Inspired by real families' stories, this honest and heartfelt campaign reveals the remarkable value there is in adoption for both teens and parents. Since the campaign's launch 15 years ago, more than 30,000 children once listed on AdoptUSKids.org have been placed with permanent families.	:30	31

Child Car Safety	Kitty	Motor vehicle crashes are a leading cause of death for children age one to 13. Parents go to great lengths to ensure their children are safe and protected—but when it comes to car safety, many let their guard down. To ensure parents and caregivers are properly securing their children in the best car seat restraint for their age and size, they can visit NHTSA.gov/TheRightSeat or NHTSA.gov/Protegidos .	:30	30
COVID-19 Vaccine Education	Presidents	The It's Up to You campaign encourages audiences to get the latest vaccine information—knowing that personal education is the first step in building vaccine confidence. It's OK to have questions. We want to acknowledge Americans' concerns, provide answers to their questions, and get us all on the road back to the moments and people we miss most.	:60	20
Discovering Nature	Forest Trail	Studies show that when kids spend time outdoors, they become healthier, have lower stress levels and develop stronger immune systems. They also become more creative, and have greater respect for themselves, other people, and the environment. Our campaign encourages parents and caregivers to reconnect with their family and nature by experiencing it firsthand. Through exploration of local forests and parks, kids can build a lifelong connection to nature.	:60	35

Empowering Girls in STEM	Dare to STEM	While women make up half of the U.S. college-educated workforce, they hold only a little over a fourth of all STEM jobs. Research shows that young girls like STEM subjects—science, technology, engineering and math—but often feel that STEM isn’t for them due to outdated stereotypes. Girls are scared to fail in STEM, but She Can STEM shows girls that STEM is in everything, and experimenting is part of the journey.	:15	26
Ending Hunger	Teacher	These are uncertain times for everyone, but for households facing hunger, the coronavirus fallout—including school closures and job disruptions—can present an even greater threat. Millions of Americans, including children, will turn to food banks for much needed support. As the largest hunger-relief organization in the United States, The Feeding America network of food banks feeds millions of families each year, especially during times of disasters and national emergencies.	:30	22

St. Jude's Children's Research Hospital	Making a Difference	At St. Jude Children's Research Hospital, our mission is clear: Finding cures. Saving children. Because most of our funding comes from individual supporters, families never receive a bill from St. Jude for treatment, travel, housing or food—because all a family should worry about is helping their child live.
