48 HOURS: “Death on Safari” (9:00 – 10:00p) - a report on the death of Bianca Rudolph, which occurred while she was on a safari vacation with her husband, Dr. Lawrence (Larry) Rudolph, and the international investigation that followed. The Rudolphs were getting ready to head back home after a safari vacation in Zambia in October 2016 when Bianca suffered a fatal gunshot wound to the chest. The couple were experienced hunters. Larry, a successful dentist with several offices near Pittsburgh, PA, told local authorities that he was in the bathroom of the couple’s two-room cabin when he heard a shot and found his wife dead in the next room. Larry said his wife was packing up a shotgun in a soft-shell gun case; he first told a local hunting scout that his wife had died by suicide, but later told investigators that the gun must have accidentally fired. After two days of investigating, Zambian police closed the case, calling it an accident. There were questions early on about how Bianca could have accidentally shot herself in the chest with such a long-barreled weapon. Larry had his wife’s body quickly cremated in Zambia, which led a friend of Bianca’s to doubt this was an accident. Soon after Bianca’s death, the friend called the FBI. According to an FBI complaint, she also said Larry was having an affair with Lori Milliron, who managed the dental offices, and that Larry had been verbally abusive to Bianca; the friend also told the FBI that the couple fought over money. It took investigators five years to investigate the case. In December 2021, Larry was arrested for the murder of his wife; he maintains his innocence. Lori was arrested in February 2022 and faces seven federal counts. Original on-screen text graphic: The joint trial of Lawrence Rudolph and Lori Milliron is scheduled to begin in July. On-screen text graphic for the 09/10/22 rebroadcast: On August 1, 2022, Larry Rudolph was found guilty of murdering his wife, Bianca Rudolph. 48 HOURS: “The Suzanne Morpew Case: Nothing Is What It Seems” (10:00 – 11:00p) – a report on the disappearance of Suzanne Morpew and the case against her husband Barry Morpew. The Salida, CO mother of two vanished on Mother’s Day 2020, days after telling her husband she was “done” with their marriage. Police initially thought she was taken while riding her mountain bike, but also considered her husband. Over the course of the investigation, bizarre clues emerged: a spy pen that was able to record conversations, a chipmunk alibi and a tranquilizer gun. The spy pen was originally given to Suzanne to record Barry but backfired when it recorded a conversation between Suzanne and Jeff Libler, a Michigan man Suzanne was having an affair with; he was eventually cleared of any wrongdoing. Records revealed Barry’s cell phone pinging all around the Morpew home on Mother’s Day weekend 2020, which he maintained was because he was chasing and shooting at chipmunks. Also discovered in the couple’s dryer was a plastic cap to a syringe used to load a tranquilizer dart; no working tranquilizer rifle was found in the home, but Barry admitted to being an experienced tranquilizer dart gun shooter. Tests revealed the cap had Suzanne’s DNA on it, not Barry’s. Investigators also uncovered DNA on the glovebox of Suzanne’s Range Rover, which traced back to an unknown male connected to three sexual assaults. Even though Suzanne’s body was never found, police relied on the circumstantial evidence they gathered, Barry’s suspicious behavior and contradictory statements, scratches seen on his left arm when Suzanne disappeared, the vehicle forensics evidence and Suzanne’s disturbing texts, and arrested Barry in May 2021 for first-degree murder and other charges; Barry pled not guilty. In September 2021, a judge ruled there was probable cause to go to trial. Suzanne and Barry’s daughters – Mallory and Macy – stand firmly behind their father. 04/30/22 UPDATE: Judge Ramsey Lama replaced Judge Patrick Murphy. Barry Morpew's homicide trial was set to begin on April 28th, 2022. In April 2022, Judge Lama ruled that prosecutors repeatedly had missed deadlines and had failed to turn over important information in the discovery phase. On April 19th, 2022, as a pre-trial hearing was about to begin, District Attorney Linda Stanley filed a motion to dismiss the murder charges against Barry Morpew without prejudice, meaning the case could be refiled at a later date. In her motion for dismissal, DA Stanley told the judge that officials believe investigators are close to discovering the location of Suzanne Morpew's body. Defense attorney Iris Eytan denies Barry has any involvement in his wife's disappearance. Original on-screen text graphic: Judge Patrick Murphy disqualified himself based on a potential conflict of interest involving a possible witness. A new judge has been appointed. Barry Morpew's murder trial is scheduled for May 2022. The Morpew defense team has requested a change of venue. On-screen text graphic for the 04/30/22 