Program Number	160 – The Jasper County Courthouse		
Production Date	November 2009		
Air Time, Date			
Producer	Brent Slane		
Director	Jason Ferber		
Description	Courthouses remain a central and vibrant location in Ozarks counties. In addition to being an important location of archives and county business, these structures are often living histories and remarkable examples of architecture and craftsmanship. One of the most impressive and grand examples of Ozarks courthouses is in Carthage, Missouri. Historian and author Brad Belk presents the remarkable legacy of the Jasper County courthouse and provides a walking tour of the historic facility.		
Guest(s)	Brad Belk		
Host	Dale Moore		Duration 24:35

Program Number	161 – The Missouri Fox Trotter: A Graceful Gait		
Production Date	December 2009		
Air Time, Date			
Producer	Brent Slane		
Director	Chris Nagle		
Description	Horses have long been a significant part of our human history. They have been one of the most prized and valued animal companions that we have. Whether serving on battlefields or in farm fields, or helping bridge our country during westward expansion, horses have had a prominent role in our culture. Some breeds become especially popular for their demeanor and signature gait. Among these is the Missouri Fox Trotter. Jim Mann, with The Missouri Fox Trotting Horse Breed Association in Ava, Missouri, explains this remarkable breed.

The show also attempts to promote a sense of place for residents and serve as an educational resource by continually documenting and archiving cultural elements and providing access to this information.

Program Number 172 – The Domino Danzero Family Photograph Collection

Production Date December 2010

Air Time, Date

Producer Tom Carter

Director Steve Wynn

Description The eye and lens of a photographer are often the most accurate, enduring and valuable records of our history and culture. These professionals and artists perceptively and intimately document a life, times and setting that many others may overlook in day-to-day living. Their work and efforts are likely appreciated decades later and within the historical context of their images.

Domino Danzero was an Italian immigrant to the Ozarks who possessed many talents and work experiences. One of his talents was photography and the historical contributions he made with his skills while he was associated with the Harvey House restaurant chain and Frisco railroad. Additionally, his love of photography resulted in a rich collection of family and era images that provide a valuable document of life in the Ozarks during the late 1800s and early 1900s.

A collaborative effort between Domino Danzero's family, the Missouri State Archives, and the Missouri State University's Special Collections and Archives Department has resulted in the preservation and access to over 2000 of these historically significant images and reference resources.

Program Number	195 – Russell Keller: The Springfield I've Known	
Production Date	September 2012	
Air Time, Date		
Producer	Tom Carter	
Director	Tom Carter	
Description	<p>Often the best, and sometimes most unique, perspectives of history are by those who experience it first-hand. Likewise, local community histories are more fully understood through the experiences and words of long-time residents and community leaders.</p> <p>Springfield resident, businessman and civic leader, Russell Keller shares memories of the city's history, beginning as a 10 year old boy and from throughout his 90-plus years. The result is an entertaining and one-of-a-kind experience; an engaging and personal look at some of Springfield's historic past, reflected though the life of one of its well-known residents.</p>

Category: Abortion
NOLA: MLNH 013410
Series Title: PBS NewsHour
Episode Title: Episode 110
Length: 60 minutes
Airdate: 12/1/2021 6:00:00 PM
Service: PBS-NPS
Format: News (live news only)
Segment Length: 00:11:08

The future of abortion rights took center stage at the U.S. Supreme Court Wednesday as justices heard arguments over a Mississippi law that bans abortions after 15 weeks of pregnancy. Recognizing one of the most consequential cases about the issue in decades, dozens of protesters on both sides gathered en masse outside the court building. Judy Woodruff reports.

Segment Length: 00:06:34

Eleven years ago this past weekend, on Jan. 8, a gunman opened fire at a political event in Arizona. That moment in 2011 underscored both the dangerous divisions and the epidemic of gun violence in America. Stephanie Sy visits Tucson, where a Jan. 8 memorial is steeped in symbolism starting with its location. It's part of our arts and culture series, CANVAS.

