COVID-19 PANDEMIC			
<p>RADIO HEALTH JOURNAL, SEGMENT 1, "WE ARE NOT OK": Where COVID-19 vaccination is high, it's a getting-back-to-normal world after the pandemic. But even some vaccinated people won't return to normal for months or years because of the psychological effects. As the rest of the world, Dayton, OH is not an exception. Experts discuss why this occurs and how people can help themselves return to mental health.</p>	7/25/2021	5:30 AM	00:12:43
<p>VIEWPOINTS, SEGMENT 1, "THE ITEMS THAT SYMBOLIZE THE COVID-19 PANDEMIC": Wondering what to do with the dozens of face masks and all of those unused yeast packets? Us too. There are several items that Americans sought after during the height of the Covid-19 pandemic that help to showcase what this period in time was like. Once the pandemic is fully over, how will we look back and remember this time? How are museum curators and everyday people remembering this important part of history? This week on Viewpoints.</p>	8/1/2021	5:00 AM	00:11:13
<p>RADIO HEALTH JOURNAL, SEGMENT 1, "BACK TO SCHOOL WITH COVID": Schools that just a couple of months ago imagined opening free of great pandemic worry are now facing a Delta variant that's even more contagious than the original. Yet last year's experience is telling experts and administrators that school can be held safely if masking and other protocols are followed. Two pediatricians who are experts in how infectious disease affects schools discuss reopening for the school year. With the DMA school district still being divided on the masks mandates, this topic would be of great interest for the local audience.</p>	9/5/2021	5:30 AM	00:12:19

CULTURE/ETHICS			
<p>VIEWPOINTS, SEGMENT 1, "FAIR LABOR: THE IMPORTANCE OF WORKER CENTERS": Unions, which are organized labor groups, are prevalent across the U.S. You've probably heard of the term in the media or may know someone who's part of a union. But have you ever heard of a worker center? It operates in similar functions as unions; however, this resource is much more community-based and is more of a guiding advocate in responsive situations where the worker is facing harassment, unpaid wages or other issues. We speak with two labor experts this week to highlight how vital worker centers are to low-wage workers who often don't have a voice. With Central Ohio Worker Center being the closest institution of its kind to Dayton, this topic might be of great interest for the local audience.</p>	7/4/2021	5:00 AM	00:11:25
<p>WHIO REPORTS, "SPRINGFIELD ARTS": This edition of WHIO Reports will focus on the arts community in Springfield and about their upcoming events.</p>	7/4/2021	6:00 AM	00:24:30
<p>VIEWPOINTS, SEGMENT 2, "LONG-TERM YOUTH INCARCERATION": The U.S. prison population has decreased during the pandemic, but the number of people behind bars is still close to two million. Some of these inmates have been in prison for decades and at a young age were deemed by the justice system to be 'unfixable'. This week, we shed light on the cycle of youth incarceration in this country and why people like Ian Manuel, a former inmate, were sentenced to life in prison without the possibility of parole at age 13. With Dayton being home of a number of prisons and jails, including the Montgomery County Juvenile Detention, this topic is relevant for the local audience.</p>	7/11/2021	5:00 AM	00:09:00
