5:00AM 00:11:17

VIEW POINTS: SEGMENT 1: We learn American history in school mainly through reading and lectures. Why not through tangible objects? We talk to a curator from the Smithsonian Institution about how their collections offer us a unique insight into our nation – even before it became a nation – that books, movies, and lectures can't. Host: Gary Price. Guests: Richard Kurin, Undersecretary for History, Art and Culture, The Smithsonian Institution, Washington, DC, and author of the book, "The Smithsonian's History of America in 101 Objects." **COMPLIANCY ISSUES COVERED:** Presidents, philanthropy, African-America issues, art & popular culture, science

1/12/14 5:00AM 00:10:07

VIEW POINTS: SEGMENT 1: The Great Depression and the Dust Bowl years brought with them hardship and change for a large part of the country. We know about how difficult it was for Americans in cities and in farming communities on the Plains and the Southwest, in part, because of a little-known government photographer named Dorothea Lange, who documented the people and places hit hardest. We talk to her goddaughter and biographer about Lange, her life and the personal demons and disabilities that informed her unique style and her passion for her work. Host: Gary Price. Guests: Elizabeth Partridge, author of "Dorothea Lange: Grab a hunk of lightning," **COMPLIANCY ISSUES COVERED:** poverty, agriculture, civil liberties, racism, the arts, government, homelessness

1/12/14 5:00AM 00:12:25

VIEW POINTS: SEGMENT 2: It seems that kids' lit is getting darker and more violent all the time. Stories of zombies, vampires and intergalactic war are all the rage, and kids just can't get enough of them. But do these books make kids more violent or afraid? We talk to two best-selling authors of young people's literature about what kids look for in these stories, how they can help young people deal with their fears and create life-long reading habits. Host: Marty Peterson. Guests: Adam Gidwitz, author of "The Grimm Conclusion," Anthony

1/19/14 5:00AM 00:11:35

VIEW POINTS: SEGMENT 2: Many of the most memorable and historical newspaper stories haven't been found in the news section at all. They've been the contributions of columnists who wrote not only about events, but also about how they affected people, policies and our culture. We talk to two journalists and columnists about these "deadline artists," how they did their jobs under pressure, defined our country, and how we learned more about ourselves through their writing. Host: Marty Peterson. Guests: Errol Louis and John Avlon, editors of "Deadline Artists: America's greatest newspaper columns," **COMPLIANCY ISSUES COVERED:** politics, war, culture, media, gay rights

3/09/14 5:00AM 00:11:01

VIEW POINTS: SEGMENT 1: When a father finds out that his new baby is a boy, what goes through his mind? It's different for everyone, but for humor columnist Joel Stein it was sheer terror! Stein, who was not an outdoorsy, sporty, risk-taking child or adult, realized he was going to have to "man up" so he could teach his son about camping, self-defense, day trading, baseball – all the macho arts. So he went out and found the best people he could to teach him. He talks about his adventures in manhood and about what he learned from the experiences and the men who schooled him. Host: Gary Price. Guests: Joel Stein, humor columnist, Time magazine, author of "Man Made: A stupid quest for masculinity," **COMPLIANCY ISSUES COVERED:** finance, sports and recreation, family issues

3/09/14 5:00AM 00:10:37

VIEW POINTS: SEGMENT 2: Everyone has been the "stranger in the room" when they've attended a business or social event. It can be intimidating and awkward, and sometimes make you want to run out the door! We talk to the "mingle maven" about how to navigate these events by starting a conversation with someone you don't know, joining a group of strangers, handling difficult people, and extracting yourself from sticky situations. Host: Marty Peterson. Guests: Susan RoAne, keynote speaker, coach, educator and author of the Silver Anniversary Edition of her best-selling book, "How To Work A Room," (www.susanroane.com). **COMPLIANCY ISSUES COVERED:** business, interpersonal & business communication, celebrity culture

WHIO REPORTS: This edition of WHIO Reports featured local experts discussing the economic outlook for the Miami Valley in 2014. For 2013, Ohio lost jobs compared to the two previous years. The unemployment rate increased in Ohio lagging behind the country that saw unemployment decrease. Manufacturing jobs have seen a decline due to the increase in technological innovations that require less man power to produce products. Logistics and the health care sector are showing signs of growth that should continue in 2014. Areas of potential however do not guarantee overall improvement for the year. Consumers shouldn't see much of a difference.
