**I. Economy**

One of the biggest concerns of our viewers continues to be the economy. The job drain overseas continues to wipe out well-paid jobs in several different economic sectors. The war in Iraq continues to contribute to concern over the economy. The tremendous costs involved in military operations and the rebuilding of Iraq are contributing to a large drain on the economic health of the country. High gas prices are having a negative effect on the economy and people's discretionary spending. The rising costs associated with health care are affecting all Americans, particularly those on limited incomes or retired. Large state and local budget deficits are adding to the concern over how to pay for essential services and properly fund new and existing projects without raising taxes.

An important area of economic concern continues to be agriculture. Some farm prices have risen for farmers, but expenses continue to increase. An economic crunch has forced many family farms out of business. The disappearance of the family farm is felt throughout the community, with many small town businesses threatened. Adding to the economic woes of small towns is the growing tendency of people to shop at core retail areas in larger cities. The appearance of "superstore" operations in some area cities is having a negative impact on other local businesses. Sometimes this is helpful by attracting more shoppers to a community. But many businesses suffer from the increased competition.

The tax situation is another important concern of people in our viewing area. The heavy reliance on property taxes is a burden--particularly on older people who may be living on restricted incomes. Although several attempts have been made to reduce property taxes by relying on other means of taxation, the tax bill is still very high for people with limited means.

## 2. Education

Education is a prime concern of many people. On one hand, they want the best possible education for our young people, but at the same time are concerned about the costs. Education is one of the highest priced items on the local tax bill, and declining state aid is contributing to worries over how to pay the bill for today's schools. This cost concern is evident when school districts go to the voters with referendums for building or remodeling projects. At times the proposals are defeated, or pass by a very small vote margin.

Wisconsin and Minnesota are both facing budget deficits that are having an impact on education funding in the two states. Local school districts are examining ways to cut expenses without lowering the quality of the educational services they offer. Several area districts have seen teacher and support staff lay-offs.

### 3. Health

Health and safety concerns are an important priority for many people in the communities we serve. Here in the La Crosse area residents have access to two top medical centers, in addition to Mayo Clinic in nearby Rochester, Minnesota. The question is not one of quality of care, but the expense involved in seeking medical treatment. Many people go without health insurance, either because it's not available to them or the cost is prohibitively high. State programs have been instituted in order to make sure children have access to health care, particularly in the wake of Wisconsin's W-2 welfare reform program. Some people with limited incomes can access Wisconsin's BadgerCare prescription plan. But this program needs periodic funding approval from the State Legislature, and is now only funded through June 2007.

The high cost of prescription drugs has many older people concerned over how they can afford their medication. Now that the federal government has included a prescription drug plan in Medicare, people are concerned that the plan is inadequate, and might produce unwelcome changes in the entire Medicare program. There is considerable confusion surrounding the new Medicare prescription plan with an overwhelming number of plans to choose from. People are worried about the overall government health program and how it will affect them in years to come.

There is always a tremendous amount of interest in medical breakthroughs. People want to learn more about new ways of treating and preventing health problems.

#### 4. Environment

Environmental concerns are on the minds of many people in our viewing area. There is an increasing awareness of the role nature plays in our lives, and the importance of being good stewards of our natural resources and wildlife. Some of the problems being addressed include air and water pollution, waste disposal, agricultural pollution, destruction of wildlife habitat, and many other environmental matters. More attention is being given to the many different items that affect the quality of our lives. People are beginning to realize that environmental problems must be solved if we are to maintain the lifestyles we enjoy in this country.

The Wisconsin Department of Natural Resources is continuing its extensive campaign to fight chronic wasting disease in the state's whitetail deer herd. The agency has conducted a massive deer eradication and testing program in affected counties that they hope will keep the disease from expanding. Chronic wasting disease could have a drastic impact on Wisconsin's deer hunting economy.

The increasing energy shortage in some parts of the country could have an impact on the environment. More power plants will likely have to be constructed, increasing the chances of adversely affecting the environment. Energy conservation measures could bring some solution to this problem. New federal air quality standards might mean that coal-fired power plants in Wisconsin could face expensive upgrades or replacement.

With La Crosse's location on the Mississippi River there is quite a bit of concern about the environmental state of the river and surrounding areas. There is often a conflict between commercial and recreational users of the river.

