48 HOURS

01/01/22 **48 HOURS: “The Missing Millionaire: A “Tiger King” Mystery”** – an updated rebroadcast of “The Tiger King Mystery” (OAD: 09/09/20 as 48 HOURS SUSPICION: “The Tiger King Mystery”), a report on the disappearance of Don Lewis, whose body has never been found. A self-made millionaire, he was married to Carole Lewis. Together they ran “Wildlife on Easy Street” in Tampa, Florida -- billed as an exhibit space for big cats. In August 1997, Don vanished while supposedly traveling to Costa Rica. Though Carole was not an official suspect, his ex-wife, daughters and other friends and associates were suspicious and claimed that Carole and Don’s marriage was troubled. Carole had Don declared legally dead in 2002. In 2004, Carole Lewis became Carole Baskin when she married attorney and businessman Howard Baskin. With his help, Carole changed the name and mission of the animal exhibit; now called “Big Cat Rescue”, it is a sanctuary focusing on animal rights. Interest was renewed in Don’s disappearance due to the Netflix series “Tiger King”, which chronicles an Oklahoma-based, eccentric big-cat owner named Joseph Schreibvogel, better known as Joe Exotic, and his battle with Carole who sought to shut him down. Throughout the series and on his own YouTube channel, Joe, the self-proclaimed Tiger King, alleged Carole had murdered Don in 1997 and fed him to their tigers. In 2019, Joe was convicted and sent to prison for, among other things, hiring a hitman to kill Carole. Currently, there are no suspects in the disappearance of Don Lewis. **01/01/22 UPDATE:** Includes excerpts of an interview with Alex Spiro, an attorney and former New York City prosecutor, now working for Don Lewis’ daughters. He has been investigating their father’s disappearance for months and says there are new witnesses. Joe Exotic remains in prison; there was no presidential pardon. Original on-screen text graphic: If you have any information, please call the Hillsborough County Sheriff’s Office at (813) 247-8200. Joe Exotic’s lawyer says he plans to ask President Trump for a pardon. **On-screen text graphic for the 01/01/22 updated rebroadcast:** Joe Exotic says he has been diagnosed with prostate cancer. He remains in prison. If you have any information on the Don Lewis case, please call the Hillsborough County Sheriff’s Office at (813) 247-8200. Interviewed: Julie Miller, senior feature writer, *Vanity Fair* (2020 broadcast); Gladys Lewis Cross, Don’s ex-wife (2020 broadcast); Anne McQueen, Don’s employee (2020 broadcast); Lynda Sanchez, Donna Pettis and Gale

48 HOURS (continued)

01/08/22 **48 HOURS: "Who Killed Jonelle Matthews?"** – an update to "The Kidnapping of Jonelle Matthews" (OAD: 03/27/21), a report on the cold case of a missing Colorado girl and the Idaho gubernatorial candidate linked to her disappearance. On the evening of December 20th, 1984, 12-year-old Jonelle Matthews was dropped off at her Greeley home by friends. When her father, Jim Matthews, returned home less than two hours later, Jonelle was nowhere to be found. Police were unable to find any physical evidence related to Jonelle’s disappearance, except for footprints left in the snow which appeared to have been raked over, in an attempt to cover them up. Despite prominent attention, including a mention from President Ronald Reagan, the case went cold. On July 23rd, 2019, a crew digging a pipeline in a remote area southeast of Greeley uncovered human remains with a gunshot wound to the head; the coroner confirmed it was Jonelle. In September 2019, police in Twin Falls, ID searched the home of Steve Pankey, a serial candidate for governor and sheriff in Idaho. A former Greeley resident, Pankey was known to Greeley police due to a prior arrest and other multiple allegations. Over the years, Pankey has intentionally inserted himself into the investigation of Jonelle’s disappearance – he even contacted the FBI in Fort Collins, CO one month after she went missing and mentioned her in a 1999 Idaho Supreme Court case. On October 12th, 2020 Pankey was arrested for kidnapping and first-degree murder. Details in his indictment included Pankey’s mention of raked footprints, a fact never publicized by the police. However, Pankey’s defense attorney, Anthony Viorst, claimed Pankey received that information directly from law enforcement and stated Pankey is merely obsessed with true crime. Steven Pankey's trial is scheduled to begin on July 12th, 2021. **01/08/22 UPDATE:** Steve Pankey went on trial in October 2021. His ex-wife, Angela Hicks, testified against him. The defense named Norris Drake as an alternative suspect; his mother and sister lived across the street from the Matthews home and he was at his mother’s house the night Jonelle disappeared. Drake died in 2007. Pankey testified in his own defense. In his closing argument, Viorst raised questions about his client’s mental health. In November 2021, jurors found Pankey guilty of making false reports to authorities but

