6/19/16	"	
6/26/16	Andrea Taylor	Civil Rights Institute

FIGHTING FOR YOU

Prepared July 8, 2016 by Karen Swann, Promotion Manager

Who: ABC 33/40 – WABM MY68 – WTTO CW21

What: Fighting For You is an advocacy program dedicated to serving the public by solving problems that individuals may not have the resources to handle personally. The public is invited to send descriptions of issues they are having and ABC 33/40 attempts to aid them with their problem.

Donated air time value and on-site promotion:

Total Value: approximately \$51,050

This includes 1,021 promos across all stations where inventory was available. The flight is ongoing (entire 1st quarter) including news coverage, and numerous Facebook/Twitter posts.

aaa Indicates announcement is on locked log -a- indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
 Both parts of bookends and piggy backs are combined.
 Only the first member of a rotation group is shown, the may differ from what eventually is aired.
 In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIR.
 The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

aaa indicates announcement is on locked log -> indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:

Both parts of bookends and piggy backs are combined. Only the first member of a rotation group is shown, the may differ from what eventually is aired.

In the case of locked logs both parts of bookends and piggybacks are shown, each with their own A/R.

The counts for each group indicate the number of spots where it was possible to establish an equivalent A/R.

aaa indicates announcement is on locked log -> indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, the may differ from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own alt.
The counts for each group indicate the number of spots where it was possible to establish an equivalent alt.

In the case of unlinked logs:

Both parts of bookends and pluggy backs are combined:

Only the first member of a rotation group is shown, the may differ from what eventually is aired.

In the case of linked logs both parts of bookends and pluggy backs are shown, each with their own A/B.

The counts for each group indicate the number of spots where it was possible to establish an equivalent A/B.

aaa Indicates announcement is on locked log -> Indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unclocked logs:
Both parts of bookends and pickup backs are continued.
Only the first member of a rotation group is shown.
In the case of locked logs both parts of bookends and pickupbacks are shown, each with their own AUC.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

aaa indicates announcement is on locked log -? indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of locked logs:
Both parts of bookends and play books are combined.
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of locked logs both parts of bookends and playbooks are shown, each with their own AUE.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AUE.

aaa Indicates announcement is on locked key -> indicates announcement on unlocked key. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:

Both parts of bootlegs and jibby backs are contained. Only the first member of a relation group is shown, the may differ from what eventually is aired.

The counts for each group indicate the number of spots where it was possible to establish an equivalent AUR.

aaa indicates announcement is on locked log -> indicate announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been supplied to the spots.

In the case of unlocked logs:
Both parts of bookends and plug-in books are combined.
Only the first member of a rotation group is shown, the rest will be omitted.
In the case of locked logs both parts of bookends and plug-in books are shown, each with their own ALC.
The counts for each group indicate the number of spots where it was possible to establish an equivalent ALC.

aaa Indicates announcement is on locked log. -+ indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and pilot books are outlined.
Only the first line of a bookend group is shown, the rest of the group is shaded.
In the case of locked logs both parts of bookends and pilot books are shown, each with their own Alt.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AUR.

aaa indicates announcement is on locked log -> indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIRC.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIRC.

aaa indicates announcement is on locked log -> indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and play backs are combined.
Only the first member of a motion group is shown, unless otherwise noted.
In the case of locked logs both parts of bookends and playbacks are shown, even with their own AIRL.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIRL.

aaa indicates announcement is on locked log -> indicates announcement on unlocked log. Note that announcements placed on actual contracts with only allow as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and program breaks are combined.
Only the first member of a rotation group is shown, any other from that eventually is aired.
In the case of locked logs both parts of bookends and program breaks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

aaa Indicates announcement is on locked log -a- Indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined.
Only the first member of a rotation group is shown, but all spots offer from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AUC.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AUC.

In the case of unlinked logs:

Both parts of bookends and play backs are combined. Only the first member of a rotation group is shown, the may differ from what eventually is aired.

In the case of linked logs both parts of bookends and playbacks are shown, each with their own AIR.

The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

In the case of unlinked logs:

Both parts of bookends and piggy backs are combined.
Only the first member of a rotation group is shown, the rest are omitted.
In the case of linked logs both parts of bookends and piggybacks are shown, each with their own AIR.

The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

In the case of unlinked logs:

Both parts of bookends and piggy backs are combined. Only the first member of a rotation group is shown, this may differ from what eventually is aired.

In the case of linked logs both parts of bookends and piggybacks are shown, each with their own rate. The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

In the case of unlocked logs:

Both parts of broadcast and story lines are combined.

Only the first part of a broadcast group is shown, this may differ from what eventually is aired.

In the case of locked logs both parts of broadcast and story lines are shown, each with their own Alt.

The counts for each group indicate the number of spots where it was possible to establish an equivalent Alt.
