<b>Reach Out</b>	Feb 6,13,20,27 March 6,,13,20,27	

The statistics are staggering: more than 13 million kids—1 in every 4—experience some form of bullying, and 88% of 13-17 year olds witness cyber-bullying on social media. While kids may want to stand up against bullying, they may not know how or may fear repercussions. New teen-targeted PSAs feature celebrities and bold animation letting teens know that many of their peers also want to put an end to bullying and that together, with the right tools, they can make a difference. The campaign’s message—“I Am A Witness”—is brought to life vividly with the striking Witness emoji that teens can use to support someone who is being bullied in texts or online, with other bullying prevention resources available on [www.IWitnessBullying.org](http://www.IWitnessBullying.org).

For over 70 years, Smokey Bear has been protecting our forests and getting the word out about wildfire prevention. His powerful message, “Only you can prevent wildfires,” is at the heart of one of America’s longest running PSA campaigns. Indeed, Smokey is an icon: in 2017, 80% of outdoor recreationists (18+) correctly identified Smokey Bear’s image and 8 in 10 recognized the campaign PSAs. Although Smokey has been essential to wildfire prevention education over the last seven decades, he still needs help, as even today, nearly 9 out of 10 wildfires nationwide are caused by people. PSAs aim to raise awareness of lesser known ways wildfires are started, such as burning debris on windy days, improperly discarding hot ashes and coals, and dragging improperly secured chains. They remind adults to safely use and extinguish outdoor fires.

Admit it. You like watching pet videos on YouTube and following the furry celebrities on Instagram. There are dogs that bring the party. Dogs who are real life fashion icons. And even cats who play the keyboard. Does it surprise you to learn that many of the Internet's biggest pet celebrities got their start when they were adopted from shelters and rescue groups? Each year, 6-8 million dogs and cats will enter shelters and rescue groups, yet only half will be adopted. This leaves millions of healthy and treatable dogs and cats who still need our help to find a home. Millions of Americans will look for a new cat or dog to bring home in 2016. Encourage them to find their furry friends at shelters and rescue groups. While not every shelter cat or dog will be a social media star, they all will star as someone's new best friend.

The Ad Council's Hunger Prevention campaign works to end America's hunger issue—one that disproportionately impacts children. Nearly 13 million children struggle with hunger in the United States. That's 1 in 6 kids. Since 2008, the Ad Council has teamed up with Feeding America to bring attention to this issue—and the collaborative efforts to end it. New PSAs feature real life moments that illustrate the lengths people go to help kids every day, and encourage viewers to visit [FeedingAmerica.org](http://FeedingAmerica.org) to support the Feeding America nationwide network of food banks and join the fight to end hunger in America.

<b>Recycling</b>	<b>8:46 AM, 9:51 AM</b> Jan 2,9,16,23,30 Feb 6,13,20,27 March 6,,13,20,27	:30 sec

When we recycle, we give garbage another life. Shampoo bottles transform into hairbrushes. Body wash bottles become toothbrushes. Toilet paper rolls turn into tissue boxes. Today, curbside recycling programs exist in 63% of American communities— making it more possible than ever to give new life to the products we use. Even so, only about a third of the 1,600 pounds of garbage every American generates each year gets recycled or composted. Don't let litter linger in landfills when it still has more to give! Motivate your community to learn more about what they can recycle—including bathroom and other personal care products—and to make recycling an everyday habit. Think what we could create if we all worked together to turn more trash into treasure.

<b>Connected</b>		

Anytime is a perfect time for families to connect with the outdoors – and each other. And even in cities, parents can find opportunities to take their kids on adventures – from hiking and biking to ice skating and snowball fights. These experiences are so valuable: Spending time in nature gives kids a chance to move, explore and engage in unstructured and adventurous play. Kids become fitter and leaner, have lower stress levels and develop stronger immune systems. They also become more creative, and have greater respect for themselves, other people, and the environment. New Discovering Nature PSAs remind parents and caregivers that families don't have to go far to find green spaces, parks, preserves and other outdoor destinations. By visiting [DiscoverTheForest.org](http://DiscoverTheForest.org) or [DescubreelBosque.org](http://DescubreelBosque.org), they can learn where to connect with nature right in their own neighborhoods.