updated rebroadcast: Today is Suzanne Morpew's birthday. She would have turned 51 years old. **On-screen text graphic for the 07/01/23 rebroadcast:** Suzanne Morpew’s body has never been found. In May 2023 Barry Morpew filed a \$15 million federal civil rights lawsuit against prosecutors and law enforcement officials stating he was wrongfully arrested, jailed and prosecuted. Interviewed: Aya Gruber, professor of law, University of Colorado, former defense attorney; Ashley Franco, reporter, KKTU, CBS affiliate in Colorado Springs; Dan Ridenour, local radio host; Melinda Moorman (Zoom interview), Suzanne’s sister; Cody Cox, Barry’s former employee; Ben LeMere, vehicle forensics expert, CEO, Berla Corporation; and Andrew Katers, owner & CEO, Animal Care and Equipment Services. 48 HOURS: “The Ring: The Murder of Patrick De La Cerda” (9:00 – 10:00p) - a report on the February 27th, 2018 murder of Patrick De La Cerda, who was expecting a delivery of an engagement ring for his fiancée, Jessica Devnani. De La Cerda was shot four times in the doorway of the home he shared with his father on the outskirts of Deltona, FL. The investigation exposed a meticulous murder plan crafted by a man jealous of the couple’s relationship: Devnani’s ex-boyfriend, Gregory Bender, who had been harassing the couple. Since Bender violated the restraining order the couple had against him by telephoning Devnani the morning of De La Cerda’s murder, he was arrested. A February 28th, 2018 search of Bender’s home led to the discovery in a trash can of several handwritten pages with a map of the murder scene and details of how to conceal the crime. Less than 48 hours after De La Cerda's death, Gregory Bender was arrested for murder in his front yard, after being released from the Orange County Jail. The trial included testimony from Bender’s ex-wife, Daymara Sanchez, about the murder plan; Bender’s defense insisted that the murder plan did not equate to guilt. The jury found Bender guilty of the charge of first-degree murder. In Florida, a conviction of first-degree murder carries an automatic life sentence without parole. Original on-screen text graphic: Gregory Bender’s attorneys say they plan to appeal his conviction. They contend the search of his house that produced the murder plan was illegal. 48 HOURS: “The Case Against Michael Politte” (10:00 – 11:00p) - a report on Michael Politte, who was 14-years-old when he was charged in 1998 with murdering his 40-year-old and recently divorced mother, Rita Politte. Rita died after being hit on the head and set on fire in her Hopewell, MO home. In January 2002, Michael went on trial; he was convicted and sentenced to life in prison for the murder, though he maintained his innocence. Michael asked his father, Edward Politte, for help and he refused. Five years after his conviction, the Midwest Innocence Project agreed to take his case and worked on it for years; eventually attorneys Tricia Bushnell, Megan Crane and Mark Emison became involved. Michael spent nearly 20 years in prison before a 2021 bill passed in Missouri made him eligible for parole. On April 22nd, 2022, Michael was released from prison on parole. Now 38-years-old, Michael claims to know who is responsible for killing his mother: his father, Edward, who hired his cousin, Johnny Politte, to murder his ex-wife over the financial terms of the divorce. The investigation into Rita Politte’s murder has been reopened. Original on-screen text graphic: Earlier this month, Washington County Prosecutor Josh Hedgecorth lost his bid for reelection. Separately, the Missouri Supreme Court has temporarily halted Hedgecorth’s effort to overturn Politte’s conviction. **On-screen text graphic for the 07/08/23 rebroadcast:** Washington County Prosecutor Josh Hedgecorth lost his bid for re-election. 48 HOURS: “The Disappearance of Kristin Smart” (9:00 - 10:00p) – a rebroadcast of a report (OAD: 11/28/20; 1st Updated Rebroadcast: 05/08/21; 2nd Updated Rebroadcast: 10/22/22) on the 1996 Memorial Day weekend disappearance of Kristin Smart, a Cal Poly college freshman, who attended an off-campus party alone after parting ways with a friend. According to witnesses, she became very intoxicated and was helped home by two students. However, the next morning she was nowhere to be found. Her friends reported the college freshman’s disappearance to campus police who were slow to investigate and eventually turned the case over to San Luis Obispo, CA sheriffs. Suspicion turned to Paul Flores, one of the students who helped Kristin home. A witness saw him with a black eye and scratches on his hands the day after Kristin’s disappearance for which he had shifting explanations. Cadaver-sniffing dogs brought to Paul’s dorm room all had a reaction, despite it having been cleaned following the end of the semester. Additionally, Paul had a reputation as being aggressive with women. Kristin’s parents eventually filed a civil suit against Paul, believing him to be behind Kristin’s