This edition of WHIO Reports focused on the newly formed Montgomery County Drug Coalition. Guests discussed the prescription drug and heroin problem that has become a big issue all across the Miami Valley. The police are shutting down pill mills in the region which is helping to make them less available. But many addicts do not recognize the concern over the lethality of the drugs they are taking and mixing in their bodies and still have the means to get on the street. The goals of the coalition is to educate the public on the dangers of addiction to drugs, find out which resources are working and provide funding to solve the problem. The public needs treatment options and the show of concern on behalf of the police and community are helpful to resolve the issues.

"Austin Landing Development"

11/17/13

11:30AM

This edition of WHIO Reports focused on the Austin Landing Development and the economic impact on the area particularly the Dayton Mall. Two newly appointed Miami Township trustees discussed their interest in focusing on the development of new technology and fiscal responsibility in the township. The Austin Landing development is very important to the future as the first phase is nearing completion. It was originally intended to be a business park with few retail businesses but that was changed over time due to possible taxation issues and community demand. Austin Boulevard has space beyond Austin Landing to continue to develop the area travelling up 741 to the Dayton Mall area. It is a very exciting prospect and will be a profitable addition to the Miami Valley. There is some concern regarding the coexistence of Austin Landing and the Dayton Mall particularly retail but a relationship between the two can establish success for both.

TOTAL TIME: 24:20**"Ohio's Great Corridor"**

12/15/13

11:30AM

This edition of WHIO Reports focused on the development opportunities around the Great Miami River. The University of Dayton and the River's Institute over the years have created initiatives that created the common vision of community leaders and possibilities for recreation, industry, and technology. Outdoor recreation is a billion dollar industry so the region wants to tap into this by creating marinas, amphitheatres, levees, etc. among the many cities/areas committed such as Miamisburg, Troy and Dayton. Municipalities are seeing budget restrictions on potential developments which is forcing leaders to be more creative. Improving the river corridor has solid financial benefits industrially as well as setting the region up as a destination.

"Home Foreclosures"

12/22/13

11:30AM

This edition of WHIO Reports focused on home foreclosures and the status on the rebound from the recession. The borrowing of loans by interested homeowners and subsequent fraud by banks played into the foreclosure issue. The guests advised that if you are under the threat of foreclosure, do not vacate as the process can take awhile. Those under the threat should reach out to organizations such as the HomeOwnership Center for assistance. We have 55,000 less than jobs in the area than 5 years ago so shame that some feel should not be a deterrent. While we are rebounding from the recession in the area, we are not yet in the clear.

"School Levies"

10/20/13

11:30AM

This edition of WHIO Reports focused on upcoming school levies on the ballot for the November election. Superintendents from a few local school districts discussed how levies work and the history of levies in their districts. Many discussed staff reductions, pay freezes, and budget cuts imposed to try and adjust to limited funding and the failure of past levies. State cuts significantly affect the need for levies on the ballot. School districts are cutting what they can but need the trust of citizens to pass levies so as not to significantly harm the quality of the education given to students. Education is the backbone of our country and our future competitiveness in a global economy so although residents are hurting financially due to the economy and recent government shutdown, the educational quality of students is very important. Levies are a necessity to ensure that quality is maintained.

"Affordable Health Care Act"

10/6/13

11:30AM

This edition of WHIO Reports focused on the Affordable Care Act also known as Obamacare. Guests discussed the main purpose of the legislation and what it means for families in the Miami Valley. Lower cost and better quality outcomes for those without insurance are goals of the Affordable Care Act. It also aims to Incentivize those in the healthcare industry who now only make money if people are sick. Access, quality, insurance companies, doctors, and hospitals will all be affected. People covered by their employer's coverage can be affected by decisions made by companies on coverage due to the act. Those who want to retain good employees should try to make decisions that are in their best interest. Chronic diseases have skyrocketed. Emergency room care is the least efficient way to care for them due to a lack of access to the underlying problems and not just the symptoms. Businesses and individuals should be looking into the impact of the act now and determining the best solutions for their situation.

