

Note on federal government shutdown during the  
first quarter of 2019:

The FCC's Online Public Inspection File (OPIF) was not available for uploading documents until January 27, 2019.

Because of this shutdown the Commission extended the deadline for uploading Q4 2018 (FCC Public Notice DA-19, dated January 2, 2019) Issues and Programs Reports until two business days following the resumption of normal operations.
