

WCTI-TV Amendment to Second Quarter 2019 Commercial Limits Certification

The station hereby amends its Commercial Limits Certification for Second Quarter 2019 to clarify that the programs identified in the station's certification filed in 2019 as designed for children 12 years of age and younger and formatted to comply with the Commission's commercial time limitations for such programming were in fact designed for children between 13-16 years of age, as the station correctly reported in its Children's Television Programming Report for the quarter.
