Texas Rose Horse Park **SPRING HORSE TRIALS**

March 29-31, 2018 – Texas Rose Horse Park: Looking for exciting weekend entertainment that is free and family friendly? Texas Rose Horse Park's Spring Horse Trials will commence on March 29th and continue through March 31st. This is not your ordinary horse show. *Eventing* is an equestrian sport that could be termed an "equestrian triathlon". Horse and rider compete in three different phases: dressage, endurance (cross country), and show jumping.

Events begin 4:00 p.m. Thursday and continue through Saturday afternoon. Concessions are available on grounds.

This event requires numerous volunteers. Volunteers need to be at least 16 years of age or have an adult accompanying them. No horse experience necessary, we will train on the job. If interested please contact D'Anne at 903-882-8696.

Spring welcomes new life: perfect time to donate blood, give patients renewed hope

Freestone Medical Center to host upcoming blood drive with Carter BloodCare

FAIRFIELD, Texas (March 26, 2018) – Remaining cold weather will soon give way to extended daylight hours, awakening of budding trees and the beauty of floral landscapes. Carter BloodCare hopes these signs of new life will prompt residents to give a pint of life through the act of blood donation. Giving blood is one of the best ways to perform a random act of kindness for someone in need – potentially a patient struggling between life and death.

Hospitals have an ongoing requirement for blood; collectively, they fulfill 600 to 700 transfusion orders daily. As the community blood supplier, Carter BloodCare needs to see more than 1,000 blood donors a day to keep pace with demand.

Freestone Medical Center (ETMC First Physicians) is hosting a blood drive from 10 a.m. to 3 p.m. Thursday, March 29, at 764 W. Commerce St. in the parking lot on the Carter BloodCare bus. For more information or to schedule an appointment time, contact Janie Lightsey at (903) 389-1618.

There is no substitute for human blood. Each person, even with the same blood type, gives a unique blood donation. A wide diversity of blood donors is also necessary to maintain a safe and sufficient blood supply.

Remember to eat a nutritious meal and drink plenty of water one to two hours before giving blood. All donors must weigh at least 110 pounds, feel well on the day of donation, and present a government-issued photo ID each time they give blood.

[Potential blood donors](#) may volunteer beginning at age 16 with parental consent; 17-year-olds may give independently and there is no upper age limit for donating blood. For more information on donor eligibility and to make an appointment, call 1-800-366-2834 or visit carterbloodcare.org.

About Carter BloodCare

Carter BloodCare is a community based, non-profit blood center that provides life-saving transfusion