were deadlocked on the murder charges; the judge declared a mistrial. Prosecutors have announced they are ready for a new trial – they still believe Pankey murdered Jonelle Matthews. The update also includes new interviews with Greeley Mayor John Gates, reporter Kelly Werthmann and defense attorney Anthony Viorst. **On-screen text graphic:** In Loving Memory Josh Gelman. Interviewed: Darla Jentzsch, Jonelle’s friend (2021 broadcast); Deanna Ross, Jonelle’s friend (2021 broadcast); Jim and Gloria Matthews, Jonelle’s father and mother (2021 broadcast); Jennifer Mogensen, Jonelle’s sister (2021 broadcast); John Gates, current Greeley, CO mayor and former Greeley police officer (2021 and 2022 broadcasts); Kelly Werthmann, reporter and anchor, KCNC, Denver, CO (2021 and 2022 broadcasts); Anthony Viorst, Steve Pankey’s defense attorney (2021 and 2022 broadcasts); Kevin Schneider, former guardian of Steve Pankey’s son in Idaho (2021 broadcast); Ryan Horsley, political consultant and Steve Pankey’s fellow church member in Idaho (2021 broadcast). 01/15/22 PREEMPTION

48 HOURS (continued)

01/22/22 **48 HOURS: “The Suzanne Morpew Case: Nothing Is What It Seems”** – a report on the disappearance of Suzanne Morpew and the case against her husband Barry Morpew. The Salida, CO mother of two vanished on Mother’s Day 2020, days after telling her husband she was “done” with their marriage. Police initially thought she was taken while riding her mountain bike, but also considered her husband. Over the course of the investigation, bizarre clues emerged: a spy pen that was able to record conversations, a chipmunk alibi and a tranquilizer gun. The spy pen was originally given to Suzanne to record Barry but backfired when it recorded a conversation between Suzanne and Jeff Libler, a Michigan man Suzanne was having an affair with; he was eventually cleared of any wrongdoing. Records revealed Barry’s cell phone pinging all around the Morpew home on Mother’s Day weekend 2020, which he maintained was because he was chasing and shooting at chipmunks. Also discovered in the couple’s dryer was a plastic cap to a syringe used to load a tranquilizer dart; no working tranquilizer rifle was found in the home, but Barry admitted to being an experienced tranquilizer dart gun shooter. Tests revealed the cap had Suzanne’s DNA on it, not Barry’s. Investigators also uncovered DNA on the glovebox of Suzanne’s Range Rover, which traced back to an unknown male connected to three sexual assaults. Even though Suzanne’s body was never found, police relied on the circumstantial evidence they gathered, Barry’s suspicious behavior and contradictory statements, scratches seen on his left arm when Suzanne disappeared, the vehicle forensics evidence and Suzanne’s disturbing texts, and arrested Barry in May 2021 for first-degree murder and other charges; Barry pled not

guilty. In September 2021, a judge ruled there was probable cause to go to trial. Suzanne and Barry's daughters – Mallory and Macy – stand firmly behind their father. **On-screen text graphic:** Judge Patrick Murphy disqualified himself based on a potential conflict of interest involving a possible witness. A new judge has been appointed. Barry Morphew's murder trial is scheduled for May 2022. The Morphew defense team has requested a change of venue. Interviewed: Aya Gruber, professor of law, University of Colorado, former defense attorney; Ashley Franco, reporter, KKTU, CBS affiliate in Colorado Springs; Dan Ridenour, local radio host; Melinda Moorman (Zoom interview), Suzanne's sister; Cody Cox, Barry's former employee; Ben LeMere, vehicle forensics expert, CEO, Berla Corporation; and Andrew Katers, owner & CEO, Animal Care and Equipment Services. 01/29/22