"Flu Season"

11/10/13

11:30AM

This edition of WHIO Reports focused on the Flu Season. Guests discussed the need for preventative measures to stay healthy such as washing hands frequently and coughing or sneezing into a tissue or your elbow. Eating well and exercising regularly also contribute to staying healthy. Flu season is considered to be the peak time when cases of influenza rise which can be from early winter to early spring but cases appear all year around. To debunk any myths, the flu is considered an upper respiratory illness that causes the body to ache and enhanced symptoms of a cold such as a fever. One of the biggest misconceptions is that you can get the flu from getting a flu shot which is not the case. Guests suggested that getting a flu shot should be a priority for everyone as soon as it becomes available starting from a 6 month old child to senior citizens. The flu shot is good for one season or year.

TOTAL TIME: 24:30**"Charitable Giving"**

12/8/13

11:30AM

This edition of WHIO Reports focused on charitable giving and scam prevention. Americans are very generous during national disasters and the holidays. Scammers are aware of this and are targeting people to get a piece of the proceeds. Guests advised people to contact the Better Business Bureau or research online to check tax exemption status. People may receive letters, phone calls and even door to door solicitors attempting to get donations. Electronic correspondence is also a great way for scammers to target people now. Caution should be taken with inquiries that want a donation immediately as scammers often want money quickly to move on to the next victim. Find an organization that is trusted and well-known. There are so many people in need that benefit from the legitimate organizations in the Miami Valley but be prudent and don't make decisions solely based on emotion.

Guests: Joe Baldasare, Vice President of Development, The Dayton Foundation; John North, President, Dayton Better Business Bureau

“Winter Weather Preparedness”

12/29/13

11:30AM

This edition of WHIO Reports focused on the winter season and preparations for inclement weather conditions. Between 24 and 48 hours, guests suggest people begin to get ready for a major weather event. The Red Cross and Montgomery County Emergency Management Agency rely on the news and the National Weather Service to receive important information on conditions and begin to get the word out and prepare for response. Social media enhances the immediacy of information distribution and creates more avenues to reach people. Recommendations are to have food, clothing and first aid materials ready for at least 3 days of use and stay informed. The biggest concern is power outages. Guests encouraged viewers to make sure to pay attention to children, the elderly and pets during these periods of inclement weather. Although weather alerts of watches and warnings may seem a bit of an overkill, people need to take them seriously as it only takes one time to not heed to endanger your life or property.