The latest guidance from the Centers for Disease Control and Prevention on isolation and testing for COVID-19 has received intense pushback. Many health experts are now criticizing what the CDC has said and how its officials have said it. This includes the American Medical Association, which issued a strong rebuke. Dr. Gerald Harmon, president of the AMA, joins Williams Brangham to discuss.

As the Omicron variant has pushed U.S. hospitalizations toward a record high, a group of doctors has called for the Biden administration to adopt a “new normal” approach, as advocated in three recent opinion articles. Among these experts is a former member of President Biden’s transition COVID-19 advisory board, Dr. Ezekiel Emanuel. He joins the program to explain how the White House should pivot.

During Tuesday's congressional hearing about the pandemic, there were tough criticisms of the Biden administration and the lack of available testing. Biden has announced plans to ramp up the response, from requiring insurers to pay for rapid at-home testing to making 500 million tests available. Thomas Inglesby, senior advisor to the White House COVID team, joins Judy Woodruff to discuss.

Chinese authorities locked down after discovering two cases of omicron in Anyang, a city of 5.5 million people about 300 miles outside Beijing. It's the third Chinese city now in lockdown and comes less than a month before the Beijing Olympics. These lockdowns are tests of China's zero-COVID policy, which authorities have called a success. But critics ask: at what cost? Nick Schifrin reports.

The Biden administration is pressing to ship more COVID test kits to schools amid growing criticism of shortages as infections pile up nationwide. But for hospitals dealing with the surge the worst is far from over. In the city of Rochester in New York state, hospitals are so over capacity and under-staffed that many are asking ambulances to take patients elsewhere. William Brangham reports.

Two years since the first lockdown in China, there have been great strides to combat COVID-19, but confusion and questions remain. From vaccinations to testing, to masking and how many days to isolate—there hasn't always been clarity. More collaboration between the CDC and the FDA would help, says Joshua Sharfstein, professor at the Bloomberg School of Public Health at Johns Hopkins University.

This week marks one year since the insurrection at the United States Capitol on Jan. 6. William Brangham reports from one part of the country that produced an outsized number of people charged in the capitol riots, and heard from others in that community who are still trying to understand the forces that propelled their neighbors to the siege.

This week is the first anniversary of the Jan. 6 insurrection at the United States Capitol. In the months since the riot, a number of far-right extremist groups have become household names, and some of their core beliefs – and even their tactics – have moved from the fringe to the mainstream. Nick Schifrin reports.

Michigan Rep. Peter Meijer was among the lawmakers in the Capitol's House chamber last January during the pro-Trump riot just three days after he was sworn in to his first term. He voted with nine fellow Republicans to impeach then-President Donald Trump. That vote has resulted in death threats and now, a Trump-endorsed primary challenger to his reelection bid. Meijer joins Judy Woodruff for more.

The attack on the U.S. Capitol was based on a "Big Lie" about election fraud in 2020, and the hope of supporters of former President Donald Trump that they could stop the certification of electoral vote results. But in the year since, there's been a new misinformation campaign to recast, downplay, and misrepresent the events that unfolded at the capitol. Amna Nawaz reports.

On the anniversary of an attack by pro-Trump rioters on the U.S. Capitol, Vice President Kamala Harris said we should look at the event as part of a steady series of moments that "attempt to unravel" American democracy. The "chaos and violence" of Jan. 6 was an example of what can happen "if there is a destruction of democracy," Harris said during an interview with PBS Newshour anchor and managing editor Judy Woodruff on the anniversary of the attack. But Congress' return to complete its routine counting of electoral votes after the violence had subsided was also a symbol "of a democracy that is both fragile and strong." Harris was at the U.S. Capitol as the attack unfolded last year in her capacity as the junior senator from California and the vice president-elect. She said even before that day, the nation's democracy was threatened by falsehoods about the 2020 election, including fraudulent claims of widespread voter fraud. "It is incumbent, then, on those who are informed, who are knowledgeable, to be vigilant in speaking truth, no matter how difficult sometimes it is to hear, much less speak," Harris said. "Because the truth is that the democracy of the United States of America is only standing as it is