48 HOURS: "The Case Against Ezra McCandless" (9:39 - 10:39p) – an investigation into the 2018 death of Alex Woodworth. On March 22, 2018, Ezra McCandless appeared at the home of dairy farmer Don Sipple, near Eau Claire, Wisconsin. Ezra claimed she was a victim of assault and Sipple called 911. Ezra's details were hazy at first, but eventually named ex-boyfriend Alex Woodworth as her attacker. Police discovered Woodworth's body on a deserted road near the dairy farm. Ezra told investigators Alex carved the word "boy" into her arm and then attacked her. The evidence did not match Ezra's account. Ezra was arrested and charged with first-degree intentional homicide. At the trial, Ezra took the stand in her own defense and tried to portray herself as a meek and timid young woman incapable of murder. Prosecutors believed Ezra committed the crime to attract the attention of her former boyfriend, Jason Mengel. Ezra is found guilty of first-degree intentional homicide and sentenced to life in prison. Ezra must serve a minimum of 50-years before she is eligible for release. Interviewed: Don Sipple, dairy farmer; Andrea Nodolf, Dunn County District Attorney; Jason Mengel, Ezra's ex-boyfriend; Marv Woodworth, Alex's grandfather; John Woodworth, Alex's father; Detective Ryan Prock, Eau Claire Police Department; Julia Post, Ezra's childhood friend; Woman #3, juror. 48 HOURS: "Mystery on County Road M" (10:39 – 11:39p) – a report on the death of Barbara Kendhammer, a Wisconsin mother of two and the case against her husband Todd Kendhammer, who told investigators his wife was injured when a pipe flew off a truck and pierced the windshield of their car on September 16th, 2016. She later died at the hospital. Investigators were never able to find the truck and Todd gave police different accounts of where he was going that morning. Three months after Barbara's death, Todd was arrested; he went to trial for his wife's murder in December 2017. Found guilty, Todd was sentenced to life in prison, eligible for parole after 30 years. Four years after his conviction, Todd's new legal team presented their findings at an evidentiary hearing this past summer. The judge in the case is expected to render a decision in the spring of 2022 on whether Todd Kendhammer will get a new trial. The broadcast features the first television interviews with the couple's children, who believe

their father is innocent. **On-screen text graphic:** A judge is expected to rule by the spring of 2022 if Todd Kendhammer will get a new trial. 48 HOURS

02/05/22

48 HOURS: “The Yogurt Shop Murders” – an update to “Innocence Lost” (OAD: 01/21/17), a report on the December 6th, 1991 murders of Eliza Thomas, Sarah and Jennifer Harbison and Amy Ayers in a yogurt shop in Austin, TX. All four girls were tied up and shot; the yogurt shop was then set on fire. In the weeks after the murders, authorities received countless tips, many false confessions and interrogated teenagers Maurice Pierce, Michael Scott, Robert Springsteen and Forrest Welborn. With no solid evidence, they were released. There were no developments in the investigation until 1999, when new detectives assigned to the case arrested the original four suspects. Charges against Welborn and Pierce were eventually dropped. Scott and Springsteen each stood trial for murder; both were convicted, with Springsteen sentenced to death and Scott sentenced to life in prison. On appeal, the convictions were overturned when DNA evidence did not match any of the suspects, leaving the case still unsolved.

