

QUARTERLY ASCERTAINMENTS/ COMMUNITY ISSUES

STATION: WCMD

PROGRAM: Allegany Radio Corporation Community Forum

SUBJECT: Preparedness Month

DISCUSSION: September is National Preparedness Month, which was started after the September 11 terrorist attacks. The month is dedicated to make sure people are prepared for all types of disasters that could affect our area. Some tips include making an emergency plan, and putting together an emergency kit. National Preparedness Month makes sure people are ready for any disaster, both natural and man made.

PROGRAM: Allegany Radio Corporation Community Forum

SUBJECT: SHA public meeting and road changes

DISCUSSION: The SHA is urging people to come to a public meeting to discuss the proposed Route from Cumberland to Meyersdale in Pennsylvania. Due to recent budget increases, the SHA will be able to put on public meeting. Everyone is urged to attend. This route could help make economic ties between Meyersdale and Cumberland more viable with a direct road that connects the two cities.

PROGRAM: Allegany Radio Corporation Community Forum

SUBJECT: Obesity Study

DISCUSSION: The Trust for Americans obesity study has been released. This is an annual look at obesity in America. This is a state-by-state study that quantifies obesity in each state, and gives recommendations for what should be done. West Virginia was tied with Mississippi as most obese state. While only 6 state's say their obesity numbers rise, there was still an unacceptable amount of obesity in many others.

SUBJECT: Let Summer be Summer

DISCUSSION: Maryland comptroller Peter Franchot is spearheading a campaign called Let Summer Be Summer that aims to push back the start of the school year till after Labor Day. According to Franchot it doesn't make much sense financially to start school till after the major holiday. Small businesses could be missing out on tens of millions of dollars in revenue by having a shorter summer holiday window.

SUBJECT: Marcellus Shale study

DISCUSSION: With our area sitting on top of the massive Marcellus Shale, there is lots of talk about drilling into the shale. This study looked at the benefits and disadvantages of doing such drilling. What the study found was that within ten years after 2017, there would be a boom of economic activity and an increased active work force. This is important for area, which needs to seek alternate ways to get people jobs.