because of the faith and the purpose of the American people to fight for it.” Other highlights from the interview: On Republican reaction to Jan. 6: Harris said she applauded Rep. Liz Cheney, R-Wyo., who blamed Trump for stoking the riots. House Republicans have subsequently stripped Cheney of her leadership role, while Democrats promoted her to vice chairwoman of the House committee that is investigating the Jan. 6 attacks. Harris said she wouldn’t speak to whether the Jan. 6 committee was considering criminal prosecution as she was not “privy to the internal facts” made available to the committee. On voting rights: The U.S. needs federal laws “that guarantee the freedom and right of every American to have access to the ballot,” Harris said. She called on Congress to pass the John Lewis Voting Rights Act and the Freedom to Vote Act, saying they’re important to upholding the right to vote in free and fair elections. The legislation has passed the House, but has stalled in the Senate as Democrats do not have enough votes to overcome a Republican filibuster. On COVID-19: Harris stood by the administration’s approach to the COVID-19 pandemic response, saying progress has been made over the last year – vaccines, boosters and masks have helped schools and businesses reopen. But there’s still work to do, she added. Nearly two years into the pandemic, Harris said she recognized many people have reached “a level of malaise.” “We want to get back to normal,” but we must do the work of “pushing through with solutions ... let’s meet the challenges where they are,” she said. The administration has drawn criticism in recent weeks for testing capacity and access, and in a pair of letters published Thursday in the journal JAMA, six public health advisers who served on the Biden-Harris transition team urged the White House to shift its vaccine-focused response to focus more on testing, surveillance and public health as a way toward a “new normal.”

Verizon and AT&T are forging ahead with their plan to switch to new high speed 5G service nationwide – but with an important exception near U.S. airports and runways. Those exceptions were made Tuesday because of fears that the new technology could interfere with plane technology and potentially impact landings. Science correspondent Miles O'Brien unpacks the details.

Before the COVID-19 pandemic hit, about 200,000 rode the train through the tunnel under the Hudson river between New York and New Jersey every day. The tunnel, built in 1910, is over 111 years old—and due to lingering damage from Superstorm Sandy, is getting more unstable each day. The project had been in a holding pattern, but now, with the passing of Biden's \$1 trillion infrastructure package, the repairs can finally begin. Hari Sreenivasan reports from New Jersey.

On April 2, 1936, when the 22-year-old son of a sharecropper entered the Olympic Stadium in Berlin, he was, he later remembered, barely able to control his anger. "I was angry because of the insults that Hitler and the other German leaders had hurled at me and my Negro teammates on the Olympic squad." The young athlete would channel his raw emotions into some of the most remarkable achievements in the history of athletics, winning four gold medals. To tell the story of Owens' remarkable victories in the face of Nazi racism, this film begins in the poor Cleveland neighborhood where the young athlete grew up; details his early career; describes Adolf Hitler's outsized ambitions for the 1936 Olympics; explores the movement in Western democracies to boycott the event; and explains the pressures on Owens to attend. The film also reveals the unlikely relationship Owens struck up at the games with his German rival Carl "Luz" Long and shows, that in the end, despite his success in Germany, Owens struggled to find a place for himself in a United States that was still wrestling to overcome its own deeply entrenched racism.

On Presidents Day, we look at the White House during the Kennedy years. A new exhibit called "First Children" at the John F. Kennedy Presidential Library and Museum in Boston, shows how the young residents navigated their new home, and how mother and First Lady Jacqueline Kennedy tried to protect her children from the press and public. GBH Boston's Jared Bowen reports for our series, "CANVAS."