02/05/22 Update: The DNA sample from the crime scene is not a complete DNA profile and just contains the male portion of DNA. In 2017, Austin police investigators thought they found a match on a public DNA database used for population studies. The seemingly matching sample on the public database had been submitted anonymously by the FBI. Restrictions in privacy made getting a name difficult. In 2020, advanced testing was allowed and came up with additional markers which ruled out the potential match. With DNA research advancing, investigators hope there will be a match that solves the case. Maria Thomas, Eliza and Sonora’s mother, died in 2015. **On-screen text graphic:** If you have information about the Yogurt Shop Murders, call 512-472-TIPS. Interviewed: John Jones, retired, former detective, Austin Police Department; Sonora Thomas, therapist, Eliza Thomas’ sister; Joe James Sawyer, defense attorney, represented Robert Springsteen; Amber Farrelly, member of the defense team for Michael Scott and Robert Springsteen; CeCe Moore, DNA expert, genetic genealogist; and Congressman Michael McCaul (R-TX). - 02/12/22 **48 HOURS: “The Final Hours of Amie Harwick”** – an update to 48 HOURS: “The Life and Death of Amie Harwick” (OAD: 02/22/20, Rebroadcast: 08/29/20), a report on the death of Hollywood family therapist and author Amie Harwick. In the early morning hours of February 15th, 2020, Los Angeles, CA police responded to a call of a woman screaming; they found 38-year-old Harwick lying unresponsive beneath the third-floor balcony of her home. Police found evidence of a struggle and forced entry. The cause of death was ruled to be blunt force injuries to the head and torso, with medical examiners finding evidence of strangulation. Harwick’s friends led investigators to her ex-boyfriend, Gareth Pursehouse, who she met in 2008. Their relationship turned abusive – there were numerous police reports and two restraining orders Harwick obtained against Pursehouse and she ended the relationship in 2012. Four days after Harwick’s death, police arrested Pursehouse and charged him with murder. **02/12/22 Update:** In September 2021, Pursehouse appeared at the Los Angeles Superior Court for a preliminary hearing. Prosecutors presented DNA evidence which they said was a match to Pursehouse. A syringe found on Harwick’s balcony was tested and the results revealed that it contained nicotine, which can be a lethal poison; police found a syringe in Pursehouse’s home similar to the one filled with nicotine. After six days of evidence and arguments, the judge ruled there was more than enough evidence to bind Pursehouse over for trial for the murder of Amie Harwick. Her friends plan on attending. **On-screen text graphic:** If you or a loved one are a victim of domestic violence, call the National Domestic Violence Hotline at 1-800-799-7233. - 02/19/22 **48 HOURS: "The Mysterious Death of Kat West"** (9:00 - 10:00p) – a report on the death of Kathleen “Kat” West, a 42-year-old stay-at-home Calera, AL mother and the possible role her active social media life, including an ‘OnlyFans’ account, played in her demise. Before dawn, on January 13th, 2018, a driver spotted Kat’s body in the road, just across the street from the West family home. She was found with a fatal head wound and a bottle of absinthe lying on top of her phone nearby. Police focused their investigation

on Kat's husband Jeff, who they felt was oddly reserved. Jeff was released after questioning and police investigated other possible suspects, including subscribers to her 'OnlyFans' account. Police were unable to find a connection. On February 22nd, 2018, Jeff was arrested and charged with murder. Kat's parents supported their son-in-law. A few months before trial, prosecutors offered Jeff an Alford plea – he would not have to admit that he had committed a crime, but would have to acknowledge that the state had enough evidence to likely convict. Jeff declined. The cause of Kat's death was determined to be blunt force trauma to the head; the prosecution theorized Jeff became jealous of Kat's racy 'OnlyFans' pictures and in a rage killed her with a blow to the head from a liquor bottle. The defense countered that Jeff often helped take the photos and suggested Kat had died from an accident while intoxicated. Kat's mother Nancy Martin testified for the defense. During the trial's final stages, prosecutors convinced the judge to allow the jury to consider a lesser charge of reckless manslaughter. After deliberation, the jury found Jeff guilty of the lesser charge; he was sentenced to 16 years in prison. The broadcast also features the first television interview with Lauren Kwei, a paramedic in New York City who made headlines when *The New York Post* exposed her for posting nude images on 'OnlyFans'. **On-screen text graphic:** Lola is being raised by both sets of grandparents. Jeff West has filed an appeal. Interviewed: Brittany Driesler, Kat's friend; Carol Robinson, reporter and CBS consultant; Nancy Martin, Kat's mother; John Martin, Kat's father; Macorsha Purifoy, passerby; Sergeant Mike Mehlhoff, Calera, AL police officer; Lauren Kwei, paramedic and 'OnlyFans' model; John Robbins, Jeff's defense attorney; William "Jerry" West, Jeff's father; Carolyn "Suzi" West, Jeff's mother. 48 HOURS (continued)

