

## WABE Delayed Upload Explanation

The quarterly issues and program reports for WABE(FM) for Q2 2023 and Q3 2023 were both completed on a timely basis (on July 5<sup>th</sup> 2023 and October 11<sup>th</sup> 2023, respectively) and were available from the station at that time. Although the reports were completed in a timely manner, the upload to the online public filed was inadvertently delayed as result of staff changes, which have now been addressed. WABE is working diligently to document processes and responsibilities to ensure more seamless transitions and eliminate the possibility of any future delays