Length: 60 minutes
Airdate: 2/22/2022 10:30:00 PM
Service: PBS
Format: Documentary
Segment Length: 01:00:00

Follow the courageous journey of John Lewis, whose unwavering fight for justice spans the past 50 years, from his youth in the segregated South, through his leadership within the Civil Rights movement, to his current role as a powerful voice in Congress. He was the youngest speaker at the historic 1963 March on Washington, where Dr. King delivered his legendary "I Have a Dream" speech. And in March 1965, Lewis led the Bloody Sunday march in Selma, where Alabama State Troopers attacked peaceful protesters with billy clubs, bullwhips and tear gas. Their horrific actions were broadcast on nightly news reports into living rooms across America; eight months later, the Voting Rights Act was signed into law. Once an activist pushing from the outside, Lewis, now 76 years old, has become a determined legislator making noise on the inside. Considered by many to be the conscience of Congress, with equal measures of modesty and forcefulness, Lewis strives to persuade D.C. powerbrokers to hear the voices of the unheard. Despite setbacks-and there have been many-John Lewis' eyes remain on the prize.

In an underknown piece of New York history, the South Bronx looked like a war zone after an epidemic of fires in the 1970s. It was up to Vivian Vazquez and other community leaders to save their neighborhoods. Abandoned by landlords and city officials, buildings burned almost continuously from an estimated forty fires a day that razed 80% of area housing stock and displaced a half million residents. With the help of fellow survivors, Vivian tells the story of the brave advocates who banded together amidst the rubble and built a better future for their children.

Segment Length: 00:51:10

On April 2, 1936, when the 22-year-old son of a sharecropper entered the Olympic Stadium in Berlin, he was, he later remembered, barely able to control his anger. "I was angry because of the insults that Hitler and the other German leaders had hurled at me and my Negro teammates on the Olympic squad." The young athlete would channel his raw emotions into some of the most remarkable achievements in the history of athletics, winning four gold medals. To tell the story of Owens' remarkable victories in the face of Nazi racism, this film begins in the poor Cleveland neighborhood where the young athlete grew up; details his early career; describes Adolf Hitler's outsized ambitions for the 1936 Olympics; explores the movement in Western democracies to boycott the event; and explains the pressures on Owens to attend. The film also reveals the unlikely relationship Owens struck up at the games with his German rival Carl "Luz" Long and shows, that in the end, despite his success in Germany, Owens struggled to find a place for himself in a United States that was still wrestling to overcome its own deeply entrenched racism.

Pharmacists and pharmacy workers get far less attention than other health care workers, but the stress and pressure has been intense. Staffing shortages and working conditions have been a problem throughout the pandemic, and major pharmacy chains and independent stores were recently forced to reduce hours as omicron surged and staff became sick. Here's what we heard from pharmacists themselves.

Segment Length: 00:51:10

On April 2, 1936, when the 22-year-old son of a sharecropper entered the Olympic Stadium in Berlin, he was, he later remembered, barely able to control his anger. "I was angry because of the insults that Hitler and the other German leaders had hurled at me and my Negro teammates on the Olympic squad." The young athlete would channel his raw emotions into some of the most remarkable achievements in the history of athletics, winning four gold medals. To tell the story of Owens' remarkable victories in the face of Nazi racism, this film begins in the poor Cleveland neighborhood where the young athlete grew up; details his early career; describes Adolf Hitler's outsized ambitions for the 1936 Olympics; explores the movement in Western democracies to boycott the event; and explains the pressures on Owens to attend. The film also reveals the unlikely relationship Owens struck up at the games with his German rival Carl "Luz" Long and shows, that in the end, despite his success in Germany, Owens struggled to find a place for himself in a United States that was still wrestling to overcome its own deeply entrenched racism.

Series Title: John Lewis - Get in the Way
Length: 60 minutes
Airdate: 2/22/2022 10:30:00 PM
Service: PBS
Format: Documentary
Segment Length: 01:00:00

Follow the courageous journey of John Lewis, whose unwavering fight for justice spans the past 50 years, from his youth in the segregated South, through his leadership within the Civil Rights movement, to his current role as a powerful voice in Congress. He was the youngest speaker at the historic 1963 March on Washington, where Dr. King delivered his legendary "I Have a Dream" speech. And in March 1965, Lewis led the Bloody Sunday march in Selma, where Alabama State Troopers attacked peaceful protesters with billy clubs, bullwhips and tear gas. Their horrific actions were broadcast on nightly news reports into living rooms across America; eight months later, the Voting Rights Act was signed into law. Once an activist pushing from the

outside, Lewis, now 76 years old, has become a determined legislator making noise on the inside. Considered by many to be the conscience of Congress, with equal measures of modesty and forcefulness, Lewis strives to persuade D.C. powerbrokers to hear the voices of the unheard. Despite setbacks-and there have been many-John Lewis' eyes remain on the prize.

