

The following is a summary of Issues/Programs for Q3 as presented on WFNK, Lewiston, ME.

On Friday, August 30<sup>th</sup>, WFNK teamed up with the American Red Cross to actively promote a blood drive called “Out For Blood.” With vacations, especially Labor Day Weekend resulting in regular donors missing their regular blood donation appointments, this causes a significant dip in the local blood supply, so this effort is designed to replenish these all-important blood banks. From five donor locations in Portland, Saco, Sanford, Lewiston and Rockport, a total of 123 pints of blood were raised as a result.

On September 12-13 WFNK participated in the annual “Pay for Play” benefit to support the programs of the Barbara Bush Children’s Hospital. For 30 consecutive hours of programming, WFNK solicited musical requests, which were played as long as listeners made a donation to the Barbara Bush Children’s Hospital. A total of \$17,268 was raised to support the Hospital, which provides treatment for children across the state.

The following topics/issues were addressed via the weekly “Community Connections” program in the third quarter of 2019.

“Community Connections” is a weekly, 30 minute community affairs program spotlighting organizations and individuals in Maine who address issues affecting citizens, work to improve the quality of life in Maine, and deal with human interest topics across many disciplines. Here is a rundown of the program contents for Q3:

Show: Community Connections                      Airdate: 7/7/2019              Airtime: 5:30am

Guests:              Delilah Poupoure, Executive Director, Heart of Biddeford (*encore presentation*)

Topics/Issues: We discuss the many changes over the past decade-plus in Downtown Biddeford, Maine, from the repurposing of old mill buildings to new businesses and cultural offerings as Heart of Biddeford has worked to redefine the city’s downtown. We discuss Biddeford’s status as an alternative to larger cities like Portland in terms of housing and tourism, as well as the positive effects and challenges this growth brings.