disappearance and to compel San Luis Obispo sheriffs to look harder at the case. In January 1997, renters of Paul’s mother’s home found a piece of jewelry in the driveway that allegedly resembled what Kristin was wearing in a photo used in billboards about her disappearance. When the Smart family asked to see it, they learned it had been lost by sheriffs. In March 1997 and then again in June 2000, sheriffs searched the home of Paul’s mother, including the yard, but were unable to find Kristin’s body or other evidence. The Smart family was allowed to search the property with ground-penetrating radar in 2007, and likewise did not find anything. In 2011, Sheriff Ian Parkinson took over Kristin’s case. In 2019, he recovered two trucks that had been owned by the Flores family in 1996. In 2020, simultaneous searches at the homes of all Flores family members were executed. Sheriff Parkinson recovered new evidence that he could not publicly disclose as it was still being investigated. 05/08/21 UPDATE: An important tip came in after a February 2020 search of Paul, Susan and Ruben’s properties: four nights later, strange activity was seen at Ruben’s house and an eyewitness actually documented the fact that throughout the night, there was activity in the area of the underside of the deck. And during that 2020 search of Paul Flores’ home, investigators discovered photographs and videos on Flores’ computer showing him engaged in sexual activity with at least ten different women, apparently in various states of consciousness. Also found was evidence that a body had been buried there and recently moved. It is alleged that Paul caused the death of Kristin Smart while in the commission, or attempted rape, of Kristin. Because of the statute of limitations, Paul cannot be charged with rape and was instead arrested on first-degree felony murder charges. Paul Flores and his father both pleaded not guilty to all charges at their arraignment. Ruben Flores was released on \$50,000 bail to his ex-wife and is required to wear an electronic ankle bracelet; Paul is being held on no bail. 07/15/23 **48 HOURS: “The Kidnapping of Schanda Handley”** (10:00 – 11:00p) – a report on the August 6th, 2017 kidnapping of Schanda Handley, who was taken from her Lafayette, LA home at gunpoint by two individuals posing as deliverymen. About an hour after the kidnapping, Schanda was rescued near Baton Rouge when Deputy Chad Martin pulled over a suspicious white van after a brief pursuit. The two men inside jumped into the Intracoastal Waterway and disappeared; they were later found drowned and identified as Sylvester Bracey and Arsenio Haynes. Schanda implicated her estranged husband, Michael Handley, as the man behind her kidnapping and informed investigators of their once happy but now tumultuous relationship, which included Michael’s erratic behavior, threats, stalking and violating a restraining order. After a four-day manhunt, Michael was arrested on August 11th, 2017 in Slidell; he pleaded not guilty to all charges and claimed to have hired Sylvester to move furniture. In March 2018, Schanda and Michael’s divorce was finalized. With overwhelming prosecutorial evidence, Michael indicated he was open to a deal hours before the trial was scheduled to start; Schanda accepted his plea of guilty to second degree kidnapping in July 2021. The judge sentenced Michael to 35 years in prison – the maximum penalty – on March 24th, 2022. **On-screen text graphic:** Handley is appealing, saying he was not properly informed of his rights when he pled guilty. 48 HOURS: “Searching for Maya Millete” - a report on the January 2021 disappearance of Maya May Millete, a 39-year-old mother of three young children, from her home in Chula Vista, CA and the case against her husband, Larry Millete. Larry told Maya’s family various stories of why his wife was gone, including that they argued and she went hiking. From the outside, the Milletes looked like a happy family, but investigators learned the couple were going through marital problems. On January 7th, the last day she was heard from, Maya made an appointment with a divorce attorney. Investigators also discovered Larry’s contact with spellcasters, to have a hex put on Maya so she would remain attracted to him. Before her disappearance, Larry sent a message to a website that claims to cast spells and asked for Maya to be harmed. In October 2021, Larry was arrested; he remains behind bars, awaiting trial. Larry pled not guilty to charges of murder and possession of an assault weapon. He maintains that Maya left on her own and started a life somewhere else – a claim Maya’s family and friends strongly refute. The Millete children live at home, in the care of Larry’s parents; Maya’s family was granted visitation rights in November 2021 and her sister, Maricris has filed a petition for guardianship. In January 2022, a vigil was held to mark the one-year anniversary of Maya’s disappearance. The search for Maya’s remains is ongoing.