Agricultural runoff is one of the top environmental concerns in our area. Farmers are spending increasing amounts of money to ensure that ground water and waterways are protected from pollution.

## 5. Crime

Viewers consistently indicate a strong concern about crime. Even though some crime statistics are down, many people have the impression that more crime is occurring. Residents of rural areas report they are seeing more drug-related and property crimes. Several high-profile crimes, including murder, have taken place throughout our area. The rapid introduction of methamphetamine and other new drugs into the La Crosse and Western Wisconsin area is causing considerable concern among law enforcement agencies.

Wisconsin's new truth-in-sentencing law has taken effect. Communities and law enforcement agencies are concerned about the result of this new law as it relates to prison and jail costs. La Crosse County is already considering an addition to its newly constructed law enforcement center because of an increased demand for jail space. Many law enforcement and court officials are investigating a possible increased use of probation and supervision as an alternative to jail and prison for nonviolent offenders.

## 6. Government

Government is a category that includes many different concerns, ranging from national politics to local government. It encompasses a broad area of interest on the part of local residents as to what their representatives are doing with their tax dollars.

Primary interest has been focused on the war against Iraq and its aftermath. Many people are frustrated with the continuing terrorist resistance in Iraq, and wonder when the time will come when American troops can return home. Interest in the war in Iraq was evidenced by the extremely high interest in the November elections, where Democrats took control of both the House of Representatives and Senate.

Many state and local governmental units are having severe budget problems, even though many indicators show the economy improving. On the local scene, much of the interest centers on the cost of local government and how those costs are funded. Property taxes continue to be a major point of discussion, particularly among older residents on fixed incomes.

Crime

**48 HOURS MYSTERY: "Endgame"** - a follow-up to 48 HOURS MYSTERY: "Where Is Mrs. March?" (OAD: 11/01/02). Janet Levine March, a wife and mother of two young children, disappeared on August 15, 1996. In December 2004, a grand jury indicted her husband, Perry, for her murder, based on circumstantial evidence. March -- while in a Nashville jail awaiting trial, and fearful of the possible testimony of his wife's parents, Carolyn and Larry Levine -- solicited fellow inmate and convicted felon Russell Nathaniel Farris to murder them. Farris played along, but in reality cooperated with the police and secretly recorded his conversations with both March and March's father, Arthur, who also became implicated in the murder plot. In a videotaped deposition played at the trial for Janet March's murder, Arthur March revealed how Perry had killed Janet, and how her body, with his help, was ultimately disposed of. Perry March was sentenced to 56 years in prison. Arthur March was sentenced to five years. Includes interviews with: Perry March; Arthur March; Carolyn and Larry Levine; Sergeant Pat Postiglione, Detective Bill Pridemore, Nashville (Tennessee) Homicide Cold Case Unit; Detective Mickey Miller, Nashville Police. **48 HOURS MYSTERY: "Murder on His Mind"** - In April 2005, Stephen Stanko murdered his girlfriend Laura Ling, and then raped and stabbed her daughter. Shortly afterwards, he killed a friend, Henry Turner. Previously, in 1996, Stanko had served an eight year prison term for assaulting his then-girlfriend, Elizabeth McClendon. Stanko claimed he had no memory of these events. At his trial for the murder of Laura Ling, Stanko's lawyer called on medical experts who claimed that PET scan images of Stanko's brain revealed that he was born with a brain defect, a neurological dysfunction that made him psychopathic and, on occasion, temporarily insane. Medical experts for the prosecution contested this claim. A jury found Stanko guilty and recommended the death penalty. He will again face the death penalty when he is tried for the murder of Henry Turner. His lawyer will continue to argue that he has a brain defect. Includes interviews with: Stephen Stanko; the daughter (name withheld) of Laura Ling; Chris Ling, ex-husband of murder victim Laura Ling and father of their daughter; Lt. William Pierce, Georgetown County (S.C.) Sheriff's Office; Greg Hembree, Georgetown County Prosecutor; Elizabeth McClendon, former girlfriend of Stanko; William Diggs, Stanko's lawyer; Dr. Thomas Sachy, neuropsychiatrist. **48 HOURS MYSTERY: "Searching For Secrets"** - In early September 2005, 17-year-old Taylor Behl, a Virginia Commonwealth University freshman, disappeared from the Richmond campus. A police investigation eventually uncovered her association with Ben Fawley, a 38-year-old man who confessed to having sex with Taylor. After the discovery of Taylor's body, Fawley claimed that Taylor had wanted to have a sexual experience which included bondage and erotic asphyxia -- she wanted to pass out during sex -- and that she accidentally died during this activity. In a plea bargain at his trial, Fawley was sentenced to 30 years in prison. Interviews include: Janet Pelasara, Taylor Behl's mother; Matt Behl, Taylor's father; Glynnis Keogh, Taylor's best friend; Erin Crabill, friend of Taylor Behl; Emma Ellsworth, Taylor's roommate; Ben Fawley; Richmond Police Captain John Venuti; Les Lausiere, investigator, Virginia Attorney General's Office; Jason Hudson, detective; prosecutors Jack Gill and Chris Bullard; Chris Collins and Bill Johnson, attorneys for Ben Fawley. **48 HOURS MYSTERY: "Love And Lies"** - a report on the investigation into the apparent December 2004 suicide of Jennifer Corbin, a wife and mother living in Buford, Georgia with her husband Bart and their two children. A subsequent phone tip suggesting that police re-investigate the apparent suicide in 1990 of another Georgia woman, Dolly Hearn, led to the discovery that Bart Corbin had been Hearn's boyfriend and that she had broken up with him just before her death. Jennifer Corbin, involved in an online romance, had told her family that she was planning to leave Bart. Bart was arrested for the murder of both women. When Richard Wilson, a friend of Bart's, admitted to police that he had given Bart the gun which was found beside Jennifer's body, Bart admitted that he had killed both Dolly and Jennifer. He was given two life sentences, to be served concurrently, and could be eligible for parole as early as 2020. (C: Pater Van Sant - P: Loen Kelley - Jenna Jackson)