48 HOURS

10/05/13 **48 HOURS: "Spies, Lies & Secrets"** - a report about the death of Shane Todd, a brilliant, high-tech engineer at a Singapore company who, according to his parents, was murdered because he was unwilling to share secrets that could harm the United States. But, to the police in Singapore, he was just an American who committed suicide. In 2012, Todd, then a research engineer at the Institute of Microelectronics (IME), was found dead in his Singapore apartment. His parents believe he was killed because he was unwilling to go along with a plan to share cutting-edge American technology with China. He was scheduled to leave Singapore in a matter of days when he was found dead. Journalist and 48 HOURS consultant Ray Bonner, who broke the story in London's Financial Times, says police made mistakes in the investigation, and that he is quite surprised, because Singapore is a sophisticated place. With pressure mounting, Singapore expanded a coroner's inquest into Shane Todd's death. In all, seventy witnesses testified over the course of ten days of testimony. The state's coroner ruled that the cause of death was suicide by hanging. He also found nothing legally wrong with the IME - Huawei relationship, yet determined that the meeting Shane's boss had with IME colleagues was "improper, but not witness tampering." Shane's family feel betrayed, and plan on taking their quest for truth to Washington, pressing for a congressional investigation and a meeting with President Obama. **On-Screen Text Graphic:** The Todds are expecting their first grandchild. He will be named Truman. Interviewed: Shane Todd's parents, Mary and Rick Todd; his brothers Chet, John and Dylan Todd; journalist/48 HOURS consultant Ray Bonner; Shane's girlfriend Shirley Sarmiento; neighbor Michael Goodwin; certified forensic computer analyst Ashraf Massoud; Dr. Edward Adelstein, chief of pathology, VA Hospital, Columbia, Missouri. According to what Frederick Mueller told police, while the Muellers were out hiking, Mueller stopped to take a photo of his wife near the edge of a cliff. His wife lost her footing near the waterfall and plunged into a creek. Her body was swept away downstream. It appeared to be an accident, but investigators were skeptical and believed it was murder. Four years later, Mueller was arrested for first degree murder. His first trial ended in a mistrial. The second trial ended this week in another mistrial. 48 HOURS examined the incident and the trials through interviews with the Mueller family, investigators, prosecutors, and jury members. **On-Screen Text Graphic:** On Tuesday, the prosecution and defense will meet with Judge Wasserman to discuss the future of the case. 10/19/13 **48 HOURS: "aka Rockefeller"** - a report about the mysterious life of Christian Gerhartsreiter, a con-man, who had pretended, since he came to America from Germany, to be a bond trader, a TV producer, a baronet and even Clark Rockefeller, a member of the famous and wealthy Rockefeller family. In 2008, Gerhartsreiter, then claiming to be Clark Rockefeller, made headlines when he abducted his 7-year-old daughter. The Rockefeller family made it clear that he was not a part of their family. What he was, according to police, was a killer on the run. His arrest in the kidnapping case blew the lid off a 30-year con. All the other identities he had used came to light including the alias he was living under in 1982 in San Marino, California: Christopher Chichester, the 13th Baronet of Chichester. San Marino police believe he murdered John and Linda Sohus, who disappeared in 1985. Years later, the bones of John Sohus were found in the backyard of the house where they lived. At the time, Christopher Chichester lived in the guest house on the property. He went on trial for the murder of John Sohus and was found guilty. **On-Screen Text Graphic:** "Rockefeller" fired his lawyers and filed his own petition for a new trial. The judge denied the motion. His daughter is now twelve-years-old. She has no contact with her father. 10/26/13 **48 HOURS: "The Ghosts of Greenwich" (9:00-10:00p)** - an updated rebroadcast about: (1) the murder of 15-year-old Martha Moxley in Greenwich, Connecticut, as detailed in "Never Forget" (OAD: 05/11/00), and "Above the Law" (OAD: 04/13/02); and (2) the new developments in Kennedy family member Michael Skakel's efforts to overturn his 2002 murder conviction of Moxley, which were detailed in the following 48 HOURS reports: "RFK, Jr: A Family's Defense" (OAD: 04/16/03); "The Ghosts of Greenwich" (OAD: 09/10/03, updated on 08/30/08). This broadcast takes a look at the recent developments in Skakel's case and his upcoming new trial. In 1975, Moxley was murdered. Members of the Skakel family were among those considered as suspects, but the case went cold. Years later, a new investigation, prompted by the publication of the book "Murder in Greenwich", led to the arrest and conviction of Michael Skakel. His brothers and his cousin, Robert F. Kennedy, Jr., believe he was wrongly convicted. In 2003, Kennedy wrote an article for The Atlantic Monthly, which outlined his reasons for claiming that Michael Skakel was wrongly convicted. A petition for a new trial was denied. The Skakel family continued to file appeals. In April, 2013, Michael Skakel testified in court that his lawyer, Mickey Sherman, did not properly represent him. This week, a judge agreed and a new trial was granted, based on this evidence. **On-Screen Text Graphic:** Mickey Sherman says Michael Skakel is innocent and deserves a new trial. Skakel's new lawyer is now working on getting him released on bail. The State plans to appeal the judge's decision. She had had a tumultuous relationship with Nathaniel Fujita: they dated for three years, with continual breakups and reconciliations. At the end of their senior year of high school, Lauren had broken the relationship off for good and was looking forward to college and meeting new people. Fujita, too, was to go to college, but he struggled to come to terms with the breakup. His mother, worried about him, took him to a psychiatrist. Their relationship was discussed by their friends on social media. Lauren secretly visited Nathaniel one last time to see how he was doing -- the meeting proved fatal. Two families were forever changed. Through interviews with friends, police investigators, Nathaniel's uncle and Lauren's parents, their relationship is examined. Her husband, David Pietz, told police he suspected she was possibly abusing drugs again. David was also unfaithful. Police had few clues and the case went cold. From the beginning, Gael Schneider believed David knew more than he was saying and started a six-year campaign of harassment: she confronted David at work, left messages at his home and continued to urge investigators take another look at the case. Eventually, two new detectives pieced together enough evidence to arrest David Pietz for murder. They were convinced David strangled her. He was charged with second-degree murder. In September 2013 the case went to trial: David Pietz was found guilty. **On-screen text graphic:** On Thursday, David Pietz will be sentenced. He faces ten to eighteen years in prison. 48 HOURS (continued)