02/19/22 **48 HOURS: "Searching for Maya Millete"** (10:00 – 11:00p) – a report on the January 2021 disappearance of Maya May Millete, a 39-year-old mother of three young children, from her home in Chula Vista, CA and the case against her husband, Larry Millete. Larry told Maya's family various stories of why his wife was gone, including that they argued and she went hiking. From the outside, the Milletes looked like a happy family, but investigators learned the couple were going through marital problems. On January 7th, the last day she was heard from, Maya made an appointment with a divorce attorney. Investigators also discovered Larry's contact with spellcasters, to have a hex put on Maya so she would remain attracted to him. Before her disappearance, Larry sent a message to a website that claims to cast spells and asked for Maya to be harmed. In October 2021, Larry was arrested; he remains behind bars, awaiting trial. Larry pled not guilty to charges of murder and possession of an assault weapon. He maintains that Maya left on her own and started a life somewhere else – a claim Maya's family and friends strongly refute. The Millete children live at home, in the care of Larry's parents; Maya's family was granted visitation rights in November 2021 and her sister, Maricris

has filed a petition for guardianship. In January 2022, a vigil was held to mark the one-year anniversary of Maya's disappearance. The search for Maya's remains is ongoing. **On-screen text graphic:** If you have information on the case, contact the Chula Vista Police Department at 619-691-5139. 48 HOURS: "Katrina Brownlee: The Good Cop" – an interview/profile of Katrina Cooke Brownlee, who retired in 2021 as one of the New York City Police Department's top-ranked detectives. In her first primetime television interview, Brownlee details the abuse she suffered, how she met the so-called blue wall of silence, how she fought to live and how she vowed to be a good police officer. When she was 22-years-old, Brownlee, a mother to two daughters, lived with her then-fiancé, Alex Irvin, a New York City correction officer at Rikers Island. She says that every time she called the police after Irvin abused her, they would leave without taking action. On January 9th, 1993, a pregnant Brownlee met Irvin at the Medford, Long Island home they formally shared. Irvin, she says, had a weird look on his face. He shot Brownlee five times, reloaded his gun and shot five more times. A family friend of Irvin's who happened to stop by saw Brownlee bleeding and insisted on taking her to the hospital. Investigators initially thought Brownlee would die, but she survived. Irvin eventually pled guilty to all charges and was sentenced to only 5 to 15 years in prison; he was released after serving 10 years. It would take months, but Brownlee learned how to walk again. During that time Brownlee decided to change the system that let her down and became a police officer in 2001. Brownlee became a top-ranked detective and one of the few Black women in the NYPD chosen to protect a New York City mayor; she even kept her history of being abused from then-Mayor Bill de Blasio until their last meeting together. Brownlee continues to work on her organization, "Young Ladies of Our Future". **On-screen text graphic:** Katrina has just finished a book about her life that she's calling, "And Then Came the Blues." Interviewed: Katrina Brownlee; Keri Herzog, former assistant district attorney; and Raymond Blasko, lead detective. (This hour is part of CBS News and Stations' ongoing reporting for Black History Month.) (Anchor: Michelle Miller, co-anchor, CBS SATURDAY MORNING – Producers: Liza Finley, Lauren A. White)

