Dear Licensee:

This refers to the above-mentioned application dated May 4, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the purpose of this STA application is to allow the WSAV-TV facility to operate at reduced power on its pre-transition channel (39) using an interim antenna while new post-transition antenna is installed. You mentioned that the WSAV-TV's reduced operation will completely encompass its community of license with the 48.0 dBu principal community contour and will not exceed its licensed protected noise limited contour in any azimuthal direction.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on November 11, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding  
Associate Chief  
Video Division