11/16/13 **48 HOURS: "The Devil's Twin (10:00-11:00pm)** - an investigation into the July 24, 2003 disappearance and murder of Heather DeWild, who was never seen again after a visit with her children to her estranged husband Dan DeWild's house, and how television crime dramas may have given her killer enough information to keep police from quickly solving the case. Police immediately suspected Dan DeWild, but there was no murder weapon, no fingerprints, no blood. His identical twin, David DeWild quickly married his girlfriend, Roseanne. Heather's body was found one month later, bound and buried on a canyon road. Police came to the realization that Dan DeWild and his identical twin brother David were most likely responsible for her murder, but the case grew cold due to lack of evidence. In 2009, Russ Boatright was assigned full-time to the circumstantial case. Investigation led to a sex tape, and Dan's fascination with bondage and rope. Heather was found bound in a similar manner. In 2011, Dan DeWild, David DeWild and his wife Roseanne were arrested and charged with murder. David DeWild broke down and admitted that his brother Dan had killed Heather and that he had participated in the crime. Prosecutors then learned that the brothers had been watching television crime dramas and forensic shows. They believed that Heather had gone to the house to retrieve the sex tape and then was killed. David DeWild took investigators to the crime scene and re-enacted what happened. David had to pass a polygraph test in order to secure a plea deal. Roseanne's charges were dropped due to lack of evidence. Dan DeWild's trial hinged almost entirely on his brother's testimony and with the lack of physical evidence, prosecutors hoped it was enough. In the end, it wasn't. Jurors deadlocked on the first degree murder charge, but agreed on the lesser charges. Plans were started for a retrial, but a month after the conviction, Dan DeWild pled guilty to second degree murder in a plea deal. **On-screen text graphic:** The identical twins have been separated...they are housed in different prisons. David DeWild will be eligible for parole in less than four years. Interviewed: Dave and Carole Springer, Heather DeWild's parents; Rebecca Barger, Heather's sister; Mark Crider, detective, Denver Police Department; Al Nelson, deputy sheriff; Curtis Johnson, highway worker; Russ Boatright, investigator-in-charge; Robert Weiner, prosecutor; Tom Ward, Dan DeWild's defense attorney; jurors Vicki, Chris and Scott (no last names); Roseanne DeWild, Dave's wife. (C: Erin Moriarty - P: Lisa Freed)