48 HOURS: “The Eye Drop Homicide” (9:00 - 10:00p) – a report on two murders linked to a common chemical found in eye drops – one in South Carolina, the other 12 miles away in North Carolina. (1) On July 21st, 2018 in Lake Wylie, SC, Lana Clayton ran outside to get help for her husband Steve. Neighbor Terry Floyd entered the home and realized Steve was dead. According to Lana, Steve had been feeling ill for days and fell down the stairs due to vertigo. Steve’s nephews, Kris Phagan and Nick French, became suspicious of her story; Nick noted Lana, a nurse who worked in several different VA hospitals, did not perform CPR. Additionally, Lana quickly moved to have Steve cremated and insisted he left no will. Unbeknownst to Lana, Kris and Nick requested an autopsy from the local coroner; Steve’s toxicology report showed the presence of tetrahydrozoline, an ingredient in eye drops. At first, Lana told the coroner and law enforcement that Steve regularly put eye drops in his coffee to induce bowel movements. Lana soon changed her story and claimed Steve was verbally and physically abusive; she tried to use the eye drops to give him diarrhea, rather than kill him. After a failed suicide attempt, Lana was charged with murder on August 31st, 2018. Prosecutors believed she hoped to inherit all of Steve’s wealth by killing him. Lana plead guilty to tampering with food and drugs and voluntary manslaughter. On January 16th, 2020, she was sentenced to 25 years in prison. (2) About three weeks after Lana was arrested, Stacy Hunsucker died in nearby Mount Holly, NC from what appeared to be a heart attack. The state insurance fraud department began investigating her husband, Josh Hunsucker, after they received a complaint from Stacy’s mother, Suzie Robinson. Stacy was cremated, but because she was an organ donor a vial of her blood had been collected and stored. Toxicology tests revealed the presence of tetrahydrozoline. On December 19th, 2019, Josh was charged with murder. He remains free on bail. **On-screen text graphic:** Lana Clayton has not been awarded any money from Steve's estate. Elledge told Columbia, MO police that on October 8th, he had gone to sleep with Ji, but when he woke up the next morning she was gone; he believed his wife may have left him and their 1-year-old daughter for a man she had an online relationship with. On October 25th, 2019, police executed a search warrant at their apartment and found a muddy pair of Elledge’s boots; he was arrested on suspicion of child abuse the same day police executed the search warrant. Charges of murder in the first degree were filed while Elledge was still in jail on abuse charges. In March 2021, Ji’s remains were found buried under a juniper tree; Elledge’s boots had several juniper tree needles stuck to the soles; DNA from those needles was linked to the tree directly above Ji’s shallow grave, providing prosecutors with the evidence they needed to convict Elledge of her murder in November 2021; he was sentenced to a term of 28 years. Mengqi Ji's daughter now lives with Joe Elledge's mother, but Ji’s parents in China are seeking shared custody of the now 4-year-old. **07/29/23 UPDATE:** In December 2022, Mengqi's parents and Joe's mother reached an agreement: the child will spend her summers in China and the rest of the year with Jean. 08/05/23

48 HOURS: “The Psychiatrist and the Selfie” (9:00 – 10:00p) – a rebroadcast of the second updated rebroadcast (OAD: 11/05/22) on the case against Jacob Nolan, who claims his cousin and psychiatrist, Dr. Pamela Buchbinder, brainwashed him into attempting to kill her former lover, fellow psychiatrist Dr. Michael Weiss, during the time the unmarried couple was going through a custody battle for their son. On November 12th, 2012, Nolan attacked Dr. Weiss in his office with a sledgehammer and a knife. Weiss fought back. After the struggle, while covered in blood, Nolan snapped a selfie. He was arrested and charged with attempted murder. At the time of the attack, Nolan was living with Buchbinder, who was also treating him for depression, anxiety and bipolar disorder. Dr. Buchbinder was also going through a nasty custody battle with Dr. Weiss. Today, Jacob Nolan says that Dr. Buchbinder manipulated and brainwashed him to hate Dr. Weiss and that hatred turned into their plan to kill Dr. Weiss. After the attack, Nolan was in a manic state and taken to the ER. Dr. Buchbinder went to the hospital, but was not allowed to see him. Although there is evidence of Dr. Buchbinder purchasing the sledgehammer, she has not been charged with any crime. Nolan was freed on bail and went to live with his parents in Miami. Dr. Weiss was granted custody of his son. Today Nolan seems rational and insists he was not in control of himself at the time of the incident, and even tried to