Maryland's Democratic Rep. Jamie Raskin gained national attention when he was tapped to lead the second impeachment trial against then-President Trump. The appointment came soon after losing his son to suicide. In a deeply personal book, "Unthinkable: Trauma, Truth, and the Trials of American Democracy," he writes about his son's battle with depression, his death, as well as the Jan. 6 attack.

This week in Congress something happened that has been relatively rare in recent years -- there were bipartisan agreements on multiple pieces of legislation. Bills tackling the U.S. Postal Service's financial struggles and a major issue regarding workplace sexual harassment and assault are moving forward with support by both sides of the aisle. Lisa Desjardins joins Judy Woodruff to discuss.

Segment Length: 00:51:10

On April 2, 1936, when the 22-year-old son of a sharecropper entered the Olympic Stadium in Berlin, he was, he later remembered, barely able to control his anger. "I was angry because of the insults that Hitler and the other German leaders had hurled at me and my Negro teammates on the Olympic squad." The young athlete would channel his raw emotions into some of the most remarkable achievements in the history of athletics, winning four gold medals. To tell the story of Owens' remarkable victories in the face of Nazi racism, this film begins in the poor Cleveland neighborhood where the young athlete grew up; details his early career; describes Adolf Hitler's outsized ambitions for the 1936 Olympics; explores the movement in Western democracies to boycott the event; and explains the pressures on Owens to attend. The film also reveals the unlikely relationship Owens struck up at the games with his German rival Carl "Luz" Long and shows, that in the end, despite his success in Germany, Owens struggled to find a place for himself in a United States that was still wrestling to overcome its own deeply entrenched racism.

In his attack on Ukraine, Putin is relying heavily on his neighbor, Belarusian strongman Alexander Lukashenko, using the country to base Russian troops. Before Putin's invasion of Ukraine, Lukashenko was known as Europe's last dictator, and a referendum this Sunday could further cement his grip on power - it could keep him in office until 2035 and move his country even closer to Putin.

NATO leaders held an emergency summit today, announcing deployment of more forces and calling on Russia to withdraw theirs. Western officials are warning the Ukrainian capital could fall within days as Russian forces try to encircle Kyiv. Member of Parliament Lesia Vasylenko is also still in the capital city even as it is under assault.

The people of Lithuania have lived in the shadow of Russia since they won their independence from the Soviet Union in 1991. Several thousand Lithuanian women protested at the Russian embassy on Sunday, calling upon the mothers of Russian soldiers to rise up and stop the war in Ukraine. Dalia Grybauskaite was president of Lithuania during Putin's first invasion of Ukraine in 2014.

Afghanistan's women saw two decades of progress vanish when U.S. forces withdrew in August as the Taliban took back control of the country. The group's arch-conservative interpretation of Islam pushed women out of the workplace, and cast most young women and girls out of school. But as Jane Ferguson and videographer Eric O'Connor report, some women in Afghanistan are not taking this lying down.

Segment Length: 00:00:00

Dolores Huerta's fascinating life, from the fearless young woman confronting teamsters on violent picket lines to the activist grandmother nearly beaten to death by a San Francisco police squad, was overshadowed by the legacy of Cesar Chavez. After she was forced from the ranks of the all-male union leadership after his death, Dolores learns the painful truth- that her gender is the greatest obstacle of all. But she turns her defeat into inspiration, setting the course for a lifetime pursuit of equality for all. While tracing Huerta's trajectory through the most radical social and cultural movements of the past 50 years, from brown power and feminism to LGBTQ rights and environmental justice, Dolores provides an unflinching look at the barriers faced by women and people of color within the very communities they're fighting for.

