

During the fourth quarter of 2019, KMUW focused on the following topics via local news efforts for Wichita and Kansas. Our partnership with the Kansas News Service for public radio stations has become stronger than ever, enabling our listeners to enjoy more regional news in addition to the hyper local. KMUW news staff covers issues in the community for broadcast as well as online platforms (with photos and links for every story). Offering news on a variety of platforms has become an excellent way to increase reach and service to our listenership. Our news team of seven is also supplemented by stellar interns. We had two from the WSU communications school this semester, and those individuals have provided additional local coverage while learning from our award-winning radio talent.

Ascertainment topics continue to come from community projects and efforts focused on surveying residents. They also continue addressing the needs of residents at a very important time in our city/region. There is so much energy around making Wichita all that it can be, and KMUW participates in this effort most notably with its civic engagement event series, Engage ICT. Through these efforts as well as countless individual conversations with staff, the station continues collecting input on topics relevant to Wichitans in order to best inform them.

**Issues List:**

- Business/Economics
- Education
- Energy/Environment
- Government
- Health
- Quality of Life/Placemaking
- Diversity