commit suicide in 2015. In March 2016, the trial began. The prosecution insisted Nolan could have rationalized his thoughts and backed out at any time. The defense argued diminished capacity: Dr. Buchbinder had replaced Nolan’s free will with a cult-like mentality. The verdict: guilty. Nolan was sentenced to nine and a half years in prison. He says he is genuinely remorseful for what happened and still says Dr. Buchbinder needs to take responsibility too. Dr. Weiss is raising his son alone, and his attorney says he still lives in fear. 12/02/17 UPDATE: Five years after the attack on Michael Weiss, the law caught up with Dr. Pamela Buchbinder. She was arrested and charged with second-degree attempted murder and first-degree attempted assault. The Manhattan D.A. says she was the mastermind behind the plot. She has hired two top New York defense attorneys. After the judge heard arguments, he refused to grant bail. A trial date is expected in early 2018. The star witness: Jake Nolan. 11/05/22 UPDATE: Pamela Buchbinder remained on Rikers Island for five years through legal wrangling and the COVID-19 pandemic. During a pre-trial hearing on September 7th, 2022, she accepted a deal. One month later, Buchbinder attempted to withdraw her plea; Judge Thomas Farber would not accept it. Dr. Weiss appeared in court to make a victim’s impact statement. Judge Farber sentenced Pamela Buchbinder to 11 years in prison; he also issued an order of protection for Dr. Weiss. Original on-screen text graphic: The New York City Police Department says the investigation into the attack on Doctor Michael Weiss is “ongoing”. But a spokesperson would not say whether Doctor Pamela Buchbinder is a suspect. On-screen text graphic for the 12/02/17 updated rebroadcast: Pamela Buchbinder’s attorneys are still trying to get her out on bail from Riker’s Island. **On-screen text graphic for the 11/05/22 updated rebroadcast and the 08/05/23 rebroadcast:** This story discusses suicide. 08/05/23 **48 HOURS: “The Snapchat Clue”** (10:00 – 11:00p) – a report on the July 2021 sudden disappearance of Bart and Krista Halderson of Windsor, Wisconsin and how information found on social media would lead investigators to their killer. Investigators immediately turned to family members for information, including sons Mitchell, who was 24 at the time and worked in tech, and Chandler, then a 23-year-old college student living at home. Chandler was excited about a new job offer he said he had with Elon Musk’s SpaceX. Chandler told police his parents had gone to the lakeside family cabin for the July 4th holiday weekend and never returned. Investigators received a tip from the owner of farm outside of town; remains later identified as Bart Halderson were found on the farm, 20 miles from the Halderson home. On July 15th, 2021, Chandler was arrested and charged with lying to the police. Investigators discovered that his parents found out Chandler had lied about his college degree and the job with SpaceX. Chandler refused to cooperate with police, but his girlfriend, Cathryn (“Cat”) Mellender, allowed them to download her phone. A Snapchat screenshot of Chandler by the Wisconsin River on July 1st led investigators to search the area. Remains later identified as Krista’s were found; Chandler was charged with both of their murders. In January 2022, Chandler went on trial for the murder of his parents at the Dane County Courthouse; he was also facing charges for lying to the police and for mutilating and hiding their bodies. He was found guilty on all eight charges. In March 2022, at his sentencing hearing, Chandler made a statement, asking for a lawyer to take an appeal; he was sentenced to life in prison without the possibility of parole. Original on-screen text graphic: Chandler Halderson has a new lawyer but has yet to file an appeal. **On-screen text graphic for the 08/05/23 rebroadcast:** In April 2023, Halderson’s convictions for hiding his parent’s *[sic]* remains were vacated. 48 HOURS: “The “Unsolvable” Murder of Roxanne Wood” – a report on the rape and murder of 30 year old Roxanne Wood in her Niles, MI home and the work done 34 years later to solve it. In February 1987, Terry Wood came home from a night of bowling to discover his wife Roxanne dead on the kitchen floor. Terry called police; his aggressive demeanor on the phone, behavior during the investigation and the discovery of extramarital affairs by both parties made him a suspect. After a few months, the case went cold. In 1999, the small DNA sample from the crime scene was uploaded to CODIS; no match was returned, but Terry still remained a person of interest. In April 2021, Gabriella Vargas, a consultant for Identifinders looked at the case and was able to create a family tree, which allowed investigators to zero in on a suspect: Patrick Gilham. Michigan State Police surreptitiously collected Patrick’s DNA from a cigarette butt, which matched the DNA from the crime scene. Patrick was interviewed by police in July 2021; he was arrested in February 2022. In April 2022, Patrick Gilham pleaded no contest to second-degree murder and was sentenced to a minimum of 23 years in prison. **On-screen text graphic:** Patrick Gilham will be eligible for release in 2040 with good behavior. 