03/05/22 **48 HOURS: “What Ally Kostial Didn’t Know”** – a report on the July 2019 murder of 21-year-old Ally Kostial and the digital trail investigators followed to find her killer. Kostial, originally from St. Louis, MO, was a business and marketing student at the University of Mississippi in Oxford. Investigators found her body near a remote fishing camp not far from campus; she was shot at least nine times. By using Kostial’s Apple Watch and the stored text messages, investigators tracked Kostial’s life before her death, which led Lafayette County sheriff’s deputies to fellow student Brandon Theesfeld. Enroute to where his parents lived in Texas, Theesfeld was arrested in Memphis, TN three days after Kostial was found. Kostial and Theesfeld dated throughout college, but each viewed the relationship differently, with Theesfeld treating it much more casually. In April 2019, Kostial feared she was pregnant; Theesfeld did not see fatherhood in his immediate future. Investigators believe Kostial’s murder was premeditated; Theesfeld denies it was planned and claims he snapped under the influence of alcohol and cocaine. Facing a possible death sentence, Theesfeld pleaded guilty to first-degree murder on August 27th, 2021. The judge sentenced him to life in prison. Autopsy results indicated Kostial was not pregnant at the time of her death; her parents believe she had a miscarriage. **On-screen text graphic:** If you or anyone you know is struggling with substance abuse or mental health visit SAMHSA.gov or call 1-800-662-HELP for more information. 03/12/22 **48 HOURS: “The Eye Drop Homicide”** (9:25 – 10:25p) – a report on two murders linked to a common chemical found in eye drops – one in South Carolina, the other 12 miles away in North Carolina. (1) On July 21st, 2018 in Lake Wylie, SC, Lana Clayton ran outside to get help for her husband Steve. Neighbor Terry Floyd entered the home and realized Steve was dead. According to Lana, Steve had been feeling ill for days and fell down the stairs due to vertigo. Steve’s nephews, Kris Phagan and Nick French, became suspicious of her story; Nick noted Lana, a nurse who worked in several different VA hospitals, did not perform CPR. Additionally, Lana quickly moved to have Steve cremated and insisted he left no will. Unbeknownst to Lana, Kris and Nick requested an autopsy from the local coroner; Steve’s toxicology report showed the presence of tetrahydrozoline, an ingredient in eye drops. At first, Lana told the coroner and law enforcement that Steve regularly put eye drops in his coffee to induce bowel movements. Lana soon changed her story and claimed Steve was verbally and physically abusive; she tried to use the eye drops to give him diarrhea, rather than kill him. After a failed suicide attempt, Lana was charged with murder on August 31st, 2018. Prosecutors believed she hoped to inherit all of Steve’s wealth by killing him. Lana plead guilty to tampering with food and drugs and voluntary manslaughter. On January 16th, 2020, she was sentenced to 25 years in prison. (2) About three weeks after Lana was arrested, Stacy Hunsucker died in nearby Mount Holly, NC from what appeared to be a heart attack. The state insurance fraud department began investigating her husband, Josh Hunsucker, after they received a complaint from Stacy’s mother, Suzie Robinson. Stacy was cremated, but because she was an organ donor a vial of her blood had been collected and stored. Toxicology tests revealed the presence of tetrahydrozoline. On December 19th, 2019, Josh was charged with murder. He remains free on bail. **On-screen text graphic:** Lana Clayton has not been awarded any money from Steve's estate. Josh Hunsucker has not yet entered a plea and awaits trial. Stacy's parents say they have complete faith in the judicial process. 03/12/22 **48 HOURS: “The Poisonous Wife”** (10:25 – 11:25p) – a report on the June 8th, 2017 murder of Ben Renick, found dead at his snake breeding facility about 80 miles west of St. Louis, MO. Discovered by his wife Lynlee Renick, investigators originally believed Ben had been the victim of an attack by one of his reptiles. The coroner discovered he had

been shot eight times, once at close range. Lynlee eventually admitted to investigators she had been having an affair with Brandon Blackwell and been in contact with Michael Humphrey, an ex-boyfriend just released from prison. Investigators also discovered that Lynlee's spa business was losing money and that she had lied to Ben about it. With just circumstantial evidence, the case went cold for nearly three years. In January 2020, a jailhouse tip from Brandon Blackwell provided enough information for investigators to arrest Lynlee Renick and Michael Humphrey, as well as Lynlee's former employee Ashley Shaw, who turned on her one-time boss in exchange for leniency. In late 2021, Michael went on trial and was convicted of first-degree murder; he then agreed to cooperate with the state. During Lynlee's trial, she claimed that Ben was abusive, Michael shot Ben, and also apologized for her attempts to implicate her former brother-in-law. Lynlee was found guilty of murder in the second degree and armed criminal action; she was sentenced to 16 years in prison. Ben was honored with a new breed of snake, the Renick Ghost. **On-screen text graphic:** The stalking and related charges against Brandon Blackwell were dropped. Lynlee Renick will be eligible for parole by 2035. Interviewed: Sam Renick, Ben's brother; Dav Kaufman, snake breeder, documentary filmmaker; Dave Colbert, coroner; Katherine Berger, defense attorney; Tim Hesemann, defense attorney; Beth Mayberry, Columbia, MO resident; Dave McKenna, journalist, Defector Media. 03/19/22 **48 HOURS: "The Puzzle: Solving the Madeleine McCann Case" (WEST COAST ONLY)** - an update on the search for Madeleine McCann, who went missing from a family vacation in Portugal in 2007. On the evening of May 3rd, 2007, Kate McCann discovered her daughter Madeleine had disappeared from the family's hotel room in Praia Da Luz, Portugal. The case quickly gained international attention, but little progress was made. Various leads led nowhere and suspects, including the McCanns themselves, were cleared. In 2010, the British government asked Jim Gamble, head of the U.K.'s Child Exploitation and Online Protection Centre to review the case. He noted deficiencies in the Portuguese authorities' tactics. Scotland Yard became involved in the investigations, but still no further progress was made. In 2017, German authorities received a tip that Christian Brueckner had drunkenly confessed to knowing what happened to Madeleine. Investigations revealed that he had a history of committing various crimes, some of which involved sexual abuse and child pornography. Cell phone data also placed him at the hotel the night of Madeleine's disappearance. Due to German law, authorities were not allowed to reveal all of the evidence they had against Brueckner, but remain certain he was responsible. **On-screen text graphic:** If anyone has information about the disappearance of Madeleine McCann, please go to www.findmadeleine.com. Interviewed: Hans Christian Wolters, German prosecutor; Jim Gamble, former head, Child Exploitation and Online Protection Centre; Jane Hill, BBC news anchor; Jon Corner,