<b>Adoption from Foster Care TeenProofing</b>	<b>8:53 AM</b> Jan 2,9,16,23,30 Feb 6,13,20,27 March 6,,13,20,27	:30 sec

There are 112,000 children in the U.S. foster care system currently awaiting adoption. This campaign specifically spotlights the need to find permanent families for teens, who have lower overall adoption rates and wait longer to be adopted than younger children. More than 43% of all children available for adoption on AdoptUSKids.org are between the ages of 15 to 18 years old, but this age group represents only 5% of all adoptions in 2015.

Teens need the love of a caring parent to support them during their teen and adult years—from their first date to their first job. The campaign vividly demonstrates that "you don't have to be perfect to be a perfect parent" for teens in foster care—they'll love you just the way you are. The humorous, lighthearted PSAs aim to reassure prospective parents that even if they are not "perfect," they can provide the stability and security that teens in foster care need and deserve.

Americans between the ages of 25 to 34 often have big decisions to make. Is it time to buy a home? Get married? Start a family? These decisions are exciting – but they can potentially be expensive. Unfortunately, too many young adults lack the financial literacy skills to launch their lives and start saving for their futures. The Ad Council’s Financial Literacy campaign aims to help young adults develop smart savings habits. New public service advertisements (PSAs) encourage young adults to make savings a part of their everyday routine, directing them to free online tools where they can develop the savings savvy they will need throughout their lives. Together, we can help them start building towards their dreams today – and prepare them for tomorrow.

For more than 34 million American adults without a high school diploma, opportunities are limited. Many of them are living in poverty. But it’s not too late. Since 2010, FinishYourDiploma.org has connected more than 1 million people with free adult education classes to help them earn their high school equivalency. These moving PSAs celebrate adult learners and reinforce the idea that no one does it alone. Everyone needs a support system of people who care, and that starts with you.

<b>Texting and Driving Prevention</b>	<b>8:22 AM</b> Jan 2,9,16,23,30 Feb 6,13,20,27 March 6,13,20,27	:30, sec

Although most people agree that looking at a phone while driving is distracting and can increase the chance of an accident, a lot of drivers still think “it can’t happen to me.” That means drivers in your community are posting, liking, commenting and browsing while they are behind the wheel even though they know it’s a bad idea. In fact, 25% of teens respond to a text message once or more every time they drive. No matter how confident a person is in their driving skills, there are no special abilities that make it safe to use a phone while driving. New PSAs aim to remind young adults 16-34 that being special in all other aspects of their lives does not make them special enough to text and drive.

Kids can always find a reason not to wear seat belts, and as parents or caregivers we can sometimes give in to their persistent objections. But one fact overrides all their weeping and whining: from 2009 to 2013, 1,522 children ages 8-14 died as passengers in motor vehicles, and almost half were unrestrained at the time. It’s mandatory for kids to always buckle up, even on a quick trip around the corner. A new PSA campaign sends a clear, emphatic message to parents and caregivers of kids in cars: no excuses, no exceptions—wearing a seat belt is simply non-negotiable.

More than 1 in 3 American adults have prediabetes and are at high risk of developing type 2 diabetes, a serious health condition that can lead to heart attack and stroke. Nearly 90% of those 84 million adults with prediabetes don't even know they have it. For them, learning they're at risk can be motivation as prediabetes can be reversed through weight loss, diet changes, and increased physical activity. In new lighthearted PSAs, people are encouraged to assess their prediabetes risk by taking a short, one-minute test in real-time while doing something we know they love - watching adorable animal videos. <b>AARP Bath</b>		

More than 40 million Americans currently care for an aging loved one. It may start with a simple errand or scheduling a doctor’s appointment, but over time caregiving can expand to a significant responsibility. Many caregivers are boomer women, often sandwiched between the needs of their parents and their own kids. These women want to provide the best possible care, but can feel stressed and isolated when they can’t meet their own high expectations. The impact is significant: 1 of 5 caregivers reports a decline in the quality of their physical, emotional and social well-being. New Caregiver Assistance PSAs spotlight AARP’s online Caregiving Resource Center as a source of valuable information, tips and tools to help women not only care for their older loved ones but also care for themselves.

