KMUW focused on the following topics through local news coverage for Wichita and Kansas. Our participation in the Kansas News Service for public radio stations continues, and the KMUW news department covers these issues in the community for broadcast and online platforms with photos and links for every story. We also provide additional coverage online at kmuw.org for many stories we can't fit into the broadcast schedule. Our news team of seven was supplemented by two interns (from the WSU communications school), who have provided additional energy and passion for local coverage.

Ascertainment topics come from community projects which surveyed locals (Project Wichita, Focus Forward, and The Chung Report) which continue seeking to improve the community's trajectory and address the needs of residents in the coming years. KMUW participates in this mission most notably via its civic engagement discussions, called EngageICT. In this way as well as regular contact with listeners, the station continues collecting input on topics relevant to Wichitans in order to best inform them.

Issues List:

Business/Economics/Finance
Education
Quality of Life/Placemaking
Diversity
Environment
Health
Government