In an underknown piece of New York history, the South Bronx looked like a war zone after an epidemic of fires in the 1970s. It was up to Vivian Vazquez and other community leaders to save their neighborhoods. Abandoned by landlords and city officials, buildings burned almost continuously from an estimated forty fires a day that razed 80% of area housing stock and displaced a half million residents. With the help of fellow survivors, Vivian tells the story of the brave advocates who banded together amidst the rubble and built a better future for their children.

From the mighty grizzly bear to the endearing spectacled bear ("Paddington Bear" in real-life) and from the bamboo-eating panda to the bizarre-looking sloth bear, this animal family has long captured the human imagination. Among the biggest land mammals on the planet, bears need a lot of resources to survive and must use all of their skills, brawn and brains to get what they need -- whether they're raiding nature's larder, standing up to their rivals or raising cubs. Follow the adventures of bears across the globe as they draw on their remarkable adaptations to survive in an ever-changing world. Find out what it really takes to be a bear.

Unveiling a world of deceit and treachery worthy of any fictional thriller: plants behaving badly. Two groups of plants exhibit such intriguing behavior that a century and a half ago they attracted the attention of Charles Darwin. These same plants, orchids and their carnivorous relatives, still fascinate scientists today. Darwin's book 'On the Origin of Species' shook the scientific world and far beyond. Yet it was his next book, devoted entirely to orchids, which filled in crucial gaps and clarified his revolutionary ideas. Orchids have an ethereal beauty, whether growing hundreds of feet up in a misty rainforest or along the verges of busy suburban roads. But their exotic flowers are shaped for just one purpose - to seduce pollinators. Many use sex as a lure by impersonating a female bee or wasp. But it's not only about the orchids: scientists have recently shown that there are many more carnivorous plants than we ever thought existed. Welcome to the world of killer tomatoes and murderous potatoes! Even the more well-known carnivorous plants - sundews, flytraps and pitchers - are revealing new behaviour. Carnivorous plants have featured in many sci-fi films over the years, but the reality turns out to be far stranger than the fiction.

Livestock production—primarily cows—produce 14.5 percent of global greenhouse gas emissions. The majority of that is in the form of methane, a potent greenhouse gas that is a natural byproduct of how some livestock process food. But as Christopher Booker reports, scientists are hoping that small tweaks in what cows eat can dramatically reduce a big source of climate emissions.

Dolores Huerta's fascinating life, from the fearless young woman confronting teamsters on violent picket lines to the activist grandmother nearly beaten to death by a San Francisco police squad, was overshadowed by the legacy of Cesar Chavez. After she was forced from the ranks of the all-male union leadership after his death, Dolores learns the painful truth- that her gender is the greatest obstacle of all. But she turns her defeat into inspiration, setting the course for a lifetime pursuit of equality for all. While tracing Huerta's trajectory through the most radical social and cultural movements of the past 50 years, from brown power and feminism to LGBTQ rights and environmental justice, Dolores provides an unflinching look at the barriers faced by women and people of color within the very communities they're fighting for.

As COVID-19 swept across the United States it became clear that the virus disproportionately affected certain racial and ethnic groups. But the outsized impact of the pandemic on one community -- Native Hawaiians and Pacific Islanders -- has been largely hidden because of inconsistent data collection and reporting. Stephanie Sy reports as part of our series, "Race Matters."

In an underknown piece of New York history, the South Bronx looked like a war zone after an epidemic of fires in the 1970s. It was up to Vivian Vazquez and other community leaders to save their neighborhoods. Abandoned by landlords and city officials, buildings burned almost continuously from an estimated forty fires a day that razed 80% of area housing stock and displaced a half million residents. With the

help of fellow survivors, Vivian tells the story of the brave advocates who banded together amidst the rubble and built a better future for their children.