<b>Save the Food Gourmet</b>		

Did you know that, across the entire production and consumption chain, about 40% of all food in the United States goes to waste? Most families don’t realize how much food they toss out—an average of 1,000 pounds per year per family of four. In an imaginative new PSA, a single strawberry personifies the wondrous lifecycle of food and the loss of resources when it goes unconsumed. The campaign’s website [SaveTheFood.com](http://SaveTheFood.com) shows how making shopping lists, freezing food and using leftovers can significantly reduce the 20 pounds of food each person throws away in a single month. By sharing these PSAs, you can help families in your community save the food.

<b>Don't Wait</b>		

The Ready PSA campaign from Federal Emergency Management Agency (FEMA) is designed to prepare American families for an effective response to whatever natural or man-made disaster may come next. While the country has experienced recent devastating natural disasters, such as earthquakes, wildfires, tornados and hurricanes, only 20% of Americans say they feel very prepared for a disaster. Yet 64% of Americans say disaster preparation is very important for people to do. The Ready campaign's resources can help close that gap. The PSA message—"Don't Wait. Communicate."— encourages Americans to talk to their loved ones and make a plan that's shared with all family members. The campaign also encourages Americans to be informed and build a kit with essential supplies that will last up to 72 hours. PSAs urge every American to visit Ready.gov and learn how to make their emergency plan today.

As many Americans continue to search for meaningful jobs, new PSAs demonstrate the direct link between the donations of used clothes and household items to Goodwill® and job creation. As the leading nonprofit provider of job training, career and community services, Goodwill uses the revenue earned from these donations to fund these critical programs. In 2015, Goodwill served 37.3 million people in the United States and Canada and helped place more than 312,000 in jobs. The PSA reinforces the impact individual donations have on creating jobs—and hope—for the community at large. At St. Jude Children’s Research Hospital, our mission is clear: Finding cures. Saving children. When you share our new PSAs, you’re helping St. Jude lead the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. Because most of our funding comes from individual supporters, families never receive a bill from St. Jude for treatment, travel, housing or food—because all a family should worry about is helping their child live. And St. Jude freely shares the discoveries made, so every child saved at St. Jude means thousands more children can be saved around the world and in your community. <b>Marines For all of Us</b>	Jan 30, Feb 6,13,20,27 March 6,13,20,27	

For over 240 years, Marines have been winning battles.

They win our nation’s battles.

They win battles to improve our communities.

They win battles within to earn the title of Marine.

In all battles, their most valuable weapon has never been a rifle, a battle strategy or a piece of equipment.

Their best weapon is their fighting spirit, a willingness to engage and a determination to defeat all enemies, figurative or literal. It’s in every Marine who’s ever served from the Halls of Matazuma to the shores of Tripoli all the way to streets of Main Street, USA.

The Marine Corps shapes the fighting spirit of all Marines by instilling in them every ideal, every tradition and every lesson ever learned from all their battles. During recruit training, the fighting spirit is sharpened to a razor’s edge so every Marine is ready to win all battles put before them. They do this not for glory but for honor. For a code that isn’t written or spoken but lived.

In the heart of every Marine, you’ll find a promise.

A promise forever kept.

A promise of Battles Won.

Car crashes are the leading cause of death for children ages 1 to 13. In 2010, 655 children (under the age of 13 riding in cars and trucks) were killed in crashes. Of those killed, more than 1 in 3 were unrestrained. According to the CDC, placing children in age- and size- appropriate car seats and booster seats reduces serious and fatal injuries by more than half.