**48 HOURS MYSTERY: "Murder Comes Knocking"**- In July 2004, 27-year-old Jarrod Davidson was shot to death outside his apartment in Santa Barbara, California. Estranged from his ex-wife, Kelee, Jarrod had been scheduled to go to court to try to get full custody of his daughter Malia. Jarrod had opened his front door to retrieve the delivery of a potted plant. DNA, found on the plant's card holder, wastested and matched that of his former mother-in-law, Mindy Jones. Neighbors had reported seeing two suspicious looking people quickly leaving Jarrod's apartment complex. After further investigation, Kelee's parents, Philip and Mindy Jones, were arrested for the murder of Jarrod Davidson. Philip confessed to the killing, but only securing an agreement from prosecutors that his daughter Kelee would not be tried for the murder. Philip Jones claimed that he murdered Jarrod because Jarrod was molesting Malia This claim was disproved. Philip was sentenced to life in prison with no parole. Mindy Jones claimed amnesia, but was also found guilty of murder and received the same sentence as Philip. Kelee was allowed to plead guilty to three lesser charges: accessory to murder and two counts of perjury. She was sentenced to four years in prison. Malia is being raised by her paternal grandparents, Richard and Susan Davidson. Kelee Davidson is expected to be released from prison in July 2007. She is hoping to regain custody of Malia. **48 HOURS MYSTERY: "The Biggest Gamble"** - a follow-up to "The Highest Stakes" (OAD: 03/04/06), a report on the investigation into the October 2005 disappearance of Christie Wilson, a 27-year-old from Sacramento, California. Christie was last seen at the Thunder Valley Casino in the company of Mario Garcia, a 53-year-old married father of two. A lengthy investigation revealed that Mario had a prior criminal record including charges of rape and assault with a deadly weapon and spousal abuse. That information, as well as DNA evidence linking him to Christie, resulted in his arrest. His trial lasted two months and the jury deliberated for just three days. Despite the absence of a murder weapon and physical evidence to prove that Christie Wilson is dead, Mario Garcia was sentenced to a term of twenty-five years to life. Based on a serious prior conviction, his sentence was doubled to fifty years. Mario Garcia still maintains his innocence. Volunteers continue to search for Christie Wilson's body. **48 HOURS MYSTERY: "Dangerous Reunion"** - In 1981, a series of sexual assaults targeting members of the Castleberry High cheerleading team occurred in and around River Oaks, Texas. In January 1982, the body of Retha Stratton, a former Castleberry High cheerleader, was discovered by her roommate-- she had been stabbed 38 times with a kitchen knife. Fort Worth Police Detective Dennis Timmons quickly focused his investigation on Wesley Wayne Miller, former captain of the Castleberry High football team. Miller had been suggested as a suspect in the sexual assaults, but was never questioned. This time there was more evidence. Within 48 hours, Wesley Wayne Miller was charged with the murder of Retha Stratton. Initially, Miller denied involvement, but once presented with the evidence, he confessed. Stratton had not been sexually assaulted, but police were able to match Miller's fingerprints to one of the sexual assault crime scenes. The murder trial began in October of 1982 and two weeks later, Miller was found guilty and sentenced to twenty five years in prison. The jury in the murder trial was prohibited from hearing anything concerning the sexual assaults and believed he deserved a second chance. Without DNA testing, prosecutors went forward with the most airtight sexual assault case, but eventually agreed to a plea deal of twenty years, which would be served concurrently with the murder sentence. Rona Stratton, Retha's sister and Lisa Ticknor Gabbert, a close friend of Retha's and one of Miller's victims were devastated to learn just how quickly Miller would become eligible for parole and made it their mission to keep Miller in prison. By 1991, due to a mandatory release law established to ease prison overcrowding, Miller had enough credit for good behavior and qualified for early release. Miller was arrested again for attempted assault and sentenced to five more years. Released again in 1998 to a county jail, Miller refused to attend sex offender counseling and as a result, was returned to prison. With his twenty five year sentence almost over, Rona and Lisa attempted to have Miller classified as a sexually violent predator under civil commitment- a law which Rona was instrumental in getting passed. Two convictions for sex crimes are required in order to be committed and if successful, Miller would become the first murderer to be classified as such. Chief Prosecutor Joey Robertson argued that Retha's murder was the very definition of a sex crime and was the last barbaric act of a serial rapist. The jury agreed. As a result, upon Miller's release, he will be subject to the same intense monitoring as the worst sex offenders. On March 9, 2007, Wesley Wayne Miller was released from prison. He is housed within 25 miles of Rona and Lisa. (C: Susan Spencer- P: Ian P. Paisley, Jenna Jackson)