08/19/23 **48 HOURS: “Who Shot the Tech Exec?”** (9:00 – 10:00p) - a report on the robbery, kidnapping and murder of Tushar Atre, a successful tech-executive-turned-cannabis-entrepreneur in Santa Cruz, CA. Atre had a home in Pleasure Point, an affluent surfing community, and the Summit property: 60 acres in the Santa Cruz mountains where he could legally grow cannabis for research. Grainy surveillance video from October 1st, 2019 captured what happened on Atre’s street, from the moment figures entered the neighborhood and walked toward his house, to minutes later, when Atre is seen running and then tackled; he is repeatedly stabbed and eventually pushed into a BMW that the suspects stole from his driveway. Houseguests called 911 and later told detectives they heard the intruders demanding to know the location and combination of Atre’s safe. Six hours after the abduction, police located the white BMW and Atre’s body. Investigators learned of disgruntled employees, due to Atre’s confrontational management style, as well as his habit of withholding people’s pay. On May 19th, 2020, the Santa Cruz Sheriff’s office had four suspects in custody: 23-year-old Joshua Camps, 22-year-old Kurtis Charters, 22-year-old Stephen Lindsay, and 19-year-old Kaleb Charters. The latter two had worked for Atre and, when initially interviewed by detectives two months after the murder, admitted they once had a bitter pay dispute with him. Cell phone data bolstered the investigation and except for Lindsay, all of the suspects eventually admitted their involvement. All four suspects have pleaded not guilty; if convicted, they could face a maximum sentence of life in prison. Killed on the same night, detectives were initially able to link the two crimes through an orange sock or bootie found near Oberholtzer’s crime scene on January 7th, 1982 and a matching bootie sock found on Schnee months later, on July 3rd, 1982. The case went cold until investigators ran DNA recovered from evidence through a public genealogy database and got a match in January 2021: Alan Phillips, who had been arrested for a similar crime in 1973. After police surreptitiously acquired a DNA sample from Phillips, he was arrested on February 24th, 2021. 09/08/23 **48 HOURS: “The Brighton Ax Murder”** (10:17 – 11:00p) – a reedited, abbreviated and updated rebroadcast of “The Brighton Ax Murder” (OAD: 02/25/23), a report on the murder of 29-year-old wife and mother Cathy Krauseneck of Brighton, NY, which remained unsolved for four decades. The case, dubbed the Brighton Ax Murder, was one of the oldest, coldest murder cases in America. On February 19th, 1982, her husband, Jim Krauseneck, said he found Cathy dead in their bed with an ax in her head, after he returned home from his job as a Kodak company economist. Aspects of the crime scene did not sit right with investigators; police believe it was staged to look like a burglary to cover up the real crime – the intentional murder of Cathy by her husband, who left town shortly after speaking with police. The case sat for decades until 2019, when authorities in Monroe County, NY hired forensic pathologist Michael Baden to investigate. Baden believed Cathy was killed around 3:30 am; for prosecutors that meant Jim would have been home at the time. Jim was indicted on November 1st, 2019; he voluntarily surrendered to authorities a week later. The case went to trial in 2022; Jim was found guilty of second-degree murder and sentenced to 25 years-to-life behind bars. Jim intends to appeal his conviction. Cathy’s father would like to move her remains from Jim’s family plot but needs her daughter Sara’s permission to do so. **09/08/23 UPDATE:** *Six months after Jim Krauseneck was sentenced, he died of cancer in prison. Sharon, Sara and Jim's legal team are appealing the verdict, hoping to clear his name.* Original on-screen text graphic: Cathy’s family and Sara haven’t spoken since the trial. 48 HOURS (continued)

09/16/23