11/23/13 **48 HOURS: "Hollywood Secrets"** - a report on the investigation into the 2008 murder of Juliana Redding, an aspiring actress and model, and the eventual subsequent trial. Redding was found dead in her Santa Monica, California home. According to authorities, the killer hoped to erase any evidence of the crime; the killer tried to blow up the entire crime scene by leaving the gas on and a candle burning. This did not happen, and there was plenty of DNA evidence remaining at the scene. A sometime boyfriend, John Gilmore, who had a history of violent behavior had an alibi and was cleared. Further investigation led to the discovery that Redding had recently broken up with her wealthy boyfriend, Dr. Munir Uwayda after learning he had a wife and children in Lebanon. Investigators also learned of a lucrative business deal offered to Redding's pharmacist father. Less than a week after the deal fell apart, Redding was dead. Inside the home, police found evidence of a struggle and DNA evidence that led to a woman: Kelly Soo Park. Park was in the employ of Dr. Uwayda. She was arrested and within days Uwayda had vanished. Five years later, the trial commenced. While authorities thought the case was an easy win, the defense, with the help of jury consultant Lee Meihls, presented a bold argument of DNA transference. The eventual outcome: Park was found not guilty. **O n-screen text graphic:** The fraud investigation of Doctor Munir Uwaydah continues. His California Medical license has been canceled. Kelly Soo Park is living in Southern California managing a restaurant. Interviewed: Alan Jackson, former Los Angeles prosecutor; Jack Leonard, LA Times writer; Birgit Jarsen, attorney; Cindy Ogden, real estate agent; Genevieve Stewart, friend of Redding; Dr. Nathan Lents, professor, John Jay College; Lee Meihls, jury consultant. 11/30/13 **48 HOURS: "Walking Free"** - a followup to "Murder on Lockhart Road" (OAD: 12/09/06) which itself was a followup to "The Alibi" (OAD: 10/11/02) detailing the story of David Camm, who was convicted in two murder trials -- each eventually overturned -- and was found not guilty in his third trial for the murder of his wife and two children. Camm was found guilty of murder in 2002 but the conviction was reversed in 2004. Following the appeal, a critical piece of evidence was tested: unknown DNA was put through a national database which led to ex-con Charles Boney. Police believed both Boney and Camm worked together. They went on trial separately and both were convicted. In 2009, the Indiana Supreme Court overturned Camm's second conviction. Boney's conviction still stood. His wife's parents still believed Camm was guilty. The State decided to try him a third time. Defense attorneys used a different strategy, involving DNA. In this trial, Boney testified that he provided Camm with the gun and that any of his DNA was put there by Camm. Camm was found not guilty. **On-screen text graphic:** David Camm is working with the group "Investigating Innocence," based in Illinois. He's a case worker helping others who have been wrongfully convicted. David Camm's legal team is exploring a potential lawsuit against the State of Indiana. David Camm hopes to reconcile with Jane and Frank Renn, Kim's parents. Both had strained relationships with Lanny. The investigation led investigators to the knowledge that theirs was a deeply troubled family. Both Radley, a former gun dealer, who also served a stint in prison, and his mother Donna, who was bothered by her ex-husband's close relationship with female business partner Francine Tice, were considered suspects. Eventually, Donna was arrested and charged with first-degree murder. At the trial, the defense ultimately blamed her son, Radley. The jury made a quick decision: Donna was guilty. 12/21/13 **48 HOURS: "Highway of Tears"** - A report on the more than twenty girls and women, who since 1969, have disappeared or been killed along the stretch of pavement in rural British Columbia, Canada, known as Highway 16. To locals, the road is now known simply as "The Highway of Tears". Maddy Scott may be one of the roadway's many victims. On May 28, 2012, the 21-year-old went to a party with 50 others at Hogsback Lake, not far from the highway, only to never be seen again. Just six months earlier, in the same town, 15-year-old Loren Leslie's body was found on a logging road not far from Highway 16. Leslie was brutally beaten and molested. There are signs all along Highway 16 warning women not to hitchhike because a killer might be on the loose, but the murders have not ceased. Police arrested 20-year-old Cody Legebokoff in Leslie's murder. A patrolman pulled him over, thinking he was poaching game. He had Leslie's