48 HOURS: "The COVID Cover-Up: Searching for Gretchen Anthony" (9:00 - 10:00p) – a report on the murder of a Florida woman and the attempt to conceal it as a coronavirus pandemic statistic. Friends and family of Gretchen Anthony became concerned when beginning on March 23rd, 2020, Gretchen texted that she tested positive for coronavirus and was steadily getting sicker. They became suspicious when her texts said she was at a CDC facility in Belle Glade, FL, which does not exist, and subsequently reached out to police to perform a welfare check. Officers located Gretchen's car in the parking lot of Jupiter Medical Center, but found no record of her being a patient there. On March 26th, police canvassed her neighborhood and located a neighbor who reported hearing screams from Gretchen's home on the 21st. They entered the home and noted the smell of cleaning supplies, towels with a blood-like substance on them and signs of a struggle. Neighbors also shared photos of a truck they had seen parked in Gretchen's driveway, which matched one owned by Gretchen's estranged husband, David Anthony. While investigators waited to receive footage from the 'cloud', because the security cameras in Gretchen's home had been removed, they went to David's home and learned from his mother that he had left for Costa Rica. Because he was attempting to leave the country and matched the tall figure seen exiting Gretchen's car on hospital surveillance footage, David became a suspect. Tracking phone records, Detective Jared Kenerson tracked David's path West, where he had stopped at jewelry stores and sold Gretchen's jewelry. On March 27th, David's cell phone pinged in Las Cruces, NM. Local police were alerted, who seized his truck. Inside, they found Gretchen's phone. However, there was not enough cause to hold David and he was released. On March 30th, investigators received camera footage from Gretchen's home which clearly showed David gagging her and forcing her into a car on the night of the 21st. Detective Kenerson and Detective Sally Sanders interrogated David in Las Cruces. During questioning, he maintained that Gretchen was still alive and claimed she had been travelling with him before suddenly splitting off on her own in Texas. He was charged with second degree murder and extradited to Florida. While in custody in Palm Beach County, the grand jury raised his indictment to first degree murder and kidnapping. On December 21st, 2020, David agreed to plead guilty to second degree murder in exchange for a 38-year prison sentence and revealed the location of Gretchen's body. Her remains were recovered the same day. An autopsy revealed her cause of death was stab wounds to the neck and torso. In January 2021, David was sentenced. **On-screen text graphic:** David Anthony is scheduled for release from prison in 2058. He will be 81 years old. Interviewed: Kelly Hanna, Gretchen's friend; Chrichet Mixon, assistant state's attorney, Palm Beach County; Tabitha Hopkins, David's former employer; Dave Aronberg, state attorney, Palm

Beach County; Detective Jared Kenerson, Jupiter Police. (C: Peter Van Sant – P: Chris O'Connell, Mary Ann Rotondi) (OAD: 05/08/21)
