The President and CEO of the Dayton Development Coalition joined the conversation to discuss the implications. They are the liasion between the base and our state and national legislators. Potential budget cuts at the base are currently being discussed and will require community support to bring more development to the area. After the furloughs and sequestration last year, the restoration of trust with employees at the base will require consistency in budget according to the colonel. Early retirement, voluntary separation and the filling of current vacancies will help to ease future cuts due to the size of the base. The new colonel hopes to work as a team with the installation and remain transparent throughout his leadership to deal with challenges to come. Guests: Colonel John Devillier, Commander, 88th Air Base Wing and Installation Commander, Wright-Patterson Air Force Base; Jeff Hoagland, President and CEO , Dayton Development Coalition; Barrie Baber, DDN Reporter. Crayons to Classrooms provides needed school supplies to teachers that visit their store to shop for free items for students. They serve seven counties. Huntington Bank decided to partner with C2C for the first time this year after realizing that the costs associated with sending kids K-12 back to school increases substantially each year and many families can't afford to absorb those costs. Kroger has been involved since C2C began in Dayton in 2009 as they had also partnered in Cincinnati. They helped with store shelving and carts that teachers use to get their school supplies. **WHIO REPORTS:** This edition of WHIO Reports focused on charter schools in Ohio and the scrutiny they have come under. One local school is currently under investigation. The way charter schools are setup, funded, and held responsible are questionable and have been criticized. Though they are publicly funded and free for students, they are sometimes contracted by for-profit entities and are not as transparent as public school districts. Millions have been spent on them and yet performance is not better or even on par with non-charter schools. Funding and other issues must be addressed moving forward.