Chain-smoking Iraqi "Phillip Morris" escaped his homeland in 2011 and landed in Minnesota via the U.S. Special Immigrant Visa program, a backlogged and often dysfunctional conduit for the tens of thousands of local interpreters who have risked their lives to help U.S. troops in Afghanistan and Iraq. Despite the frightening, years-long wait for his visa to come through, despite his relentless immigration battles on behalf of his family left behind in Iraq, Phillip has fared better than many of his peers in a climate where accusations of treason often trigger a gruesome death sentence. Now living in Minneapolis, he personifies success for a visa program that was launched to protect people like Phillip but is threatened by rising anti-refugee sentiment. The Interpreters follows the stories of Phillip and three interpreters who face the impossible decision of waiting for paperwork that may never

materialize or attempting a hazardous exit route to Europe. Meanwhile, hope dwindles for the thousands of interpreters seeking survival as a reward for their sacrifice.

Format: Documentary
Segment Length: 00:00:00

Dolores Huerta's fascinating life, from the fearless young woman confronting teamsters on violent picket lines to the activist grandmother nearly beaten to death by a San Francisco police squad, was overshadowed by the legacy of Cesar Chavez. After she was forced from the ranks of the all-male union leadership after his death, Dolores learns the painful truth- that her gender is the greatest obstacle of all. But she turns her defeat into inspiration, setting the course for a lifetime pursuit of equality for all. While tracing Huerta's trajectory through the most radical social and cultural movements of the past 50 years, from brown power and feminism to LGBTQ rights and environmental justice, Dolores provides an unflinching look at the barriers faced by women and people of color within the very communities they're fighting for.

Series Title: Zelensky: The Man Who Took on Putin
Length: 30 minutes
Airdate: 3/18/2022 10:30:00 PM
Service: PBS-NPS
Format: Documentary

Segment Length: 00:26:46

This documentary charts the rise of the comedian, actor and entertainer who became the improbable wartime leader. For some he was the political lightweight, whose approval ratings had slipped and was not trusted to deal with the rising tensions with Russia. But in the last few weeks Zelenskyy's uncompromising stand -which has led to this current face off with Vladimir Putin -has transformed his image and popularity, both at home and abroad. The film explores the man behind the series of game changing social media and TV appearances which have encapsulated the defiant response of a nation. What motivates him? How did he transform from joker to leader and what is the next chapter of his story?

Segment Length: 00:00:00

Dolores Huerta's fascinating life, from the fearless young woman confronting teamsters on violent picket lines to the activist grandmother nearly beaten to death by a San Francisco police squad, was overshadowed by the legacy of Cesar Chavez.

After she was forced from the ranks of the all-male union leadership after his death, Dolores learns the painful truth- that her gender is the greatest obstacle of all. But she turns her defeat into inspiration, setting the course for a lifetime pursuit of equality for all. While tracing Huerta's trajectory through the most radical social and cultural movements of the past 50 years, from brown power and feminism to LGBTQ rights and environmental justice, Dolores provides an unflinching look at the barriers faced by women and people of color within the very communities they're fighting for.

Segment Length: 01:00:00

Unveiling a world of deceit and treachery worthy of any fictional thriller: plants behaving badly. Two groups of plants exhibit such intriguing behavior that a century and a half ago they attracted the attention of Charles Darwin. These same plants, orchids and their carnivorous relatives, still fascinate scientists today. Darwin's book 'On the Origin of Species' shook the scientific world and far beyond. Yet it was his next book, devoted entirely to orchids, which filled in crucial gaps and clarified his revolutionary ideas. Orchids have an ethereal beauty, whether growing hundreds of feet up in a misty rainforest or along the verges of busy suburban roads. But their exotic flowers are shaped for just one purpose - to seduce pollinators. Many use sex as a lure by impersonating a female bee or wasp. But it's not only about the orchids: scientists have recently shown that there are many more carnivorous plants than we ever thought existed. Welcome to the world of killer tomatoes and murderous potatoes! Even the more well-known carnivorous plants - sundews, flytraps and pitchers - are revealing new behaviour. Carnivorous plants have featured in many sci-fi films over the years, but the reality turns out to be far stranger than the fiction.