48 HOURS: “The Gilgo Beach Serial Killings” (9:00 – 10:00p) – the fourth follow-up report to “Long Island Serial Killer”. In May 2010, Shannan Gilbert, who worked as an escort, disappeared. The search for Gilbert led to the discovery of ten bodies in 2010 and 2011, in the scrub brush along Gilgo Beach, on Long Island, NY. Police suspected the work of a serial killer. Four of the women were identified as Maureen Brainard-Barnes, Melissa Barthelemy, Megan Waterman and Amber Costello. Like Gilbert, all were in their twenties, petite and were online escorts. Three of the four were wrapped in burlap. The victims became known as the Gilgo Four. In February 2022, Suffolk County police and the district attorney formed a new task force to investigate the murders; six weeks later, Rex Heuermann was identified for the first time as a suspect. Using the description provided by Costello’s roommate of one of her persistent clients and the vehicle he drove, investigators were able to tie Heuermann to the crime. DNA collected from a pizza slice he tossed in a Manhattan trash can came back as a match with hair found on the victims. In July 2023, Suffolk County police announced the arrest of 59-year-old Rex Heuermann and charged him with killing Melissa Barthelemy, Megan Waterman and Amber Costello; he is the prime suspect in the death of Maureen Brainard-Barnes. He pled not guilty and is being held in a Suffolk County jail. None of the other bodies found in 2011 along Ocean Parkway have been linked to him. Heuermann, an architect in Manhattan, lived about 20 minutes from Gilgo Beach, in Massapequa Park, with Asa Ellerup (his second wife of more than 25 years), stepson Christopher Sheridan and daughter Victoria Heuermann. Ellerup, who is battling breast and skin cancer, has filed for divorce from Heuermann. Additionally, investigators have identified strands of female hair found on two of the victims: Megan Waterman and Amber Costello. The DNA profile is consistent with Ellerup; she has not been charged or named a suspect in any of the murders. *No on-screen text graphic for this broadcast.* This broadcast is 48 HOURS’ sixth edition of the investigation into the Gilgo Beach serial murders and contains interviews from prior broadcasts. Interviewed: Dominick Varrone, former chief of detectives, Suffolk County Police Department; Missy Cann, Maureen Brainard-Barnes’ sister; Muriel Henriquez, worked at Heuermann’s company, RH Consultants & Associates, spoke exclusively to 48 HOURS (2023); Mary Shell, worked with Heuermann in the summer of 2010 (2023); John Parisi; grew up with Heuermann (2023); Antoine Amira, hotel food and beverage manager - Heuermann appeared on Bonjour Realty, Amira’s YouTube interview show (2023); Ray Tierney, district attorney, Suffolk County (2023); Lynn Barthelemy, Melissa Barthelemy’s mother (2011); Steven Cohen, then Barthelemy family attorney (2011); Liliana Waterman, Megan Waterman’s daughter (2020); Dave Schaller, Amber Costello’s roommate (2011); Rodney Harrison, police commissioner, Suffolk County (2023); Bob Macedonio, Asa Ellerup’s attorney (2023); Nikkie Brass, hairdresser, former escort who claims she was solicited by Heuermann, but fled from the restaurant where they met (2023); John Ray, attorney representing Nikkie Brass and the family of Shannan Gilbert; and Sherre Gilbert, Shannan Gilbert’s sister (2011). Gilbert’s body was found in December 2011, in the marsh not far from Gilgo Beach, but investigators don’t believe she was murdered. 09/16/23 **48 HOURS: “The Night of the Idaho Student Murders”** (10:00 – 11:00p) – a follow-up report to “The Idaho Student Murders”, detailing the latest developments and inside details surrounding the November 13th, 2022, murders of four University of Idaho students, as well as the case against Bryan Kohberger, charged with murdering Kaylee Goncalves, Ethan Chapin, Xana Kernodle and Madison Mogen. The four victims were all stabbed with a large knife in their off-campus home in Moscow, ID. DNA found on the knife sheath was tested against Kohberger’s father’s DNA, obtained from trash outside the Kohberger family home in Pennsylvania; results indicated a high probability of belonging to the biological father of the person who left their DNA on the knife sheath. The murder weapon has never been found. The judge entered a plea for Kohberger of not guilty. In August 2023, six weeks before the murder trial was set to begin, Kohberger waived his right to a speedy trial. **On-screen text graphic:** Bryan Kohberger’s trial date has not been set. Interviewed: Steve and Kristi Goncalves, Kaylee’s parents and sister Alivea Goncalves, who offer new details about the night of the murders and their own investigation; Jazzmin Kernodle, Xana’s sister and father Jeffrey Kernodle, in their first interview together; Howard Blum, investigative journalist who has written about the murders for Graydon Carter’s online magazine, “Air Mail” and is now writing a book on the case; and Bryanna Fox, professor of criminology, University of South Florida, CBS News consultant, and former FBI agent. 