**48 HOURS MYSTERY: "Jeffrey MacDonald: Time For Truth" (WEST COAST ONLY)** - a report on the 1970 murders of U.S. Army Doctor Jeffrey MacDonald's pregnant wife and two young daughters at their Fort Bragg home in Fayetteville, N.C. Having served 25 years in prison for the murders, MacDonald, now 61, still proclaims his innocence and expresses hope that he will eventually be legally vindicated. From the day following the murders 35 years ago, MacDonald has maintained that a group of crazed, drug-fueled hippies broke into his apartment and murdered his wife Collette and daughters-- five-year-old Kimberly and two-year-old Kristen. It took the U.S. Government nine years to make its case against him, but in 1979, a jury convicted MacDonald of three counts of first-degree murder -- a conviction based entirely on circumstantial evidence. Since then, MacDonald and his lawyers have exhausted every avenue of appeal. Married behind bars over two years ago, MacDonald's request for parole was denied. He is hoping that DNA testing being done on hair and blood evidence from the crime scene will confirm that he did not kill his family. **48 HOURS MYSTERY: "Deadly Ride"** (9:30-10:30p) - Jane Mixer, one of a handful of female students at the University of Michigan Law School in March of 1969, had just agreed to get married and had arranged a ride home to tell her parents. Her body was found in a small, rural cemetery just miles from her dorm. She had been shot twice in the head and strangled. Jane Mixer was the third of seven young women to be found dead in the area within two years. Shortly after finding the seventh victim, police arrested John Collins, an Eastern Michigan University student who was subsequently convicted of only one of the murders. Maggie Nelson, the daughter of Jane's sister Barbara, determined to write a book about her aunt and to unravel the mystery of her murder. Some detectives also believed the case merited another look. DNA tests of evidence at the scene of the crime led police to Gary Leiterman, a 62-year-old retired nurse and to John Ruelas, who was four-years-old at the time of the crime. Despite concerns over the possible contamination of DNA evidence and the absence of fingerprints, Gary Leiterman, was tried convicted of first degree murder and sentenced to life in prison. Leiterman, who maintains that he is innocent, plans to seek a new trial, challenging the DNA evidence (C: Maureen Maher - Sr. P: Judy Tygard - P: Gail Abbott Zimmerman, Chris Young)(OAD: 11/26/05)