American astronaut Mark Vande Hei returned to Earth Wednesday from the International Space Station along with two fellow Russian cosmonauts. He was in space for 355 straight days, longer than any American yet. But attention will return to private efforts Thursday as Blue Origin, the rocket company founded by Jeff Bezos, will launch its latest human flight. Miles O'Brien reports.

Format: Documentary
Segment Length: 00:00:00

Some 30 million Americans have sent their DNA to be analyzed by companies like 23andMe and AncestryDNA, hoping to obtain clues to family origins and forecasts of their future health. Some users have found family members and discovered lurking genetic risks. But what happens once the sample is in the hands of testing companies? What are they looking at and how accurate are their results? NOVA explores the power of this information and the unintended consequences that can arise from sharing our data with these rapidly growing online databases. DNA results that offer estimates of health risks can be misleading, and the discovery of intimate family secrets can tear relationships apart. Meanwhile, law enforcement is increasingly turning to the DNA-sharing website GEDmatch as an extraordinarily powerful tool for cracking cold cases, as demonstrated by the 2018 arrest of California's notorious Golden State Killer after 42 years at large. What is the peril and promise of consumer DNA testing?

There have been growing calls in recent days for the United States and NATO to establish a no-fly zone over Ukraine. Ukrainian President Zelensky reiterated the plea on Monday, but what is a no-fly zone and how would it work? For that we turn to two former U.S. ambassadors to NATO. Retired Army Lt. General Doug Lute and Kurt Volker join Judy Woodruff to discuss.

Russian forces bombarded cities in Ukraine Tuesday as the war raged for a sixth day. Kharkiv, in the northeast, was particularly hard-hit and the port city of Mariupol in the southeast appeared surrounded. Nevertheless, the Pentagon says a drive by Russian

forces toward the capital, Kyiv, appears to be stalled as Ukrainian forces kept up their fierce resistance. Nick Schifrin reports from Kyiv.

Segment Length: 00:00:00

Chain-smoking Iraqi "Phillip Morris" escaped his homeland in 2011 and landed in Minnesota via the U.S. Special Immigrant Visa program, a backlogged and often dysfunctional conduit for the tens of thousands of local interpreters who have risked their lives to help U.S. troops in Afghanistan and Iraq. Despite the frightening, years-long wait for his visa to come through, despite his relentless immigration battles on behalf of his family left behind in Iraq, Phillip has fared better than many of his peers in a climate where accusations of treason often trigger a gruesome death sentence. Now living in Minneapolis, he personifies success for a visa program that was launched to protect people like Phillip but is threatened by rising anti-refugee sentiment. The Interpreters follows the stories of Phillip and three interpreters who face the impossible decision of waiting for paperwork that may never materialize or attempting a hazardous exit route to Europe. Meanwhile, hope dwindles for the thousands of interpreters seeking survival as a reward for their sacrifice.

CIA director William Burns told the Senate Intelligence Committee Thursday that he believes Vladimir Putin is losing the "information war" over Ukraine, and this may chip away at his domestic support for the invasion. But what are Russian citizens hearing about the war? Anton Shirikov, who researches misinformation at the University of Wisconsin at Madison, joins William Brangham to discuss.

Russian forces attacked western Ukraine for the first time, launching strikes on airfields, and thus widening the two-and-a-half-week war. Russia also hit a major industrial city in the east, as it continued its brutal campaign, while U.S. officials said Russia is making incremental advances toward Kyiv. NewsHour's foreign affairs correspondent Nick Schiffrin reports from the western city of Lviv.

Dolores Huerta's fascinating life, from the fearless young woman confronting teamsters on violent picket lines to the activist grandmother nearly beaten to death by a San Francisco police squad, was overshadowed by the legacy of Cesar Chavez. After she was forced from the ranks of the all-male union leadership after his death, Dolores learns the painful truth- that her gender is the greatest obstacle of all. But she turns her defeat into inspiration, setting the course for a lifetime pursuit of equality for all. While tracing Huerta's trajectory through the most radical social and cultural movements of the past 50 years, from brown power and feminism to LGBTQ rights and environmental justice, Dolores provides an unflinching look at the barriers faced by women and people of color within the very communities they're fighting for.
