## Living Well

Living Well is a one hour community affairs program that is dedicated to active lifestyles, wellness & helpful information that leads to a more empowered life. The featured shows in Living Well Season 4 are *Fresh With Anna Olson* and *Loving Spoonfuls* and in Season 5 are *Intelligence For Your Life* and *Til Debt Do Us Part*.

*Fresh With Anna Olson* - This inspirational series takes viewers inside Anna's world – a chef who truly lives food around the clock. Learn how you too can become inspired by fresh foods in your area, and watch as her enthusiasm motivates you to try new culinary creations of your own.

*Loving Spoonfuls*. - This delightful cooking series is devoted to characters, cultures and food. Each week, host David Gale visits a different grandmother to cook, laugh and learn about her life.

*Intelligence For Your Life* – In this series, Hosts John Tesh, Connie Sellecca and Gib Gerard discuss everything from the secrets of how to improve your relationship to the best tricks to boost your brainpower and even ways to keep your pets happy and healthy. This is the intel you've been looking for to improve every part of your life!

*Til Debt Do Us Part* - With ninety percent of marriages breaking up because of money problems, it's no surprise that many couples are in desperate need of help tackling their financial issues. In *Til Debt Do Us Part*, renowned financial author and columnist, Gail Vaz-Oxlade takes a tough-love approach to getting couples in financial crisis to face reality. With the sensitivity of a therapist and the toughness of a CFO, Gail asks hard questions and pushes couples to face each other and reality. Some couples are on the verge of bankruptcy - others are just getting by, but headed for disaster - either way, they all learn how to work their way out of debt and get the skills they need to plan for their financial future.

Hosts: Anna Olson, David Gale, John Tesh, Connie Sellecca, Gib Gerard, and Gail Vaz-Oxlade

## Qubo Kids Corner

Qubo Kids Corner is a block of regularly scheduled E/I Programming addressing educational topics of interest to children. The featured shows in “Qubo Kids Corner” are *Zoo Clues*, *Secret Millionaire’s Club*, and *Thomas Edison’s Secret Lab*

*Zoo Clues* – Zoo Clues tackles the animal kingdom’s most mind-blowing questions, like these: Can birds fly backward? Are whales fish? Do dogs sweat? Questions and clues are presented, giving viewers a chance to guess the right answers. The investigation of the answers takes viewers on a fast-paced and entertaining tour of the animal kingdom. Both older and younger audiences should find this look across the amazing world of animals fascinating. Beyond basic engagement, Zoo Clues leaves viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of Zoo Clues links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world.

*Secret Millionaire’s Club* – The Secret Millionaire’s Club is designed to stimulate curiosity about, interest in, and knowledge of the world of economics, business, and financial literacy among 8 – 12-year-olds. It invites children to follow the antics and adventures of four entrepreneurial teens as they discover the basics of smart, responsible money-management, then use that knowledge to help others. In this animated series, Warren Buffett acts as a mentor to this group of kids who have international adventures in business, and meet some very interesting guest stars along the way including Jay-Z, Shaquille O’Neal, Nick Cannon, Kelly Rowland, Bill Gates, and more.

*Thomas Edison’s Secret Lab* – Thomas Edison’s Secret Lab is designed to stimulate interest in and inspire excitement about science and technology among 8- to 11-year-olds as it introduces them to a broad range of basic scientific concepts, as well as to an eclectic array of famous scientists and inventors. The series aims to increase elementary school children’s engagement with science by making it fun, exciting, comprehensible ... and most of all, cool. In this series, four kids stumble onto a secret lab left behind by famed inventor Thomas

Edison. Guided by Edison's holographic image, and accompanied by their trusty robot sidekick Von Bolt, the kids learn about science through a series of informative - and hilarious - adventures.

**Issues Addressed:** Education, Children, Family, Financial Planning, Animals, Science

Qubo Kids Corner aired weekly in the following times:

Zoo Clues – Wednesdays 7:00am and 7:30am  
 Secret Millionaire's Club – Thursdays 7:00am and 7:30am  
 Thomas Edison's Secret Lab – Fridays 7:00am and 7:30am

## The Aaron Harber Show

*The Aaron Harber Show* is a weekly television program promoting mutually respectful civil discourse. The program is a nonpartisan forum for accuracy and truth that gives everyone a chance to speak in a welcoming setting conducive to open and candid discussion.

With degrees from Princeton's Woodrow Wilson School of Public & International Affairs (where he concentrated in Economics) and Harvard's John F. Kennedy School of Government (where his focus was on ethics in government, business, and politics as well as on campaign finance regulation in all 50 states), host Aaron Harber's background combines expertise in international affairs, economics, law, business, and politics.

Hosts: Aaron Harber

**Issues Addressed:** International Affairs, Education, Diversity, Environment, Health and Wellness, Technology, Community Affairs, Leadership, Healthcare, Energy, Infrastructure, Travel, Business, Journalism, Entertainment
