

KMUW has addressed the following topics through local news coverage for Wichita and Kansas. We continue our participation in the Kansas News Service for public radio stations, and the KMUW news department covers these issues in the community for broadcast and online consumption (including photos and links for every story). Plus, we provide additional coverage online at [kmuw.org](http://kmuw.org) for the many stories that we cannot fit into the broadcast schedule. Our news team of seven was supplemented this quarter by two interns (from the WSU communications school), who have provided additional energy and passion for local coverage.

Ascertainment topics this quarter are derived from community projects aimed at surveying locals. These include Project Wichita, Focus Forward, and The Chung Report, which are seeking to improve the community's trajectory and address the needs of residents in the coming years. KMUW participates in this mission as well via its civic engagement discussions, called EngageICT. In this way as well as through regular contact with listeners, the station is able to collect input on the most relevant topics to Wichitans in order to inform them to the fullest extent possible.

**Issues List:**

- Business/Economics/Finance
- Education
- Talent/Workforce
- Quality of Life/Placemaking
- Diversity
- Environment
- Health
- Government