09/30/23 **48 HOURS: “The Betrayal of Linda Slaten”** (9:00 – 10:00p) – a report on the murder of Linda Slaten, who was sexually assaulted and strangled, and how decades later, detectives and a DNA genealogist were able to catch her killer. On September 4th, 1981, 15-year-old Jeff and 12-year-old Tim Slaten were awakened by Lakeland, FL police and told that their mother had been murdered. Investigators collected a rape kit and lifted a palm print from the windowsill where the killer had entered. They questioned a slew of suspects, including her abusive ex-husband Frank Slaten and a boyfriend, but no one was charged. The case went cold. In 2019, nearly 40 years later, advances in DNA technology and a carefully stored rape kit revealed Linda’s killer: Joseph Clinton Mills, known as Coach Joe. Prior to and after Linda’s murder, Coach Joe would regularly drive Tim to and from football practice. He was a role model for Tim, who proudly hung up his football team photo in his room where Coach Joe stood right behind him. On December 12th, 2019, Joe Mills was arrested and claimed that his encounter with Linda was consensual. To avoid a trial and a possible death sentence, he pleaded guilty to all charges and was sentenced to life in prison without the possibility of parole in February 2022. 09/30/23

48 HOURS: “The Game Show and the Murder” (10:00 – 11:00p) - A report on the investigation into the February 2023 murder of Becky Bliefnick and the May 2023 murder trial of her estranged husband, Tim Bliefnick. Becky, a 41-year-old nurse and mother to three young boys, was found murdered in her Quincy, IL home during the afternoon of February 23rd, 2023. She was discovered by her father, who went to check on her after being contacted by Tim. Police determined that the intruder entered Becky’s residence via an upstairs window and kicked in the door to her room. Becky attempted to call 911 on her cell phone before she ran to the bathroom, where she was shot fourteen times by a 9-millimeter handgun. None of her wounds were immediately fatal; spent shell casings and plastic shreds were found around her body. The Bliefnick children, not at home at the time of the murder, were with their father about a mile away. The Bliefnicks were in the process of getting a divorce; Tim filed in January 2021, after 11 years of marriage. According to divorce documents, Tim and Becky fought over money, the marital home and custody of their three children; both parties sought orders of protection against one another and, in both cases, they were not granted. Ultimately, a judge ordered Tim and Becky to stay away from one another’s residences, except when enforcing child visitation schedules. Also ordered was the return of a 9-millimeter handgun that Becky had given to Tim as a gift, but it was never returned and Tim claimed to not know where it was. Becky had expressed her fear of Tim to others and prosecutors claimed that their text exchanges demonstrated emotional abuse on Tim’s part. Video surveillance, as well as a blue Schwinn bicycle found near Tim’s home, and a fake Facebook account linked to Tim, resulted in his arrest. The case and arrest generated media attention when it was revealed that Tim appeared on “Family Feud” in 2019 with his parents and brothers and joked about regretting his marriage when asked a question related to the game. Held without bond, he opted for a speedy trial, which began on May 23rd, 2023. Investigators determined the plastic shreds found around Becky’s body were from Aldi grocery store bags and linked DNA found on a piece of the plastic shreds to Tim, as well as DNA found under Becky’s fingernails. Prosecutors argued that the timing of the murder was significant and uncovered court documents which revealed Becky wanted to keep her father-in-law away from her children because he allegedly had a history of abusing children. Numerous damaging web searches by Tim were also presented by the prosecution. The defense argued that the evidence was circumstantial and could be explained as coincidences; no witnesses were called. The trial lasted six days and the jury found Tim guilty of first-degree murder; the judge sentenced him to life in prison. The Bliefnick children live with Becky’s parents. **On-screen text graphic:** Tim Bliefnick has not been allowed any contact with his kids since his arrest. (This broadcast also contains an on-screen in memoriam card: In Memory of Jay Pedinoff). Interviewed: Tim Bliefnick, interviewed just over a month after his conviction; Josh Jones, Adams County prosecutor; Laura Keck, Adams County prosecutor; Casey Schnack, Tim’s former divorce attorney, now defense attorney; Sarah Reilly, Becky’s sister; Bret Reilly, Becky’s brother-in-law; Taylor and Taylor Heimann, husband and wife and next door neighbors of Becky’s, whose outside security camera captured video alongside Becky’s house; and Shannon Zanger, Becky’s friend.