ID in his truck. Her body was just down the road. Legebokoff has since been identified as the alleged killer of three others, though police have not revealed how they've connected him to the murders that occurred in 2009 and 2010. Still, because of his age, police know Legebokoff couldn't be responsible for all of the murders along Highway 16. Just two months ago, officials at the Royal Canadian Mounted Police (RCMP) got a break in some cases because they linked DNA samples from one of the highway's victims, Colleen MacMillen, found murdered in 1974, to Bobby Jack Fowler. Police also believe Fowler, a Texas native who worked as a roofer in Prince George, may have killed as many as twenty people in the United States and Canada. Victims of Highway 16 mentioned in this broadcast: Alberta Williams, Delphine Nikal, Lana Derrick, Monica Ignas, Monica Jack, Ramona Wilson, Tamara Chipman, Gail Weys, Pamela Darlington. **On Screen Graphics:** Cody Legebokoff, accused of murdering Loren Leslie and three other women, is expected to stand trial in September 2013. Investigators believe Bobby Jack Fowler may have killed as many as 20 people across the United States and Canada. **12/21/13 Updated Text Graphic:** Investigators believe Bobby Jack Fowler may have killed as many as 20 people across the United States and Canada. Cody Legebokoff, accused of murdering Loren Leslie and three other women, is expected to stand trial in 2014. 12/28/13 **48 HOURS PRESENTS: LIVE TO TELL:** a two-hour presentation, comprised of two rebroadcasts of separate "LIVE TO TELL" episodes, formatted as a two-hour edition: "**The Year We Disappeared**" (9:00-10:00p) - On August 31, 1979, John Busby, a Falmouth, Massachusetts police officer, was ambushed in his car by a gunman in a passing car who shot him point blank in the face with a shotgun. Although brutally wounded, Busby was able to write a note for police at the scene that said "Not an accident. Mel Reine." Melvin Reine, a convicted arsonist and suspected murderer of three people, was a local thug whose brother, John Reine, had been arrested by John Busby. For undetermined reasons, Melvin Reine had long intimidated the Falmouth police, and the attempted murder of John Busby was not aggressively investigated. Fearing for their safety, the Busby family moved to an undisclosed location in Tennessee. Twenty-four years after the shooting, in 2003, John Reine confessed to the police that his brother Melvin had indeed shot John Busby while he, Melvin, drove the car. However, because of the statute of limitations, the Reines will remain unpunished. Melvin is now institutionalized, in a state of dementia. On screen text graphic: John Busby and his daughter Cylin have written a memoir together, entitled "The Year We Disappeared". **Additional text graphic for 12/28/13 rebroadcast:** Melvin Reine died in November, 2013. Hill did not show up for work one day in September 2010, and her co-workers grew concerned when she did not answer texts or phone calls. Police were summoned after Hill's boss drove to her home and found her car still in the driveway. She was found by police, at the bottom of the basement steps, barely breathing and covered in blood. Believing she was dying, Prairie Village Police Officer Bill Baldwin tried to coax out of her who was behind the vicious attack. Doctors were not sure that she would survive; she was beaten and her throat slashed open. They spent hours treating her. Police found out that Marti was a workaholic, and if she was not working, she was at home. Her ex-husband was ruled out as a suspect. Hill's mother alerted police towards Brian Pennington, a construction worker whom both she and Marti had hired to do work. Police questioned him and became suspicious, but needed to hear Marti's side of the story. They soon learned she was recovering and able to talk to police. She confirmed to police that Brian Pennington had attacked her; he was arrested for attempted first-degree murder. Frustrating to police was the fact that Pennington apparently had absolutely no motive. However, they found that he had a record of over sixty contacts with law enforcement officers, including several domestic violence incidents involving women. During the preliminary hearing, Pennington eventually agreed to a plea deal; the only issue would be how long he would be held in the Kansas State prison system. It took months, but finally a twenty-eight-and-a-half year prison sentence was agreed upon. To this day, no one knows why Pennington attacked Marti Hill. **Onscreen text graphic:** We wrote to Brian Pennington to ask why he attacked Marti Hill. He did not respond. Marti has created a website to help women recover from traumatic events.
